2014 No.

The Domestic Renewable Heat
Incentive Scheme Regulations 2014

PART 5

RHI payments

Calculation of RHI payments where metering is not required

27. Subject to regulation 48(6)(b), where the Authority has not provided a metering statement for an accredited domestic plant, the RHI payment for that plant for any quarterly period is calculated in accordance with the following formula—

$$\left(A \times \frac{B}{4} \right) - C$$

where—

- (a) A is the applicable initial tariff or subsequent tariff for the accredited domestic plant;
- (b) B is the deemed annual heat generation for the plant; and
- (c) C is the grant funding deduction for the accredited domestic plant for the quarterly period.
