(a) admission has been refused, or a refusal is expected, and (in either case) notice to apply for a warrant has been given to the occupier;

(b) asking for admission, or the giving of such a notice, would defeat the object of the entry;

(c) the case is one of urgency; or

the justice may by a signed warrant authorise inspectors to enter the premises, if need be by reasonable force.

1.—(1) For the purpose of monitoring under Article 6 of the EU TSE Regulation, a person who has possession or control of the body of a goat aged 18 months or over at death, must—

- (a) within 24 hours from the time when the animal died or was killed or the body came into that person's possession or control notify the Scottish Ministers; and
- (b) where the Scottish Ministers direct, retain it until it has been collected by or on behalf of the Scottish Ministers,

and failure to do so is an offence.

(2) This paragraph does not apply in relation to goats slaughtered for human consumption or killed in accordance with Schedule 4.

Delivery of the body of a bovine animal for the purpose of monitoring under Article 6 of the EU TSE Regulation

2.—(1) For the purpose of monitoring under Article 6 of the EU TSE Regulation, a person who has possession or control of the body of a bovine animal that must be tested for BSE in accordance with point 3.1 of Part I of Chapter A of Annex III to that Regulation (monitoring in animals not slaughtered for human consumption) must, unless directed otherwise by the Scottish Ministers, within 24 hours either—

- (a) make arrangements with another person for that other person to collect it and deliver it to an approved sampling site within 72 hours; or
- (b) identify an approved sampling site that will carry out the sampling and deliver the animal to that site so as to arrive at the site within 72 hours,

and failure to do so is an offence.

(2) The periods of 24 and 72 hours referred to in sub-paragraph (1) run from the time when the animal died or was killed or the body came into the possession or control of the person to whom the requirements of that sub-paragraph apply.

Persons collecting and delivering

3. A person with whom arrangements are made under paragraph 2(1)(a) for the delivery of a body to an approved sampling site must, unless directed otherwise by the Scottish Ministers, within 48 hours of the time when the body comes into that person's possession or control—

- (a) identify an approved sampling site that will carry out the sampling; and
- (b) ensure it is delivered to that site,

and failure to do so is an offence.

Destruction without sampling

4. Any person who destroys the body of a bovine animal to which paragraph 2(1) applies before it has undergone sampling at an approved sampling site, except in accordance with a direction of the Scottish Ministers, commits an offence.

Retention of bodies of bovine animals pending test results

5. An approved sampling site to which the body of a bovine animal has been sent for sampling in accordance with this Part must retain it in accordance with point 6.3 of Part I of Chapter A of Annex III to the EU TSE Regulation (measures following testing), and failure to do so is an offence.

Island areas

6.—(1) The requirements of paragraphs 1(1) and 2 do not apply in an island area.

(3) The exemption in sub-paragraph (1) continues to apply even if the body of the animal has been removed from an island area.

Consignment and slaughter of over-age bovine animals

7.—(1) If a bovine animal was born or reared in the United Kingdom before 1st August 1996, it is an offence—

- (a) to consign it to a slaughterhouse for human consumption (whether the animal is alive or dead); or
- (b) to slaughter it for human consumption.

(2) For the purposes of sub-paragraph (1), a bovine animal is deemed to have been born or reared in the United Kingdom before 1st August 1996 unless its cattle passport shows either that—

- (a) it was born in the United Kingdom on or after 1st August 1996; or
- (b) it first entered the United Kingdom on or after 1st August 1996.

Brain stem sampling of bovine animals (slaughterhouses)

8.—(1) The occupier of a slaughterhouse in which a bovine animal which must be tested in accordance with point 2 of Part I of Chapter A of Annex III to the EU TSE Regulation (monitoring in animals slaughtered for human consumption) is slaughtered or (if the animal is slaughtered at a place other than a slaughterhouse) processed must—

- (b) ensure that the animal from which the sample has been taken can be identified; and
- (c) arrange for the sample to be delivered to an approved testing laboratory,

and failure to do so is an offence.

(2) The Scottish Ministers must, by means of a notice, notify the occupier of a slaughterhouse if an animal comes into any of the categories specified in point 2.1 of Part I of Chapter A of Annex III to the EU TSE Regulation (except in the case of a dead animal consigned to a slaughterhouse with a written declaration from a veterinary surgeon that it falls into one of those categories).

