Duties of licensee of licensed site

3.—(1) Section 7 of the 1965 Act (duty of licensee of licensed site) is amended as follows.

(2) For subsection (1)(5) substitute—

“(1) Subject to subsection (4), where a nuclear site licence has been granted in respect of a site, the licensee has the duties set out in subsections (1A), (1C) and (1E).

(1A) It is the duty of the licensee to secure that no occurrence involving nuclear matter falling within subsection (1B) causes—

- (a) injury to any person,
- (b) damage to any property of any person other than the licensee, or
- (c) significant impairment of the environment,

being injury, damage or impairment that arises out of or results from the radioactive properties, or a combination of those and any toxic, explosive or other hazardous properties, of that nuclear matter.

(1B) The occurrences referred to in subsection (1A) are—

- (a) any occurrence on the licensed site involving nuclear matter during the period of the licensee’s responsibility;
- (b) any occurrence elsewhere than on the licensed site involving nuclear matter that is not excepted matter and which, at the time of the occurrence, satisfies the requirement mentioned in section 7A(1).

(1C) It is the duty of the licensee to secure that no occurrence involving the emission of ionising radiations falling within subsection (1D) causes—

- (a) injury to any person,
- (b) damage to any property of any person other than the licensee, or
- (c) significant impairment of the environment,

being injury, damage or impairment that arises out of or results from the radioactive properties, or a combination of those and any toxic, explosive or other hazardous properties, of the source of the emissions.

(1D) The occurrences referred to in subsection (1C) are—

- (a) an emission of ionising radiations during the period of the licensee’s responsibility from anything caused or suffered by the licensee to be on the site which is not nuclear matter;
- (b) a discharge on or from the site of waste, being waste (of any form) that emits ionising radiations but is not nuclear matter, during the period of the licensee’s responsibility.

(1E) It is the duty of the licensee to secure that no event happens that creates a grave and imminent threat of a breach of the duty under subsection (1A) or (1C).”

(3) Omit subsection (2) (description of occurrences mentioned in subsection (1)(a)).

(4) For subsection (3) substitute—

“(3) In determining the liability of the licensee of a licensed site by virtue of subsection (1A) or (1C) in respect of an occurrence, any such property as is mentioned in subsection (3B) which is on that site at the time of the occurrence is to be deemed to be the property of the licensee, notwithstanding that it is the property of some other person.

(3A) In determining the liability of the licensee of a licensed site by virtue of subsection (1E) in respect of an event, any such property as is mentioned in subsection (3B) which is on that site at the time of the event is to be deemed to be the property of the licensee, notwithstanding that it is the property of some other person.

(3B) The property referred to in subsections (3) and (3A) is—

- (a) a nuclear installation;
- (b) property other than a nuclear installation which is on the licensed site for the purpose of being used in connection with the operation, or the cessation of the operation, by the licensee of a nuclear installation which is or has been on that site;
- (c) property other than a nuclear installation which is on the licensed site for the purpose of the construction of a nuclear installation on that site;
- (d) an installation for the disposal of nuclear matter.”

(5) After section 7 insert—

“7A Occurrences not on a licensed site

(1) The requirement referred to in section 7(1B)(b) is that the nuclear matter satisfies the condition in any of subsections (2) to (8) in relation to the licensee of the licensed site as licensee of that site.

(2) The condition in this subsection is that the nuclear matter—

- (a) is in the course of carriage to the licensed site with the agreement of the licensee from a place in a country or territory that is not a relevant territory, and
- (b) is not on another relevant site in the United Kingdom.

For these purposes the carriage of the matter is to be treated as starting once the matter has been loaded on to the means of transport intended to be used for its carriage from that country or territory.

(3) The condition in this subsection is that the nuclear matter—

- (a) is in the course of carriage from the licensed site to a place in a country or territory that is not a relevant territory, and
- (b) is not on another relevant site in the United Kingdom.

For these purposes the carriage of the matter is to be treated as coming to an end once the matter has been unloaded from the means of transport used for its carriage to that country or territory.

(4) The condition in this subsection is that the licensee has taken charge of the nuclear matter from a person authorised to operate a nuclear reactor comprised in a means of transport and the matter—

- (a) is in the course of carriage to the licensed site, and
- (b) is not on another relevant site in the United Kingdom.

(5) The condition in this subsection is that the nuclear matter—

- (a) is in the course of carriage from the licensed site to a person authorised to operate a nuclear reactor comprised in a means of transport and in which the matter is intended to be used, and
- (b) is not on another relevant site in the United Kingdom.

For these purposes the carriage of the matter is to be treated as coming to an end once that operator takes charge of the matter.

