
DRAFT STATUTORY INSTRUMENTS

2017 No.

The Renewable Heat Incentive Scheme Regulations 2017

PART 2

Eligibility and matters relating to eligibility

CHAPTER 3

Eligibility criteria in relation to metering and steam measuring

Shared meters

- 26.**—(1) The heat generated by a plant must be individually metered.
- (2) But the heat generated by two or more plants may be metered using one meter provided that—
- (a) the plants use the same source of energy and technology;
 - (b) the plants will, once given accreditation, be eligible to receive the same tariff;
 - (c) the plants will then share the same tariff start date and tariff end date; and
 - (d) it is the Authority's opinion that a single meter is capable of metering the heat generated by all of those plants.
