And whereas prior to the year one thousand eight hundred and eighty-four numerous enclosures and encroachments had at various times been made upon portions of the said waste or commonable land formerly within the said forest and not forming part of the King's third and by the Malvern Hills Act 1884 provision was made for the prevention of encroachments and enclosures upon and of injury to the said tracts of land and also for the management of the same :

And whereas by the Act of 1884 the Malvern Hills Conservators (herein referred to as "the existing Conservators") were incorporated and were invested with certain powers of protection control and management with regard to the lands in that Act specified and provision was made for restricting the user and enjoyment of the said lands :

And whereas by the Act of 1884 the existing Conservators were authorised to raise any moneys required for meeting their expenses by precept to be served on the overseer of each of the parishes of Colwall Mathon and Great Malvern and the said overseers were directed to pay the amounts specified in the said precepts out of the poor rate of the said respective parishes Provided always that the sum required by any such precept in any one year should not exceed the amount which would be produced by a rate of one halfpenny in the pound which amount was by the Act of 1909 increased to one penny in the pound :

And whereas the powers of the existing Conservators are insufficient to preserve the Malvern Hills from such quarrying operations and to prevent the erection of such buildings sheds machinery and plant as aforesaid and it is desirable that further provision should be made for the acquisition by the existing Conservators of the manorial and other rights over the Malvern Hills and of other property or interests in the Malvern Hills or any part thereof and that further powers of protecting controlling and dealing with the Malvern Hills should be conferred upon the existing Conservators as in this Act provided :

And whereas it is expedient that the area of jurisdiction of the existing Conservators should be enlarged and their constitution altered as in this Act provided :

And whereas the financial resources of the existing Conservators are insufficient to provide for the carrying into effect of the purposes of this Act and it is expedient that the existing Conservators should be empowered to raise further moneys for meeting their expenditure :
