The Electricity and Gas (Energy
Company Obligation) Order 2022

PART 10

Scores

CHAPTER 2

Requirements for a full project score

Determination whether a measure is within the data light measure allowance

52. For the purposes of article 51, a data light measure is only within a participant's data light measure allowance if X is less than the participant's data light measure allowance, where "X" is the sum of—

- (a) the number of data light measures which are—
 - (i) qualifying actions forming part of an ECO4 project promoted by the participant for which the Administrator has given a positive score under article 47(1)(b) before the ECO4 project in question; and
 - (ii) of the same data light measure description as the data light measure in question;
- (b) the number of data light measures which are—
 - (i) qualifying actions promoted by the participant for which the Administrator has given a positive score under article 47(1)(c)(i) or (ii) before the ECO4 project in question; and
 - (ii) of the same data light measure description as the data light measure in question.
