- (c) any amount set aside in pursuance of the provisions of subsection (3) of this section;

shall be apportioned among the endowment funds entitled to share in the pool in proportion to the numbers of investment units in the pool to which such funds are respectively entitled and, in the case of any investment unit or units to which an endowment fund was entitled during only a part of that accounting period, after paying due regard to the time during which that fund was so entitled.

(2) The council may retain in the pool and carry to a reserve fund in the accounts of the pool at the end of any accounting period any such amount of income from the investments comprised in the pool, not exceeding such percentage as the council may by resolution from time to time determine of the gross aggregate amount of such income for that accounting period, as the council may consider it expedient to reserve with a view to supplementing the income from the investments comprised in the pool to be apportioned in any subsequent accounting period and so helping to equalise the rates of the annual distributions of income in respect of the pool. The whole or any part of the income thus held in reserve for the time being in the pool may be applied at the discretion of the council by way of addition to the amount of income otherwise falling to be apportioned in respect of any subsequent accounting period among the endowment funds entitled to share in the pool and as if it were part of that income.

(3) The council may retain in the pool and carry to a capital redemption account in the accounts of the pool at the end of any accounting period any such amount of income from the investments comprised in the pool not exceeding such percentage as the council may by resolution from time to time determine

(4) Any sums set aside pursuant to subsection (2) or (3) of this section may be invested by the council and the capital and income of such investments shall respectively form part of the capital and income of the pool.

(5) If an investment is redeemed or terminated or, in pursuance of the provisions of section 14 (Administration of the investment pools) of this Act, withdrawn from the pool or sold, the council may deduct a sum, being not greater than the capital loss, if any, resulting from such redemption, termination, withdrawal or sale, from the capital redemption account of the pool, and may apply it at their discretion in meeting the capital loss.

(6) The council shall apportion between the trustee investments pool and the general pool any expenses of administration incurred jointly for both of those pools in respect of any accounting period.

(7) For the purpose of this section "the pool" means the trustee investments pool and the general pool and each of them.

Increase or
reduction of
value of
investment
unit.

17.—(1) The auditor shall as soon as practicable after the end of each accounting period, and at any other time if so required by the council, make to the council a report on the investments for the time being comprised in the trustee investments pool and in the general pool and if at any time the council, after investigation and after receiving such report, shall come to the conclusion that by reason of appreciation or depreciation of the values of investments or by reason of the cancellation of any sum standing to the credit of a capital redemption account in pursuance of the provisions of subsection (5) of section 16 (Apportionment of income from pooled investments) of this Act the aggregate amount of the capital values of the investments and any money for the time being comprised in the trustee investments pool or the general pool is substantially greater or substantially less than the total value of all the investment units in that pool, the council shall make such an addition to or reduction of the nominal value of an investment unit in that pool as the council may deem appropriate in the circumstances, so as to equate such total value with such aggregate amount.

(2) The initial value of an investment unit shall be five pounds.

Effect of Act
on operation
of
instruments.

18. This Part of this Act shall have effect notwithstanding the provisions of any instrument relating to any endowment fund.
