**2018 No. 219**

The Environmental Authorisations (Scotland) Regulations 2018

**PART 7**

Standard conditions procedure

**Notification of revisions of standard conditions**

**36.**—(1) This regulation applies where SEPA revises standard conditions.

(2) Before publishing the revised conditions in accordance with regulation 35(1), SEPA must inform any person who has been granted a relevant authorisation—

- (a) of the proposed revision;
- (b) of the date on which the revised conditions are expected to be published;
- (c) of the date on which the revised conditions are expected to take effect (in accordance with paragraph (3));
- (d) whether SEPA considers the revisions to be minor administrative changes; and
- (e) that on the date on which the revised conditions take effect the person's authorisation will have effect subject to the revised conditions.

(3) The revised conditions take effect—

- (a) where the revision makes only minor administrative changes, on the day following the date of publication; or
- (b) in any other case, three months after the date of publication.

(4) In this regulation, “relevant authorisation” means a registration or permit which will be affected by the proposed revisions if the revisions were made.

**Changes to legislation:**

There are currently no known outstanding effects for the The Environmental Authorisations (Scotland) Regulations 2018, Section 36.