(3) For the purposes of point 5 of Part I of Chapter A of Annex III to the EU TSE Regulation (monitoring in other animals), the Scottish Ministers may serve a notice on the occupier of a slaughterhouse requiring the occupier to take a sample from any bovine animal slaughtered there and send it for testing in accordance with sub-paragraph (1).

Brain stem sampling of bovine animals (other places of slaughter)

9. The occupier of a place—

- (a) that, for the purposes of point 4.1(a) of Annex V to the EU TSE Regulation (removal of specified risk material), is an other place of slaughter; and
- (b) in which a bovine animal covered by point 2 of Part I of Chapter A of Annex III to the EU TSE Regulation (monitoring in animals slaughtered for human consumption) is slaughtered must—
 - (i) arrange for a sample, comprising the brain stem, to be taken for testing in accordance with point 1 of Chapter C of Annex X to the EU TSE Regulation (sampling);
 - (ii) ensure that the animal from which the sample has been taken can be identified; and
 - (iii) arrange for the sample to be delivered to an approved testing laboratory,

and failure to do so is an offence.

Approval of laboratories

10.—(1) The Scottish Ministers must approve laboratories to test samples taken under paragraph 8 if the Scottish Ministers are satisfied that the laboratory—

- (a) will carry out the testing in accordance with Chapter C of Annex X to the EU TSE Regulation (sampling and laboratory testing);
- (b) has adequate quality control procedures; and
- (c) has adequate procedures to ensure the correct identification of the samples and notification of the test results to the consigning slaughterhouse and to the Scottish Ministers.

(2) The Scottish Ministers may charge the fees set out in the following table for the initial approval and ongoing quality assessment of a laboratory—

Status: This is the original version (as it was originally made).

(2) For the purposes of this Schedule, an “approved sampling site” means a sampling site approved under this paragraph or a sampling site in another part of the United Kingdom approved by the competent authority in that part of the United Kingdom to carry out sampling under the EU TSE Regulation.

Slaughter of bovine animals

12.—(1) It is an offence for the occupier to use a slaughterhouse to slaughter for human consumption a bovine animal that, in accordance with point 2 of Part I of Chapter A of Annex III to the EU TSE Regulation (monitoring in animals slaughtered for human consumption), requires BSE testing at slaughter, unless the Scottish Ministers have approved the Required Method of Operation (“RMOP”) for that slaughterhouse and that occupier.

(2) The RMOP must, as a minimum, describe—

- (a) the procedures that will be followed to comply with Part 1 of this Schedule; and

⁽²⁷⁾ Designated under Article 33(1) of Regulation (EC) No. 882/2004 (O.J. No. L 165, 30.4.2004, p.1).

(3) The Scottish Ministers must approve the RMOP if they are satisfied that all the requirements of the EU TSE Regulation and these Regulations will be complied with, and the occupier must demonstrate this by means of an assessment of 2 days' duration during which animals are slaughtered (using bovine animals that are not required, under point 2 of Part I of Chapter A of Annex III to the EU TSE Regulation, to be tested for BSE).

(4) If a bovine animal referred to in sub-paragraph (1) is slaughtered for human consumption other than in accordance with the RMOP, the occupier of the slaughterhouse is guilty of an offence.

Retention of products and disposal

13.—(1) In relation to any sampled bovine animal, the occupier of a slaughterhouse or other place of slaughter (for the purposes of point 4.1(a) of Annex V to the EU TSE Regulation (removal of specified risk material), hide market or tannery must, for the purpose of point 6.3 of Part I of Chapter A of Annex III to the EU TSE Regulation (measures following testing) and pending receipt of the test result, either—

- (a) retain all carcasses and all parts of the body (including the blood and the hide) that will have to be disposed of in the event of a positive result; or
- (b) dispose of them in accordance with sub-paragraph (2).

(2) For the purposes of points 6.4 and 6.5 of that Part, if a positive result is received for a sampled bovine animal, the occupier must immediately dispose of—

- (b) unless a derogation has been granted under sub-paragraph (5), the carcass and all parts of the body (including the blood and the hide) of the animal immediately preceding that animal on the slaughter line and the 2 animals immediately following it,

in accordance with point 6.4 of that Part.

