**2023 No.**

The Nuclear Regulated Asset Base Model  
(Revenue Collection) Regulations 2023

PART 4

Miscellaneous

CHAPTER 1

Enforcement and disputes

**Dispute notices**

**26.**—(1) An electricity supplier may dispute any determination made by the revenue collection counterparty under these Regulations, other than a determination made under or by virtue of regulation 27 of these Regulations, by giving a notice to the revenue collection counterparty setting out—

- (a) the determination the supplier is disputing; and
- (b) the basis on which the supplier disputes the determination.

(2) For the purposes of paragraph (1), a dispute about a determination made by the revenue collection counterparty includes a dispute about the failure of the revenue collection counterparty to make a determination.

(3) A notice under paragraph (1) must be given by an electricity supplier before the later of—

- (a) the 28th day after the day on which the determination was made by the revenue collection counterparty;
- (b) in the case of a determination in respect of which the revenue collection counterparty must issue a notice, the 28th day after the day on which that notice was issued;
- (c) in the case of a dispute about the failure of the revenue collection counterparty to make a determination, the 28th day after the day on which the revenue collection counterparty should have made the relevant determination which is in dispute.

(4) An electricity supplier may not dispute a determination if and to the extent that the dispute is about a determination, made by the BSCCo, of an amount of electricity supplied (whether by that supplier or any other supplier).

(5) Where an electricity supplier has given a notice under paragraph (1) in respect of a determination, that determination still has effect notwithstanding the giving of that notice.
