
SCOTTISH STATUTORY INSTRUMENTS

2008 No. 298

**The Action Programme for Nitrate Vulnerable
Zones (Scotland) Regulations 2008**

PART 2

Exclusions from storage capacity

8. In calculating the quantity of livestock manure for the purposes of regulations 6 and 7 the following may be disregarded—

- (a) any solids to be removed from slurry, other than pig slurry, by means of a slurry separator, up to a maximum of 20% of the total slurry produced;
- (b) any solids to be removed from pig slurry, by means of a slurry separator, up to a maximum of 10% of the total slurry produced;
- (c) any quantity of livestock manure to be moved off the farm;
- (d) any quantity of livestock manure to be transferred to a person authorised under the Pollution Prevention and Control (Scotland) Regulations 2000⁽¹⁾ or the Waste Management Licensing Regulations 1994⁽²⁾ for the collection, recovery or disposal of the manure;
- (e) any quantity of livestock manure to be disposed of under contract to a manure processing facility or to an approved treatment or recovery outlet.

⁽¹⁾ S.S.I. 2000/323 to which there are amendments not relevant to these Regulations.

⁽²⁾ S.I. 1994/1056 to which there are amendments not relevant to these Regulations.