(3) If no sample has been sent to or no sample has been received by, an approved testing laboratory for testing in accordance with paragraphs 8 and 9, or if an insufficient test result is received, in respect of a bovine animal required to be tested under this Schedule, the occupier must immediately dispose of—

- (a) the carcass and all parts of the body (including the blood and the hide) of that animal; and
- (b) unless a derogation has been granted under sub-paragraph (5), the carcass and all parts of the body (including the blood but not the hide) of the animal immediately preceding that animal on the slaughter line and the 2 animals immediately following it,

in accordance with point 6.4 of that Part; and for the purposes of this sub-paragraph an “insufficient test result” means a certification by an approved testing laboratory that the sample sent to the laboratory was not of an adequate quality or was not of a sufficient quantity to obtain a test result.

(4) If a no-test result is received in respect of an animal required to be tested under this Schedule, the occupier must immediately dispose of the carcass and all parts of the body (including the blood and the hide) of that animal in accordance with point 6.4 of that Part; and for the purposes of this sub-paragraph a “no-test result” means a negative result from a sample following multiple rapid testing where such testing was certified as necessary by an approved testing laboratory.

(5) The Scottish Ministers may grant in writing a derogation under point 6.6 of Part I of Chapter A of Annex III to the EU TSE Regulation if they are satisfied that there is a system in place that prevents contamination between carcasses.

(6) Failure to comply with sub-paragraphs (1) to (4) is an offence.

TSE sampling of sheep, goats and deer

14.—(1) In relation to any sheep or goat selected for sampling, the occupier of a slaughterhouse, hide market or tannery must—

- (a) for the purposes of point 7.3 of Part II of Chapter A of Annex III to the EU TSE Regulation (measures following testing of ovine and caprine animals), retain the carcase and all parts of the body (including the blood and the hide) pending receipt of the test result (except to the extent that point 7.3 permits direct disposal of animal by-products pending receipt of a negative rapid test result); and
- (b) in the event of a positive result, immediately dispose of the carcase and all parts of the body (including the blood and the hide) in accordance with point 7.4 of that Part.

(2) Where—

- (a) a sheep, goat or deer has died, or has been killed, other than for human consumption; and
- (b) either—
 - (i) the death or killing occurred at premises approved, or required to be approved, under the Animal By-Products (Scotland) Regulations 2003⁽²⁸⁾; or
 - (ii) the carcase of the sheep, goat or deer has been taken to those premises,

the occupier of the premises must comply with any direction given by the Scottish Ministers requiring the carcase to be sampled at the premises.

(3) In relation to any deer selected for monitoring for TSE in accordance with Part III of Chapter A of Annex III to the EU TSE Regulation (monitoring in other animal species), the occupier of a slaughterhouse, hide market or tannery must—

- (a) retain the carcase and all parts of the body (including the blood and the hide) pending receipt of the test result; and
- (b) in the event of a positive result, immediately dispose of the carcase and all parts of the body (including the blood and the hide) in accordance with point 7.4 of Part II of Chapter A of Annex III to the EU TSE Regulation.

(4) Failure to comply with sub-paragraph (1), (2) or (3) is an offence.

Compensation

15.—(1) If an animal slaughtered for human consumption tests positive, the Scottish Ministers must pay to the occupier of the slaughterhouse or other place of slaughter compensation for the carcase and all parts of the body (including the blood and the hide) of—

- (a) that animal; and
- (b) if they are destroyed because of that positive result, the animal immediately preceding it on the slaughter line and the 2 animals immediately following it.

(2) The compensation is the market value, established under the procedure in regulation 11(1) to (7) (reading “occupier” wherever “owner” is mentioned in that regulation), with the occupier paying any fee arising for nominating and employing a valuer.

(3) For the purposes of sub-paragraph (2), the market value is the price that would reasonably be expected to have been obtained for the animal from a buyer in the open market at the time of the valuation and on the assumption that the animal was not affected by a TSE.

(4) Compensation under this paragraph is not payable in any other case.

1.—(1) For the purposes of Article 11 of the EU TSE Regulation (notification), any person who has possession or control of any bovine animal suspected of having a TSE must immediately notify the Scottish Ministers and detain it on the premises until it has been examined by a veterinary inspector.

(2) Any veterinary surgeon who examines or inspects any bovine animal suspected of having a TSE must, with all practical speed, notify the Scottish Ministers.

(3) Any person (other than the Scottish Ministers) who examines the body of any bovine animal, or any part of it, in a laboratory and who reasonably suspects the presence of a TSE must immediately notify the Scottish Ministers, and retain the body and any parts of it until a veterinary inspector has authorised disposal.

