## The Food Irradiation (Scotland) Regulations 2009

### Interpretation

3.—(1) In these Regulations—

“the Act” means the Food Safety Act 1990;

“the Agency” means the Food Standards Agency;

“approval” includes a licence;

“approved” includes “licensed”;

“import” means to introduce from another member State or from a country outside the European Community;

“ionising radiation” means any gamma rays, X-rays or corpuscular radiations which are capable of producing ions either directly or indirectly;

“irradiated” means treated by ionising radiation, and similar expressions shall be construed accordingly;

“licence” except in regulation 7(a)(ii)(bb) means a licence granted by the Agency in accordance with Schedule 2 to a person and a facility to irradiate food and “licensed” and “licensee” shall be construed accordingly;

“official reference number” in relation to a facility in a member State means the reference number allocated by the member State in connection with its approval as an irradiation facility (being the number shown for it in the list in Schedule 3);

“sell” includes possess, offer, expose and advertise for sale, and “sale” shall be construed accordingly.

(2) For the purposes of these Regulations—

(a) “properly irradiated food” means food which—

(i) was either irradiated alone or as part of a batch of food in which each item was food which fell within the same permitted category of food; and

(ii) has not been over-irradiated,

and “proper irradiation” shall be construed accordingly;

(b) food falls within a permitted category of food when (excluding the weight of any added water) no less than 98 per cent of it by weight falls within that category, and “item”, in relation to a batch of food, means each item within that batch intended to be capable of being sold individually;

(c) the permitted categories of food are—

(i) fruit;

(ii) vegetables;

(iii) cereals;

(iv) bulbs and tubers;
