

SCHEDULE 7

Specified risk material, mechanically separated meat and slaughtering techniques

Bovine animals, sheep and goats in other places of slaughter

10.—(1) When a bovine animal, sheep or goat is slaughtered in a place that, for the purposes of point 4(1)(a) of Annex V to the EU TSE Regulation (removal of specified risk material), is an other place of slaughter, the person carrying out the slaughter must remove all specified risk material as soon as is reasonably practicable after slaughter.

(2) Failure to comply with this paragraph is an offence.
