

POLICY NOTE

THE WATER AND SEWERAGE SERVICES TO DWELLINGS (COLLECTION OF UNMETERED CHARGES BY LOCAL AUTHORITY) (SCOTLAND) ORDER 2023

S.S.I. 2023/52

The Order was made in exercise of the powers conferred on the Scottish Ministers by section 37 and 68(2) of the Water Industry (Scotland) Act 2002 (“the Act”). The Order is subject to negative procedure.

Policy Objectives

Section 29A of the Act requires Scottish Water to make a charges scheme which fixes the charges payable for water and sewerage services provided by it in the exercise of its core functions. Section 37 of the Act separately empowers the Scottish Ministers to determine, by order, that for specified services provided by Scottish Water to dwellings in the area of a local authority, the authority (not Scottish Water) is to collect the charges payable.

The Water and Sewerage Services to Dwellings (Collection of Unmetered Charges by Local Authority) (Scotland) Order 2023 (“the Order”) makes each local authority responsible for the collection of the charges payable for water services and sewerage services which are provided by Scottish Water to dwellings within each financial year from 1st April 2023 to 31st March 2028. It also requires each authority to make payments to Scottish Water so as to account for this.

Consultation

The Order was prepared in consultation with key stakeholders (including COSLA, Scottish Water (SW), Water Industry Commission for Scotland (WICS) and Consumer Scotland; no significant issues were raised.

Impact Assessments

As there is no impact on business or the third sector, and no impact on the environment or on environmental issues, no Business and Regulatory Impact Assessment or Strategic Environmental Assessment is required.

Financial Effects

There is an existing order -The Water and Sewerage Services to Dwellings (Collection of Unmetered Charges by Local Authority) (Scotland) Order 2020 - which makes local authorities responsible for the collection of charges for the period from 1 April 2020 to 31 March 2023. The Order effectively supersedes the previous order, with new agreed fees for local authorities for the upcoming period. It fixes the amount to be deducted (for the

cost of collection) from the sum each local authority must pay to Scottish Water as regards services provided in each of the financial years to which the Order applies. These amounts also take account of the cost of collecting charges for dwellings for which there is no council tax liability. The total amount deducted for the cost of collection in relation to services is set at £20,736,234.00 in financial year 2023-24. This is seen by COSLA and Scottish Water to be a reasonable settlement in terms of recovering the cost of collecting charges for services. The allocation of this amount among local authorities is set out in the schedule of the Order as the fee for the financial year 2023/24. In each subsequent service year covered by the Order the previous year's fee will be amended to take account of inflationary costs by uprating it with reference to the relevant prevailing Consumer Prices Index (CPI) rate (less 1% efficiency). The amended fee for each service year will establish the baseline value used to calculate the fee for each subsequent year of the order up to 31 April 2028.
