Undertakers not entitled to underlying minerals unless expressly purchased.

- 11 When the undertakers purchase any land, they shall become entitled to such parts of any mines of coals, ironstone, slate or other minerals under that land as it may be necessary for them to dig, carry away or use in the construction of any waterworks authorised by the special Act, but, save as aforesaid, they shall not by virtue only of their purchase of the land become entitled to any such mines or minerals which shall, save as aforesaid, be deemed to be excepted from the conveyance of the land unless expressly mentioned therein as conveyed thereby.

Map of underground works to be prepared and kept up to date.

- 12 (1) The undertakers shall, within six months after the first occasion on which any pipes or other conduits or underground works are laid or constructed by them after this section is incorporated with their enactments, cause the course and situation of all existing pipes or other conduits for the collection, passage or distribution of water and underground works belonging to them to be marked on a map (drawn on a scale of not less than six inches to one mile), and shall, from time to time within six months after the making of any alterations or additions, cause the said map to be so corrected as to show the course and situation of all such pipes and conduits and underground works for the time being belonging to them, and the map or a copy thereof bearing the date of its preparation and of the last occasion on which it was corrected shall be kept at the office of the undertakers.

In this subsection the expression “pipes” does not include service pipes.

- (2) The said map shall at all reasonable hours be open to inspection by any person interested free of charge.

Mines lying near the works not to be worked without notice to undertakers.
