Commissions, preliminary expenses, etc.

Fixed assets

General rules

- 17 Subject to any provision for depreciation or diminution in value made in accordance with paragraph 18 or 19 the amount to be included in respect of any fixed asset shall be its purchase price or production cost.
- 18 In the case of any fixed asset which has a limited useful economic life, the amount of—
- (a) its purchase price or production cost; or
 - (b) where it is estimated that any such asset will have a residual value at the end of the period of its useful economic life, its purchase price or production cost less that estimated residual value;
- shall be reduced by provisions for depreciation calculated to write off that amount systematically over the period of the asset's useful economic life.
- 19 (1) Where a fixed asset investment of a description falling to be included under item B.III of either of the balance sheet formats set out in Part I of this Schedule has diminished in value provisions for diminution in value may be made in respect of it and the amount to be included in respect of it may be reduced accordingly; and any such provisions which are not shown in the profit and loss account shall be disclosed (either separately or in aggregate) in a note to the accounts.
- (2) Provisions for diminution in value shall be made in respect of any fixed asset which has diminished in value if the reduction in its value is expected to be permanent (whether its useful economic life is limited or not), and the amount to be included in respect of it shall be reduced accordingly; and any such provisions which are not shown in the profit and loss account shall be disclosed (either separately or in aggregate) in a note to the accounts.
- (3) Where the reasons for which any provision was made in accordance with sub-paragraph (1) or (2) have ceased to apply to any extent, that provision shall be written back to the extent that it is no longer necessary; and any amounts written back in accordance with this sub-paragraph which are not shown in the profit and loss account shall be disclosed (either separately or in aggregate) in a note to the accounts.

- (2) If any amount is included in a company’s balance sheet in respect of development costs the following information shall be given in a note to the accounts—
- (a) the period over which the amount of those costs originally capitalised is being or is to be written off; and
 - (b) the reasons for capitalising the development costs in question.
- 21 (1) The application of paragraphs 17 to 19 in relation to goodwill (in any case where goodwill is treated as an asset) is subject to the following provisions of this paragraph.
- (2) Subject to sub-paragraph (3) below, the amount of the consideration for any goodwill acquired by a company shall be reduced by provisions for depreciation calculated to write off that amount systematically over a period chosen by the directors of the company.
- (3) The period chosen shall not exceed the useful economic life of the goodwill in question.
- (4) In any case where any goodwill acquired by a company is shown or included as an asset in the company’s balance sheet the period chosen for writing off the consideration for that goodwill and the reasons for choosing that period shall be disclosed in a note to the accounts.

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- 24 (1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.
- (2) Where any such amount is so treated—
- (a) it shall be written off by reasonable amounts each year and must be completely written off before repayment of the debt; and
 - (b) if the current amount is not shown as a separate item in the company's balance sheet it must be disclosed in a note to the accounts.

Assets included at a fixed amount

- 25 (1) Subject to the following sub-paragraph, assets which fall to be included—
- (a) amongst the fixed assets of a company under the item “tangible assets”; or
 - (b) amongst the current assets of a company under the item “raw materials and consumables”; may be included at a fixed quantity and value.
- (2) Sub-paragraph (1) applies to assets of a kind which are constantly being replaced, where—
- (a) their overall value is not material to assessing the company's state of affairs; and
 - (b) their quantity, value and composition are not subject to material variation.

Determination of purchase price or production cost

- 26 (1) The purchase price of an asset shall be determined by adding to the actual price paid any expenses incidental to its acquisition.
- (2) The production cost of an asset shall be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the production of that asset.
- (3) In addition, there may be included in the production cost of an asset—
- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the production of that asset, but only to the extent that they relate to the period of production; and
 - (b) interest on capital borrowed to finance the production of that asset, to the extent that it accrues in respect of the period of production;
- provided, however, in a case within paragraph (b) above, that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.
- (4) In the case of current assets distribution costs may not be included in production costs.
- 27 (1) Subject to the qualification mentioned below, the purchase price or production cost of—
- (a) any assets which fall to be included under any item shown in a company's balance sheet under the general item “stocks”; and
 - (b) any assets which are fungible assets (including investments);

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

may be determined by the application of any of the methods mentioned in sub-paragraph (2) below in relation to any such assets of the same class.