(4) Failure to comply with this paragraph is an offence.

Restriction of a notified animal

2.—(1) Where a bovine animal is the subject of notification under paragraph 1, an inspector may serve a notice prohibiting its movement from the premises pending determination of whether or not it is suspected of having a TSE.

(2) Movement of restricted animals is only permitted in accordance with regulation 16.

Killing of a suspect animal

3.—(1) For the purposes of paragraphs (1) and (2) of Article 12 of the EU TSE Regulation (measures with respect to suspect animals), if a veterinary inspector suspects that a bovine animal has a TSE the veterinary inspector must—

- (a) cause it to be killed on the holding immediately;
- (b) remove its cattle passport and serve a notice prohibiting the animal from being moved from the holding until it has been killed; or
- (c) ensure that its cattle passport is stamped “Not for human consumption” and serve a notice directing the owner to consign it to other premises for killing and prohibiting movement other than in accordance with that direction.

(2) The inspector must restrict the movement of other bovine animals on the holding in accordance with the second, third and fifth paragraphs of Article 12(1) of the EU TSE Regulation and Article 2(1)(a) of Commission Decision [2007/411/EC](#).

(3) The inspector may restrict the movement of bovine animals on other holdings in accordance with the fourth paragraph of Article 12(1) of the EU TSE Regulation.

(4) If the suspect animal is killed on the holding, it is an offence to remove the body from that holding except in accordance with a written direction from an inspector.

(5) If the suspect animal is not killed immediately, its keeper must dispose of its milk in such a way that it cannot be consumed by humans or animals except its own calf or animals kept for research purposes, and failure to comply with this sub-paragraph is an offence.

an inspector must identify—

- (i) (if the suspect animal is female) all its progeny born within 2 years prior to, or after, clinical onset of the disease; and
- (ii) in all cases all its bovine cohorts born on or after 1st August 1996,

and for these purposes the animal's date of birth is the one shown on its cattle passport.

(2) An inspector must serve notices prohibiting movement of the animals identified in accordance with sub-paragraph (1) from the holding on which they are kept or where the inspector suspects they may be kept (whether or not this is the same holding as that of the suspect animal) and remove their cattle passports.

(3) If the inspector cannot immediately identify the animals specified in sub-paragraph (1) the inspector must prohibit the movement of all bovine animals from the holding pending identification.

(4) Movements of restricted animals are only permitted in accordance with regulation 16.

- (a) (if the animal is female) all its progeny born within 2 years prior to, or after, clinical onset of the disease; and
- (b) in all cases, all the bovine animals in its cohort born on or after 1st August 1996 except where—
 - (i) an inspector is satisfied that the animal did not have access to the same feed as the animal in which a TSE was confirmed; or
 - (ii) the animal is a bull that is kept at, and will not be removed from, a semen collection centre, but it is an offence to remove the animal from the centre except to be killed, and when it is killed the owner must ensure that the carcass is completely destroyed, and failure to do so is an offence.

(2) If the animal is not killed on the holding, an inspector must ensure that its cattle passport is stamped “Not for human consumption” and serve a notice directing the owner to consign it to other premises for killing as specified in the direction.

(3) If the test is confirmed as negative the inspector must remove all restrictions imposed because of the suspect animal and return the cattle passports.

(4) When an animal is killed under this paragraph, it is an offence to remove the body of the animal from the premises on which it was killed except in accordance with a written direction from an inspector.

(5) The appeals procedure in regulation 10 applies to a decision to kill under sub-paragraph (1) (b), and no animal may be killed until—

- (a) receipt of written notification from the person on whom the notice is served that that person has no intention to proceed with an appeal;

If a bovine animal dies or is killed while it is under restriction for any reason under this Schedule, the owner must immediately notify the Scottish Ministers and retain the body on the premises until the owner is directed in writing to move or dispose of it by an inspector, and it is an offence not to comply with this paragraph or to fail to comply with a direction under it.

Placing on the market of progeny

7. Any person who places on the market a bovine animal in contravention of Article 15(2) (live animals, their semen, embryos and ova) of, and Chapter B of Annex VIII (conditions relating to progeny of TSE suspect or confirmed animals referred to in Article 15(2)) to, the EU TSE Regulation is guilty of an offence.

- (b) for the individual animal, the market value.

(2) For buffalo or bison, compensation is the market value.

