
DRAFT STATUTORY INSTRUMENTS

2024 No.

The Renewable Transport Fuel Obligations
(Sustainable Aviation Fuel) Order 2024

Part 3

The Administrator

Eligibility of feedstock produced from wastes of fossil origin

15.—(1) The Administrator must determine the wastes of fossil origin that may be used in the production of a recycled carbon fuel and designate each such waste as a relevant feedstock.

(2) In making a determination under paragraph (1), the Administrator must consider—

- (a) whether the production, supply or use of a fuel produced using a waste of fossil origin has one or more of the effects described in section 126(4) of the 2004 Act; and
- (b) any alternative uses and disposal outcomes available for that waste.

(3) The Administrator must publish a list of each waste of fossil origin designated as a relevant feedstock under paragraph (1).