The method chosen must be one which appears to the directors to be appropriate in the circumstances of the company.

- (2) Those methods are—
- (a) the method known as “first in, first out” (FIFO);
 - (b) the method known as “last in, first out” (LIFO);
 - (c) a weighted average price; and
 - (d) any other method similar to any of the methods mentioned above.
- (3) Where in the case of any company—
- (a) the purchase price or production cost of assets falling to be included under any item shown in the company’s balance sheet has been determined by the application of any method permitted by this paragraph; and
 - (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph;
- the amount of that difference shall be disclosed in a note to the accounts.
- (4) Subject to sub-paragraph (5) below, for the purposes of sub-paragraph (3)(b) above, the relevant alternative amount, in relation to any item shown in a company’s balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.
- (5) The relevant alternative amount may be determined by reference to the most recent actual purchase price or production cost before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.
- (6) For the purposes of this paragraph, assets of any description shall be regarded as fungible if assets of that description are substantially indistinguishable one from another.

Substitution of original stated amount where price or cost unknown

- 28 Where there is no record of the purchase price or production cost of any asset of a company or of any price, expenses or costs relevant for determining its purchase price or production cost in accordance with paragraph 26, or any such record cannot be obtained without unreasonable expense or delay, its purchase price or production cost shall be taken for the purposes of paragraphs 17 to 23 to be the value ascribed to it in the earliest available record of its value made on or after its acquisition or production by the company.

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. - (2) Provisions for diminution in value shall be made in respect of any fixed asset which has diminished in value if the reduction in its value is expected to be permanent (whether its useful economic life is limited or not), and the amount to be included in respect of it shall be reduced accordingly; and any such provisions which are not shown in the profit and loss account shall be disclosed (either separately or in aggregate) in a note to the accounts.
- (3) Where the reasons for which any provision was made in accordance with sub-paragraph (1) or (2) have ceased to apply to any extent, that provision shall be written back to the extent that it is no longer necessary; and any amounts written back in accordance with this sub-paragraph which are not shown in the profit and loss account shall be disclosed (either separately or in aggregate) in a note to the accounts.

- (2) The amount included in the balance sheet with respect to such securities purchased at a premium shall be reduced each financial year on a systematic basis so as to write the premium off over the period to the maturity date of the security and the amounts so written off shall be charged to the profit and loss account for the relevant financial years.
- (3) The amount included in the balance sheet with respect to such securities purchased at a discount shall be increased each financial year on a systematic basis so as to extinguish the discount over the period to the maturity date of the security and the amounts by which the amount is increased shall be credited to the profit and loss account for the relevant years.
- (4) The notes to the accounts shall disclose the amount of any unamortised premium or discount not extinguished which is included in the balance sheet by virtue of sub-paragraph (1).
- (5) For the purposes of this paragraph "premium" means any excess of the amount paid for a security over its maturity value and "discount" means any deficit of the amount paid for a security over its maturity value.

Miscellaneous and supplementary provisions

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

Excess of money owed over value received as an asset item

- 35 (1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset. Schedule 1 Part I
- (2) Where any such amount is so treated:
- (a) it shall be written off by reasonable amounts each year and must be completely written off before repayment of the debt; and
 - (b) if the current amount is not shown as a separate item in the company's balance sheet it must be disclosed in a note to the accounts.