(3) The market value is the price that might reasonably have been obtained for the individual animal—

- (b) at the time of valuation;
- (c) on the assumption that the animal was not from a herd affected by a TSE; and
- (d) calculated in accordance with regulation 11.

(4) Where the owner and the Scottish Ministers cannot agree on a market value, the valuation must be carried out in accordance with the procedure laid down in regulation 11(3) to (8) with the owner paying any valuation fee arising.

Explanatory Note

Notification

1.—(1) For the purposes of Article 11 of the EU TSE Regulation (notification), any person who has possession or control of any sheep or goat suspected of having a TSE must immediately notify the Scottish Ministers and detain it on the premises until it has been examined by a veterinary inspector.

(2) Any veterinary surgeon who examines or inspects any sheep or goat suspected of having a TSE must, with all practical speed, notify the Scottish Ministers.

(3) Any person (other than the Scottish Ministers) who examines the body of any sheep or goat, or any part of it, in a laboratory and who reasonably suspects the presence of a TSE must immediately notify the Scottish Ministers, and retain the body and any parts of it until a veterinary inspector has authorised disposal.

(4) Failure to comply with this paragraph is an offence.

Restriction of a notified animal

2.—(1) When a sheep or goat is the subject of notification under paragraph 1, a veterinary inspector may, pending determination of whether or not it is suspected of having a TSE, serve a notice prohibiting the movement of the animal from its holding and the movement of any other sheep or goat on to or from that holding.

(2) Movements of restricted animals are only permitted in accordance with regulation 16.

Killing of a suspect animal

3.—(1) For the purposes of Article 12(1) and (2) (measures with respect to suspect animals) of the EU TSE Regulation, if a veterinary inspector suspects that a sheep or goat has a TSE, the inspector must—

- (a) cause the animal to be killed on the holding immediately;
- (b) serve a notice prohibiting the animal from being moved from the holding until it has been killed; or
- (c) serve a notice directing the owner to consign the animal to other premises for killing and prohibiting movement other than in accordance with that direction.

(2) If the animal is killed on the holding, it is an offence to remove the body from the holding except in accordance with a written direction from an inspector.

Movement restrictions

4.—(1) For the purposes of Article 12(1) (measures with respect to suspect animals) of, and point 2.2 of Chapter A of Annex VII (measures following confirmation of the presence of a TSE) to, the EU TSE Regulation, following suspicion of a TSE (whether in a live animal or through the monitoring under Annex III to the EU TSE Regulation (monitoring system)), an inspector—

- (a) must serve a notice prohibiting the movement onto or from its holding of any sheep or goat on the same holding as the suspect animal if the inspector considers that the animal was exposed to a TSE on that holding;
- (b) may serve a notice prohibiting the movement onto or from any holding of any sheep or goat if there is evidence that the suspect animal was exposed to a TSE on that holding;
- (c) may serve a notice prohibiting movement onto or from a holding where an animal specified in point 1(b) of Chapter A of Annex VII to the EU TSE Regulation (measures following confirmation of the presence of a TSE) is kept or where the inspector suspects such an animal is kept; and
- (d) must serve a notice prohibiting the movement of sheep or goat milk, or sheep or goat milk products, derived from any sheep or goat present on any holding referred to in paragraphs (a) to (c).

(2) Movements of restricted animals or products are only permitted in accordance with regulation 16.

(3) To avoid doubt, a notice served under sub-paragraph (1)(d) does not prohibit the use of milk or milk products within the holding.

(4) A notice referred to in sub-paragraph (1)(a) to (d) remains in force until one of paragraphs 5, 6, 7 or 9 applies.

Action where TSE is not confirmed

5. If it is confirmed that the sheep or goat did not have a TSE, an inspector must remove as soon as reasonably practicable all restrictions imposed because the sheep or goat was suspected of having a TSE.

Action following confirmation of TSE in sheep

6.—(1) When it is confirmed that a suspect sheep or the body of a sheep monitored under Annex III to the EU TSE Regulation (monitoring system) has a TSE, and BSE is excluded in accordance with the procedure set out in point 3.2(c) of Chapter C of Annex X to that Regulation (further examination of positive TSE cases), the Scottish Ministers, after—

- (a) carrying out the inquiry specified in Article 2.3(b) of, and point 1(b) of Chapter A of Annex VII to, the EU TSE Regulation (measures following confirmation of the presence of a TSE); and
- (b) sampling the animals to establish their genotype (if this is necessary),

must decide which of the options set out in point 2.3(b)(i) and (ii) of Chapter A of Annex VII to the EU TSE Regulation they intend to exercise.