(6) The condition in this subsection is that—

- (a) the nuclear matter was in the course of such carriage as is described in subsection (2), (3), (4) or (5),
 - (b) that course of carriage was not completed, and
 - (c) since ceasing to be in the course of such carriage, the nuclear matter has not been in such circumstances as are mentioned in subsection (9), (10) or (11).
- (7) The condition in this subsection is that—
- (a) the nuclear matter is in the course of carriage on behalf of the licensee as a licensee of the licensed site, otherwise than as described in any of subsections (2)(a), (3)(a), (4)(a) and (5)(a), and the licensee has a direct economic interest in the matter, or
 - (b) the nuclear matter was in the course of such carriage while being matter in which the licensee had a direct economic interest and, since ceasing to be in the course of such carriage or since ceasing to be matter in which the licensee had a direct economic interest, has not been in such circumstances as are mentioned in subsection (9), (10) or (11).
- (8) The condition in this subsection is that the nuclear matter was on the licensed site and, since ceasing to be on that site, has not been in such circumstances as are mentioned in subsection (9), (10) or (11).
- (9) The circumstances in this subsection are that the nuclear matter is on a relevant site other than the licensed site.
- (10) The circumstances in this subsection are that the nuclear matter—
- (a) is in the course of carriage to a relevant site other than the licensed site with the agreement of the operator of that site from a place in a country or territory that is not a relevant territory,
 - (b) is in the course of carriage from a relevant site other than the licensed site to a place in a country or territory that is not a relevant territory,
 - (c) is in the course of carriage on behalf of a person authorised to operate a nuclear reactor which is comprised in a means of transport and in which the nuclear matter is intended to be used or was used or was intended to be used, or
 - (d) is in the course of relevant carriage on behalf of a person other than the licensee of the licensed site, and otherwise than as described in paragraph (a), (b) or (c), and is matter in which that person has a direct economic interest.
- (11) The circumstances in this subsection are that the nuclear matter—
- (a) is within the territorial limits of a country or territory that is not a relevant territory, and
 - (b) is not in the course of such carriage as is described in any of subsections (2)(a), (3)(a), (4)(a) and (5)(a) or in the course of relevant carriage from one relevant site to another.
- (12) Where the licensee of a licensed site operates the site on behalf of another person—
- (a) carriage of nuclear matter that is undertaken or arranged by the licensee as licensee of the licensed site on behalf of that other person is to be treated as carriage on behalf of the licensee (and accordingly is to be treated as relevant carriage on behalf of the licensee for the purposes of this Act), and
 - (b) a requirement in this section that a person have a direct economic interest in nuclear matter that is in the course of carriage is to be treated as satisfied by the licensee when acting on behalf of another person as regards the carriage of nuclear matter if—

- (i) that other person is the person on whose behalf the licensee is operating the licensed site, and
- (ii) that other person has a direct economic interest in the nuclear matter.

(13) For the purposes of this section, a person who receives a financial or other benefit for or in connection with undertaking, or arranging for, the carriage of nuclear matter does not, for that reason only, have a direct economic interest in the matter.”

 - (4) After subsection (1) insert—

“(2) If a government department uses a site for a purpose which, if section 7B applied to the Crown, would cause the site to be a relevant disposal site, sections 7 and 7A are to apply in respect of that site as they apply in relation to the licensee of a licensed site, but with the following modifications—

- (a) a reference to a case in which a nuclear site licence has been granted is to be read as a reference to a case in which a site is used by a government department for a purpose which, if section 7B applied to the Crown, would cause the site to be a relevant disposal site (a “disposal purpose”);
 - (b) a reference in those sections to a site in respect of which a nuclear site licence has been granted is to be read as a reference to a site used by a government department for a disposal purpose;

 - (c) significant impairment of the environment,
- being injury, damage or impairment that arises out of or results from the radioactive properties, or a combination of those and any toxic, explosive or other hazardous properties, of that nuclear matter.

- (3) For subsection (2) substitute—
- “(2) The condition in this subsection is that the occurrence is—
- (a) an occurrence taking place wholly or partly within United Kingdom limits; or

- (a) the Secretary of State under this section, or
- (b) if a decision under this section is appealed under section 11D, the court that determines the appeal under section 11D.

(2) A qualifying public authority may apply to the Secretary of State for approval under this section before or after the measures of reinstatement are taken.

(3) The public authority must publish a notice of its application.

(4) The notice must be published in a manner that appears to the authority to be appropriate for bringing it to the attention of—

- (a) if approval is refused, state whether or not approval is refused on the ground mentioned in subsection (7), and
- (b) except in a case where approval is refused on that ground, specify the reasons why the Secretary of State is or is not satisfied as to the matters in subsection (6).

(3) Compensation is not payable to a person by virtue of a claim under subsection (1) if the activity in question is an activity carried on by the person as an employee.