Determination of cost

- 36 (1) The cost of an asset that has been acquired by the company shall be determined by adding to the actual price paid any expenses incidental to its acquisition.
- (2) The cost of an asset constructed by the company shall be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the construction of that asset.
- (3) In addition, there may be included in the cost of an asset constructed by the company:
- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the construction of that asset, but only to the extent that they relate to the period of construction; and
 - (b) interest on capital borrowed to finance the construction of that asset, to the extent that it accrues in respect of the period of construction; provided, however, in a case within sub-paragraph (b) above, that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.
- 37 (1) Subject to the qualification mentioned below, the cost of any assets which are fungible assets (including investments) may be determined by the application of any of the methods mentioned in sub-paragraph (2) below in relation to any such assets of the same class. The method chosen must be one which appears to the directors to be appropriate in the circumstances of the company.
- (2) Those methods are:
- (a) the method known as "first in, first out" (FIFO);
 - (b) the method known as "last in, first out" (LIFO);
 - (c) a weighted average price; and
 - (d) any other method similar to any of the methods mentioned above.
- (3) Where in the case of any company:
- (a) the cost of assets falling to be included under any item shown in the company's balance sheet has been determined by the application of any method permitted by this paragraph; and
 - (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph; the amount of that difference shall be disclosed in a note to the accounts.

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (4) Subject to sub-paragraph (5) below, for the purposes of sub-paragraph (3)(b) above, the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.
- (5) The relevant alternative amount may be determined by reference to the most recent actual purchase price before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

Substitution of original amount where price or cost unknown

- 38 Where there is no record of the purchase price of any asset acquired by a company or of any price, expenses or costs relevant for determining its cost in accordance with paragraph 36, or any such record cannot be obtained without unreasonable expense or delay, its cost shall be taken for the purposes of paragraphs 24 to 34 to be the value ascribed to it in the earliest available record of its value made on or after its acquisition by the company.

ALTERNATIVE ACCOUNTING RULES

Preliminary

- 39 (1) The rules set out in paragraphs 24 to 38 are referred to below in this Schedule as the historical cost accounting rules.
- (2) Paragraphs 24 to 27 and 31 to 35 are referred to below in this section of this Part of this Schedule as the depreciation rules; and references below in this Schedule to the historical cost accounting rules do not include the depreciation rules as they apply by virtue of paragraph 42.

- 40 Subject to paragraphs 42 to 44, the amounts to be included in respect of assets of any description mentioned in paragraph 41 may be determined on any basis so mentioned.

Alternative accounting rules

- 41 (1) Intangible fixed assets, other than goodwill, may be included at their current cost.
- (2) Tangible fixed assets may be included at a market value determined as at the date of their last valuation or at their current cost.
- (3) Investments of any description falling to be included under Assets items 7 (Participating interests) or 8 (Shares in group undertakings) of the balance sheet format and any other securities held as financial fixed assets may be included either:
- (a) at a market value determined as at the date of their last valuation; or
 - (b) at a value determined on any basis which appears to the directors to be appropriate in the circumstances of the company;

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

but in the latter case particulars of the method of valuation adopted and of the reasons for adopting it shall be disclosed in a note to the accounts.

- (4) Securities of any description not held as financial fixed assets (if not valued in accordance with paragraph 34 above) may be included at their current cost.

Application of the depreciation rules

- 42 (1) Where the value of any asset of a company is determined in accordance with paragraph 41, that value shall be, or (as the case may require) be the starting point for determining, the amount to be included in respect of that asset in the company's accounts, instead of its cost or any value previously so determined for that asset; and the depreciation rules shall apply accordingly in relation to any such asset with the substitution for any reference to its cost of a reference to the value most recently determined for that asset in accordance with paragraph 41.
- (2) The amount of any provision for depreciation required in the case of any fixed asset by paragraph 25 or 26 as it applies by virtue of sub-paragraph (1) is referred to below in this paragraph as the "adjusted amount", and the amount of any provision which would be required by that paragraph in the case of that asset according to the historical cost accounting rules is referred to as the "historical cost amount".
- (3) Where sub-paragraph (1) applies in the case of any fixed asset the amount of any provision for depreciation in respect of that asset included in any item shown in the profit and loss account in respect of amounts written off assets of the description in question may be the historical cost amount instead of the adjusted amount, provided that the amount of any difference between the two is shown separately in the profit and loss account or in a note to the accounts.

