Screening opinions

5.—(1) Where, at any of the stages referred to in regulation 4(1), a local authority considers that a proposed flood protection scheme is not likely to have a significant effect on the environment, it shall request a screening opinion from each of the consultative bodies.

(2) A request for a screening opinion must be accompanied by—

- (a) a plan sufficient to identify the site which is the subject of the proposed scheme and any land that may be affected by it or over which access may be required;

(3) A request for a screening opinion may be accompanied by such further information or representations as the local authority may wish to provide or make.

(4) Within three weeks of receiving a request for a screening opinion, a consultative body must, if it considers that it has not been provided with sufficient information to give an opinion, give notice

to the local authority of the particular points on which it requires further information, and the local authority must provide such further information as it is reasonably able to provide.

(5) When a consultative body considers that it has sufficient information it must give a screening opinion within three weeks of whichever is the later of—

- (a) the date of receipt of the request for a screening opinion; and
- (b) the date by which it has received the further information referred to in paragraph (4).