(2) The Scottish Ministers must then serve a notice on the occupier of the holding identifying which of the options in point 2.3(b)(i) or (ii) of Chapter A of Annex VII to that Regulation they intend to exercise.

- (3) The notice must specify—
 - (a) the identity of the animals to be killed and destroyed;
 - (b) the identity of any animals to be slaughtered for human consumption;
 - (c) the identity of any animals that may be detained;
 - (d) the identity of any ovum or embryo to be destroyed; and
 - (e) the time limit for complying with the notice.
- (4) The appeals procedure in regulation 10 applies in relation to any decision of the Scottish Ministers under this paragraph.

Confirmation of TSE in goats

7.—(1) This paragraph applies if it is confirmed that a suspect goat, or a body of a goat monitored under Annex III to the EU TSE Regulation, is affected with a TSE, and BSE is excluded in accordance with the procedure set out in point 3.2(c) of Chapter C of Annex X to that Regulation (further examination of positive TSE cases), except where the Scottish Ministers decide to exercise the power in paragraph 10(3).

(2) The Scottish Ministers, after carrying out the inquiry specified in Article 13(1)(b) of, and point 1(b) of Chapter A of Annex VII to, the EU TSE Regulation (measures following confirmation of the presence of a TSE), must serve a notice on the occupier of the holding informing him or her that the Scottish Ministers intend to kill and destroy all the goats on the holding and all embryos and ova from those animals in accordance with Article 13(1)(c) of, and point 2.3(b)(i) of Chapter A of Annex VII, to that Regulation.

(3) The appeals procedure in regulation 10 applies in relation to any decision of the Scottish Ministers under this paragraph.

Use of milk and milk products following confirmation of classical scrapie

- (7) Failure to comply with any of sub-paragraphs (2) to (6) is an offence.

Inability to exclude BSE in sheep or goats

9.—(1) This paragraph applies if a TSE is confirmed in a suspect sheep or goat, or a body of a sheep or goat monitored under Annex III to the EU TSE Regulation (monitoring system), and BSE cannot be excluded by the results of a ring trial carried out in accordance with the procedure set out in point 3.2(c) of Chapter C of Annex X to that Regulation (further examination of positive TSE cases).

(2) The Scottish Ministers, after carrying out the inquiry specified in Article 13(1)(b) of, and point 1(b) of Chapter A of Annex VII to, the EU TSE Regulation (measures following confirmation of the presence of a TSE), must serve a notice on the occupier of the holding informing him or her of the Scottish Ministers' intention to have the animals killed and destroyed, and the embryos and ova destroyed and the milk and milk products destroyed, in accordance with Article 13(1)(c), and point 2.3(a) of Chapter A of Annex VII to that Regulation.

(3) In sub-paragraph (2), “milk and milk products” means the milk and milk products that derived from the animals that were present on the relevant holding on and from the date on which notice was served under paragraph 4(1)(d).

(4) The appeals procedure in regulation 10 applies in relation to any decision of the Scottish Ministers under this paragraph.

(2) The Scottish Ministers may decide not to apply paragraph 6 in respect of sheep, or paragraph 7 in respect of goats.

(3) If the Scottish Ministers decide not to apply either paragraph 6 or 7, the Scottish Ministers must, instead of complying with the requirements in that paragraph—

- (a) carry out the inquiry specified in Article 13(1)(b) of, and point 1(b) of Chapter A of Annex VII to, the EU TSE Regulation (measures following confirmation of the presence of a TSE); and
- (b) decide which of the options set out in point 5(a) or (b) of Chapter A of Annex VII to that Regulation the Scottish Ministers intend to exercise.

(4) The Scottish Ministers must then serve a notice on the occupier of the holding informing him or her of which option the Scottish Ministers intend to exercise.

17.—(1) If there is a change in occupation of the holding, the previous occupier must ensure that the subsequent occupier is made aware of the existence and contents of any notice served under this Schedule, and failure to do so is an offence.

(2) The subsequent occupier must comply with the notice as if that notice were served on that occupier and failure to do so is an offence.

27.—(1) The Scottish Ministers must pay compensation in accordance with this paragraph for milk and milk products destroyed pursuant to paragraph 9.