Additional information to be provided in case of departure from historical cost accounting rules

- 43 (1) This paragraph applies where the amounts to be included in respect of assets covered by any items shown in a company's accounts have been determined in accordance with paragraph 41.
- (2) The items affected and the basis of valuation adopted in determining the amounts of the assets in question in the case of each such item shall be disclosed in a note to the accounts.
- (3) In the case of each balance sheet item affected either:
- (a) the comparable amounts determined according to the historical cost accounting rules; or
 - (b) the differences between those amounts and the corresponding amounts actually shown in the balance sheet in respect of that item;
- shall be shown separately in the balance sheet or in a note to the accounts.
- (4) In sub-paragraph (3) above, references in relation to any item to the comparable amounts determined as there mentioned are references to:
- (a) the aggregate amount which would be required to be shown in respect of that item if the amounts to be included in respect of all the assets covered by that item were determined according to the historical cost accounting rules; and

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. - (b) the aggregate amount of the cumulative provisions for depreciation or diminution in value which would be permitted or required in determining those amounts according to those rules.

Revaluation reserve

- 44 (1) With respect to any determination of the value of an asset of a company in accordance with paragraph 41, the amount of any profit or loss arising from that determination (after allowing, where appropriate, for any provisions for depreciation or diminution in value made otherwise than by reference to the value so determined and any adjustments of any such provisions made in the light of that determination) shall be credited or (as the case may be) debited to a separate reserve (“the revaluation reserve”).
- (2) The amount of the revaluation reserve shall be shown in the company’s balance sheet under Liabilities item 11 in the balance sheet format, but need not be shown under that name.
- (3) An amount may be transferred from the revaluation reserve:
- (a) to the profit and loss account, if the amount was previously charged to that account or represents realised profit, or
 - (b) on capitalisation;
- and the revaluation reserve shall be reduced to the extent that the amounts transferred to it are no longer necessary for the purposes of the valuation method used.
- (4) In sub-paragraph (3)(b) “capitalisation”, in relation to an amount standing to the credit of the revaluation reserve, means applying it in wholly or partly paying up unissued shares in the company to be allotted to members of the company as fully or partly paid shares.
- (5) The revaluation reserve shall not be reduced except as mentioned in this paragraph.
- (6) The treatment for taxation purposes of amounts credited or debited to the revaluation reserve shall be disclosed in a note to the accounts.

 - (b) the change in value relates to an exchange difference arising on a monetary item that forms part of a company’s net investment in a foreign entity,
- the amount of the change in value must be credited to or (as the case may be) debited from a separate reserve (“the fair value reserve”).

 - (b) shall be shown separately in the balance sheet or in the notes to the accounts.
- (4) The amount of the difference referred to in sub-paragraph (3) above may be written off in instalments so that it is completely written off when the securities are repaid, in which case there shall be shown separately in the balance sheet or in the notes to the accounts the difference between the purchase price (less the aggregate amount written off) and the amount repayable at maturity.
- (5) Where the purchase price of securities to which this paragraph applies is less than the amount repayable at maturity, the amount of the difference shall be released to income in instalments over the period remaining until repayment, in which case there shall be shown separately in the balance sheet or in the notes to the accounts the difference between the purchase price (plus the aggregate amount released to income) and the amount repayable at maturity.
- (6) Both the purchase price and the current value of securities valued in accordance with this paragraph shall be disclosed in the notes to the accounts.
- (7) Where securities to which this paragraph applies which are not valued in accordance with paragraph 22 above are sold before maturity, and the proceeds are used to purchase other securities to which this paragraph applies, the difference between the proceeds of sale and their book value may be spread uniformly over the period remaining until the maturity of the original investment.