10. After section 11G of the 1965 Act (inserted by article 9) insert—

“Cost of preventive measures

11H Cost of preventive measures

(1) Where there is a breach of a duty imposed by section 7, 7B, 8, 9 or 10, a claim may be made for compensation under this Act in respect of the reasonable cost of preventive measures reasonably taken after the breach of duty.

(2) Subject to subsections (3) and (4), where there is a breach of a duty imposed by section 7, 7B, 8, 9 or 10, a claim may be made for compensation under this Act in respect of injury to a person or damage to property caused by—

- (a) preventive measures reasonably taken after the breach of duty by a person other than the person whose breach of duty it is, or
- (b) preventive measures taken after the breach of duty by the person whose breach of duty it is.

(3) The compensation that may be claimed under subsection (2)(a) does not include compensation in respect of so much of any injury or damage as is caused by an act or omission done maliciously or negligently.

(4) The compensation that may be claimed under subsection (2) does not include compensation in respect of damage to property where the property is such that damage to it would not constitute damage in breach of a duty imposed by—

- (a) section 7 (see section 7(1A)(b), (1C)(b), (3) and (3A)),
- (b) section 7B (see section 7(1A)(b), (1C)(b), (3) and (3A) as applied by section 7B),
- (c) section 8 (see section 7(1A)(b), (1C)(b), (3) and (3A) as applied by section 8),
- (d) section 9 (see section 7(1A)(b), (1C)(b), (3) and (3A) as applied by section 9), or
- (e) section 10 (see section 10(1)(b)),

as the case may be.

(5) The payment of compensation in respect of injury to a person or damage to property otherwise than under this Act by or on behalf of a person who takes preventive measures does not prevent the making of a claim under subsection (2) (subject to the exceptions in subsections (3) and (4)) if and to the extent that that payment does not make full compensation in respect of the injury or damage in question.

(6) A reference in subsection (1) or (2) to a preventive measure reasonably taken after a breach of duty includes a reference to such part of a preventive measure as is so taken.

(7) A preventive measure is a measure taken in order to minimise or prevent—

- (a) injury to a person or damage to property constituting a breach of a duty imposed by section 7, 7B, 8, 9 or 10, or

- (b) significant impairment of the environment occasioning costs or losses in respect of which a claim under section 11A(1) or 11G(1) or paragraph 1 of Schedule 1A may be made.

(8) A preventive measure is reasonably taken for the purposes of this section if taking that measure is appropriate and proportionate in the circumstances.

(9) Where the breach of a duty under section 7(1E), 7B, 8, 9 or 10(1A) consists of an event that creates a grave and imminent threat of a breach of another duty under section 7, 7B, 8, 9 or 10, no preventive measure may be considered appropriate and proportionate unless it is possible for there to be at least one person, not being a person involved in the event, whose likely exposure if the threatened breach of duty were to happen would be in excess of one of the following—

- (a) an effective dose of 5 mSv in the period of one year beginning with the day on which the threatened breach of duty happens or begins to happen;
- (b) an equivalent dose for the lens of the eye of 15 mSv in that period;
- (c) an equivalent dose for the skin of 50 mSv in that period over 1 cm² area of skin, regardless of the area exposed.

(10) In quantifying a person's likely exposure for the purposes of subsection (9), the effect of preventive measures taken to protect the person's health within 24 hours of the time when the event first creates the grave and imminent threat is to be disregarded.

(11) In subsection (9)—

- (a) an effective dose is the sum of the effective dose to the whole body from external radiation and the committed effective dose from internal radiation;
- (b) an equivalent dose for a particular human tissue or organ includes the committed equivalent dose to that tissue or organ from internal radiation;
- (c) "external radiation", in relation to a person, means ionising radiation coming from outside the body of that person;
- (d) "internal radiation", in relation to a person, means ionising radiation coming from inside the body of that person.

(12) Subsection (9) does not apply in the case of—

- (a) preventive measures taken as regards a person involved in the event;
- (b) preventive measures relating to the food supply.

(13) For the purposes of subsections (9) and (12), a person is involved in such an event if—

- (a) where the event relates to a threatened breach of duty on a licensed site, the person is on the licensed site at any time when the event is happening,
- (b) where the event relates to a threatened breach of duty involving nuclear matter in the course of carriage, the person is concerned with that carriage of nuclear matter at any time when the event is happening,
- (c) where the event relates to a threatened breach of duty on a licensed site, the person is, after the event happens, on the licensed site for the purpose of taking preventive measures or taking part in an emergency response to the event, or
- (d) where the event relates to a threatened breach of duty involving nuclear matter in the course of carriage, the person is at the place where the event is happening or has happened for the purpose of taking preventive measures or taking part in an emergency response to the event."
