(2) As from the relevant day in the county—

(a) no apparatus to which this section applies shall be installed on or in any premises in the county unless it is provided with a cut-off switch; and

- (b) in the case of apparatus not provided with a cut-off switch requiring him, within such period as may be specified in the notice, to provide a cut-off switch in such a position and so coloured or marked as to be readily recognisable by, and accessible to, firemen in accordance with the reasonable requirements of the fire authority.

(7) A cut-off switch which complies with the regulations of the Institution of Electrical Engineers for a fireman's emergency switch as to position, colour and marking shall for the purposes of this section be deemed to satisfy the requirements of the fire authority.

(8) The provisions of section 290 of the Act of 1936 shall apply to notices given by the fire authority under this section as they apply to the notices mentioned in subsection (1) of that section and as if—

- (a) reference therein to a local authority included reference to the fire authority; and

- (a) that there will be adequate means of access for the fire brigade to the building or, as the case may be, to the building as extended; and
- (b) that the building or, as the case may be, the extension of the building, will not render inadequate any existing means of access for the fire brigade to a neighbouring building.

(2) No requirement concerning means of access to a building or to a neighbouring building shall be made under this section in the case of a building to be erected or extended in pursuance of a planning permission granted upon an application made under the Act of 1971 unless notice of the provisions of this section is endorsed on or accompanies the planning permission.