- (3) Where a market exists for unlisted investments, market value shall mean the average price at which such investments were traded on the balance sheet date or, when the balance sheet date is not a trading day, on the last trading day before that date.
- (4) Where, on the date on which the accounts are drawn up, listed or unlisted investments have been sold or are to be sold within the short term, the market value shall be reduced by the actual or estimated realisation costs.

- (2) Market value shall mean the price at which land and buildings could be sold under private contract between a willing seller and an arm’s length buyer on the date of valuation, it being assumed that the property is publicly exposed to the market, that market conditions permit orderly disposal and that a normal period, having regard to the nature of the property, is available for the negotiation of the sale.
- (3) The market value shall be determined through the separate valuation of each land and buildings item, carried out at least every five years in accordance with generally recognised methods of valuation.
- (4) Where the value of any land and buildings item has diminished since the preceding valuation under sub-paragraph (3), an appropriate value adjustment shall be made.
- (5) The lower value arrived at under sub-paragraph (4) shall not be increased in subsequent balance sheets unless such increase results from a new determination of market value arrived at in accordance with sub-paragraphs (2) and (3).
- (6) Where, on the date on which the accounts are drawn up, land and buildings have been sold or are to be sold within the short term, the value arrived at in accordance with sub-paragraphs (2) and (4) shall be reduced by the actual or estimated realisation costs.
- (7) Where it is impossible to determine the market value of a land and buildings item, the value arrived at on the basis of the principle of purchase price or production cost shall be deemed to be its current value.

- (2) The amount of any provision for depreciation required in the case of any asset by paragraph 32 or 33 below as it applies by virtue of sub-paragraph (1) is referred to below in this paragraph as the “adjusted amount”, and the amount of any provision which would be required by that paragraph in the case of that asset according to the historical cost accounting rules is referred to as the “historical cost amount”.
 - (3) Where sub-paragraph (1) applies in the case of any asset the amount of any provision for depreciation in respect of that asset included in any item shown in the profit and loss account in respect of amounts written off assets of the description in question may be the historical cost amount instead of the adjusted amount, provided that the amount of any difference between the two is shown separately in the profit and loss account or in a note to the accounts.

- (4) In sub-paragraph (3)(b) “capitalisation”, in relation to an amount standing to the credit of the revaluation reserve, means applying it in wholly or partly paying up unissued shares in the company to be allotted to members of the company as fully or partly paid shares.
- (5) The revaluation reserve shall not be reduced except as mentioned in this paragraph.
- (6) The treatment for taxation purposes of amounts credited or debited to the revaluation reserve shall be disclosed in a note to the accounts.

(5) In this paragraph–

“associated undertaking” has the meaning given by paragraph 20 of Schedule 4A; and

“joint venture” has the meaning given by paragraph 19 of that Schedule.

Determination of fair value

29B (1) The fair value of a financial instrument is determined in accordance with this paragraph.

(2) If a reliable market can readily be identified for the financial instrument, its fair value is determined by reference to its market value.

(3) If a reliable market cannot readily be identified for the financial instrument but can be identified for its components or for a similar instrument, its fair value is determined by reference to the market value of its components or of the similar instrument.

(4) If neither sub-paragraph (2) nor (3) applies, the fair value of the financial instrument is a value resulting from generally accepted valuation models and techniques.

(5) Any valuation models and techniques used for the purposes of sub-paragraph (4) must ensure a reasonable approximation of the market value.

Inclusion of hedged items at fair value

29C A company may include any assets and liabilities that qualify as hedged items under a fair value hedge accounting system, or identified portions of such assets or liabilities, at the amount required under that system.

- (3) In this paragraph, “fair value” means fair value determined in accordance with relevant international accounting standards.

