
DRAFT STATUTORY INSTRUMENTS

2017 No.

**The Electricity and Gas (Energy Company
Obligation) (Amendment) Order 2017**

New article 24A (methodology for the carbon saving or cost saving attributable to a deemed score qualifying action)

20. After article 24 insert—

“Methodology for the carbon saving or cost saving attributable to a deemed score qualifying action

24A.—(1) The Administrator must publish a methodology for the purposes of determining the carbon saving to be attributed to a deemed score qualifying action.

(2) The Administrator must publish—

- (a) a methodology for the purposes of determining the cost saving to be attributed to a deemed score qualifying action falling within paragraph (3), and under that methodology, the calculation of the cost saving must be based on the absence of a working heating system in the premises where the repaired or replaced boiler or electric storage heater is situated; and
- (b) a methodology for the purposes of determining the cost saving to be attributed to a deemed score qualifying action not falling within paragraph (3).

(3) A deemed score qualifying action falls within this paragraph if it is—

- (a) the repair or replacement of a qualifying boiler;
- (b) the repair of a qualifying electric storage heater; or
- (c) the replacement of a qualifying electric storage heater by another electric storage heater.

(4) Before publishing a methodology under this article, the Administrator must have regard to—

- (a) the Standard Assessment Procedure;
- (b) the Reduced Data Standard Assessment Procedure; and
- (c) the desirability of the methodology being easy to use.”.
