38 & 39 Vict.
c. 55.

Now therefore, We, the Local Government Board, in pursuance of the powers given to Us by Section 176 of the Public Health Act, 1875, and by any other Statutes in that behalf, do hereby empower the Corporation, from and after the date of the Act of Parliament confirming this Order, to put in force, with reference to the lands described in the Schedule hereto, subject to the continuance of any existing public rights of highway, and for the purposes aforesaid, the powers of the Lands Clauses Acts with respect to the purchase and taking of lands otherwise than by agreement, or any of them, but subject to the following conditions, viz:—

Railway
Companies.

1. The Corporation shall not enter upon or interfere with the railway lands, works, or property of the South Western Company, or the Plymouth and Dartmoor Company, or execute any work whatsoever affecting the same or within three yards thereof respectively, until there shall have been delivered to the South Western Company by the Corporation plans, drawings, and specifications (hereinafter referred to as "the plans of the works") of the new street and works (hereinafter referred to as "the works") intended to be executed so far as they may interfere with or affect those railways or either of them (which plans shall show or define the manner of executing the works and the materials to be used for the purpose), nor until the plans of the works have been examined and approved in writing by the chief engineer of the South Western Company, or in the event of his failing to approve or disapprove of the same within one month after the plans of the works have been so delivered until the same have been examined and approved by an engineer to be appointed (failing agreement) by the president for the time being of the Institution of Civil Engineers.

2. The works shall be executed by the Corporation at their sole expense, and shall respectively be subsequently maintained by the Corporation in all things according to the plans of the works so approved under the superintendence and to the reasonable satisfaction of the chief engineer of the South Western Company, and if and whenever the Corporation fails to comply with this requirement, and after 24 hours notice in writing of such default (or in case of emergency without notice), the South Western Company may make, do, and execute any works of maintenance or repair which they from time to time may think requisite in that behalf, and the sums from time to time certified by their engineer to be the amount of expenditure in that behalf shall be repaid to them by the Corporation, and in default of full repayment the amount due may be recovered with full costs by the South Western Company from the Corporation in any court of competent jurisdiction.

3. The works shall be constructed, maintained, and used so as not to prevent or impede the convenient passage of engines and carriages along the railways and sidings of the South Western Company and the Plymouth and Dartmoor Company as heretofore, or otherwise interfere with the works or property of the two companies across or alongside which the new street is intended to pass.

4. The Corporation shall bear, and on demand pay to the South Western Company, the expense of the employment by them during the construction of the works on or adjacent to the lands of the South Western Company or the Plymouth and Dartmoor Company of a sufficient number of inspectors and watchmen to be appointed by them at their sole discretion for watching the said railways or either of them with reference to and during the construction of the works, and for preventing as far as may be all interference, obstruction, danger, and accident from any of the operations or from the acts or defaults of the Corporation, or any person or persons in their employ, or their contractors or others, with reference thereto or otherwise.

6. Except as is shown on the plans of the works, no land belonging to the South Western Company or the Plymouth and Dartmoor Company shall be taken by the Corporation without the consent in writing of the South Western Company or the Plymouth and Dartmoor Company under their respective common seals first had and obtained.

7. Any difference which may arise between the South Western Company and the Plymouth and Dartmoor Company, or either of them, and the Corporation touching any of the matters referred to in these conditions shall be decided by arbitration by an engineer to be agreed upon or failing agreement to be appointed on the application of either party by the president for the time being of the Institution of Civil Engineers, and the costs of such arbitration and of the parties thereto shall be in the discretion of the arbitrator.
