

Schedules

Schedule 1

Baseline for the CCTS and VCTS

Part 2

Baseline for the VCTS

Pool VCTS participant

40.—(1) The baseline for a VCTS participant which is a pool VCTS participant is calculated as follows.

Step 1

Calculate the baseline for each manufacturer which is a member of the pool VCTS participant in accordance with whichever of paragraphs 25 to 39 is applicable to each manufacturer.

Step 2

Multiply each baseline calculated in accordance with step 1—

- (a) by the number of non-ZE vans of which the manufacturer was the manufacturer and which were registered in 2021; or
- (b) where the manufacturer was not the manufacturer of a van which was registered in 2021, by the number of non-ZE vans of which the manufacturer is the manufacturer and which were registered during the calendar year in which the manufacturer first became a VCTS participant or a member of a pool VCTS participant.

Step 3

Add together the numbers resulting from step 2.

Step 4

Calculate the total number of non-ZE vans of which the manufacturers which are members of the pool VCTS participant are the manufacturer and which were registered—

- (a) during 2021; or
- (b) where the manufacturer was not the manufacturer of a van which was registered in 2021, during the calendar year in which the manufacturer first became a VCTS participant or a member of a pool VCTS participant.

Step 5

Divide the number resulting from step 3 by the number resulting from step 4.

- (2) The pool VCTS participant's baseline is the number resulting from step 5.
