PART C

Deviation from standard parameters and frequencies

3. Subject to paragraph 4, based on the results of a risk assessment the list of parameters in Part B of this schedule (including any micro-organism, parasite or substance referred to in paragraph 2(1) (b) of that Part) and the sampling frequencies under that Part B may be reduced, provided that the following conditions are met:—

- (a) the frequency of sampling for *Escherichia coli* [^{F2}and enterococci] must not be reduced below the minimum frequency required by that Part B; and
- (b) for other parameters in the list—

[^{F3}(i) a risk assessment has established that the parameter to be removed from the list of parameters to be monitored under Part B of this schedule, or for which the minimum sampling frequencies are to be reduced, is not present or, as the case may be, is not likely to be present in raw water—

(aa) in the catchment area used to abstract water for human consumption purposes, and

(bb) as a result of abstraction through the public water supply system,

at a concentration or value which would (whether in conjunction with another parameter in the water or otherwise) constitute a potential danger to human health,

- (ii) where a parameter from the list of parameters to be monitored under Part B of this schedule can only occur as a result of the treatment technique or disinfection method, that technique or method is not used by Scottish Water, or

(iii) the specifications in paragraph 3A are complied with.]]
