## EXPLANATORY NOTE

*(This note is not part of the Order)*

This Order amends the Brucellosis (Scotland) Order 2009 (“the 2009 Order”) which implements Council Directive [64/432/EEC](#) on animal health problems affecting intra-community trade in bovine animals and swine (OJ 121, 29.7.1964, p.164) in so far as it relates to the operation of a monitoring and testing programme for brucellosis.

Article 2 of this Order amends article 7 of the 2009 Order. From 1st April 2014, it places a duty on owners or keepers of bovine animals who sell processed milk or milk products to take a quarterly sample of milk from all bovine animals whose milk is available for sale and submit these to an approved laboratory for testing for evidence of the existence of brucellosis. Failure to comply with the article is an offence.

The enforcement provisions set out at articles 24 and 25 of the 2009 Order apply to these provisions.

Article 3 of this Order revokes the Diseases of Animals (Extension of Definitions) Order 1971 (S.I. 1971/531) in so far as it applies to Scotland.