Accounting for changes in value

- 29E (1) This paragraph applies where a financial instrument is valued in accordance with paragraph 29A or 29C or an asset is valued in accordance with paragraph 29D.
- (2) Notwithstanding paragraph 16 in this Part of this Schedule, and subject to subparagraphs (3) and (4) below, a change in the value of the financial instrument or of the investment property or living animal or plant must be included in the profit and loss account.
- (3) Where—
- (a) the financial instrument accounted for is a hedging instrument under a hedge accounting system that allows some or all of the change in value not to be shown in the profit and loss account, or
 - (b) the change in value relates to an exchange difference arising on a monetary item that forms part of a company’s net investment in a foreign entity,
- the amount of the change in value must be credited to or (as the case may be) debited from a separate reserve (“the fair value reserve”).
- (4) Where the instrument accounted for—
- (a) is an available for sale financial asset, and

- (a) its cost; or
 - (b) where it is estimated that any such asset will have a residual value at the end of the period of its useful economic life, its cost less that estimated residual value,
- shall be reduced by provisions for depreciation calculated to write off that amount systematically over the period of the asset's useful economic life.
- 33 (1) This paragraph applies to any asset included under Assets item B (tangible assets), C (investments), F.I (tangible assets) or F.IV (own shares).
- (2) Where an asset to which this paragraph applies has diminished in value, provisions for diminution in value may be made in respect of it and the amount to be included in respect of it may be reduced accordingly; and any such provisions which are not shown in the profit and loss account shall be disclosed (either separately or in aggregate) in a note to the accounts.
- (3) Provisions for diminution in value shall be made in respect of any asset to which this paragraph applies if the reduction in its value is expected to be permanent (whether its useful economic life is limited or not), and the amount to be included in respect of it shall be reduced accordingly; and any such provisions which are not shown in the profit and loss account shall be disclosed (either separately or in aggregate) in a note to the accounts.
- (4) Where the reasons for which any provision was made in accordance with sub-paragraph (1) or (2) have ceased to apply to any extent, that provision shall be written back to the extent that it is no longer necessary; and any amounts written back in accordance with this sub-paragraph which are not shown in the profit and loss account shall be disclosed (either separately or in aggregate) in a note to the accounts.

- (3) Where the reasons for which any provision for diminution in value was made in accordance with sub-paragraph (2) have ceased to apply to any extent, that provision shall be written back to the extent that it is no longer necessary.

Development costs

- 35 (1) Notwithstanding that amounts representing “development costs” may be included under Assets item B (intangible assets) in the balance sheet format, an amount may only be included in a company’s balance sheet in respect of development costs in special circumstances.
- (2) If any amount is included in a company’s balance sheet in respect of development costs the following information shall be given in a note to the accounts —
- (a) the period over which the amount of those costs originally capitalised is being or is to be written off; and
 - (b) the reasons for capitalising the development costs in question.

- (2) Subject to sub-paragraph (3) below, the amount of the consideration for any goodwill acquired by a company shall be reduced by provisions for depreciation calculated to write off that amount systematically over a period chosen by the directors of the company.
- (3) The period chosen shall not exceed the useful economic life of the goodwill in question.
- (4) In any case where any goodwill acquired by a company is included as an asset in the company’s balance sheet the period chosen for writing off the consideration for that goodwill and the reasons for choosing that period shall be disclosed in a note to the accounts.

Miscellaneous and supplemental

Excess of money owed over value received as an asset item

- 37 (1) Where the amount repayable on any debt owed by a company is greater than the value of the consideration received in the transaction giving rise to the debt, the amount of the difference may be treated as an asset.
- (2) Where any such amount is so treated—
- (a) it shall be written off by reasonable amounts each year and must be completely written off before repayment of the debt; and
 - (b) if the current amount is not shown as a separate item in the company’s balance sheet it must be disclosed in a note to the accounts.

Status: Point in time view as at 01/02/1994.

