

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations make minor changes to the Electricity Works (Environmental Impact Assessment) (Scotland) Regulations 2017 (“the 2017 Regulations”). The amendments to regulation 2(4)(b) clarify the meaning of “development” in relation to applications for multi-stage consent. Amendments to regulations 4(5) and 21(2)(f) clarify that references to “consent” are to “Electricity Act consent”, which is defined in regulation 2 of the 2017 Regulations.