Assets included at a fixed amount

- 38 (1) Subject to the following sub-paragraph, assets which fall to be included under Assets item F.I.(tangible assets) in the balance sheet format may be included at a fixed quantity and value.
- (2) Sub-paragraph (1) applies to assets of a kind which are constantly being replaced, where—
- (a) their overall value is not material to assessing the company's state of affairs; and
 - (b) their quantity, value and composition are not subject to material variation.

Determination of cost

- 39 (1) The cost of an asset that has been acquired by the company shall be determined by adding to the actual price paid any expenses incidental to its acquisition.
- (2) The cost of an asset constructed by the company shall be determined by adding to the purchase price of the raw materials and consumables used the amount of the costs incurred by the company which are directly attributable to the construction of that asset.
- (3) In addition, there may be included in the cost of an asset constructed by the company —
- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the construction of that asset, but only to the extent that they relate to the period of construction; and
 - (b) interest on capital borrowed to finance the construction of that asset, to the extent that it accrues in respect of the period of construction;
- provided, however, in a case within sub-paragraph (b) above, that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.
- 40 (1) Subject to the qualification mentioned below, the cost of any assets which are fungible assets may be determined by the application of any of the methods mentioned in sub-paragraph (2) below in relation to any such assets of the same class. The method chosen must be one which appears to the directors to be appropriate in the circumstances of the company.
- (2) Those methods are—
- (a) the method known as “first in, first out” (FIFO);
 - (b) the method known as “last in, first out” (LIFO);
 - (c) a weighted average price; and
 - (d) any other method similar to any of the methods mentioned above.
- (3) Where in the case of any company—
- (a) the cost of assets falling to be included under any item shown in the company's balance sheet has been determined by the application of any method permitted by this paragraph; and
 - (b) the amount shown in respect of that item differs materially from the relevant alternative amount given below in this paragraph;
- the amount of that difference shall be disclosed in a note to the accounts.

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. - (4) Subject to sub-paragraph (5) below, for the purposes of sub-paragraph (3)(b) above, the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.
- (5) The relevant alternative amount may be determined by reference to the most recent actual purchase price before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

Substitution of original amount where price or cost unknown

- 41 Where there is no record of the purchase price of any asset acquired by a company or of any price, expenses or costs relevant for determining its cost in accordance with paragraph 39 above, or any such record cannot be obtained without unreasonable expense or delay, its cost shall be taken for the purposes of paragraphs 31 to 36 above to be the value ascribed to it in the earliest available record of its value made on or after its acquisition by the company.

Section D

Rules for Determining Provisions

Preliminary

- 42 Provisions which are to be shown in a company's accounts shall be determined in accordance with paragraphs 43 to 53 below.

Technical provisions

- 43 The amount of technical provisions must at all times be sufficient to cover any liabilities arising out of insurance contracts as far as can reasonably be foreseen.

Provision for unearned premiums

- 44 (1) The provision for unearned premiums shall in principle be computed separately for each insurance contract, save that statistical methods (and in particular proportional and flat rate methods) may be used where they may be expected to give approximately the same results as individual calculations.
- (2) Where the pattern of risk varies over the life of a contract, this shall be taken into account in the calculation methods.

Provision for unexpired risks

- 45 The provision for unexpired risks (as defined in paragraph 81 below) shall be computed on the basis of claims and administrative expenses likely to arise after the end of the financial year from contracts concluded before that date, in so far as their estimated value exceeds the provision for unearned premiums and any premiums receivable under those contracts.

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

Long term business provision

- 46 (1) The long term business provision shall in principle be computed separately for each long term contract, save that statistical or mathematical methods may be used where they may be expected to give approximately the same results as individual calculations.
- (2) A summary of the principal assumptions in making the provision under sub-paragraph (1) shall be given in the notes to the accounts.
- (3) The computation shall be made annually by a Fellow of the Institute or Faculty of Actuaries on the basis of recognised actuarial methods, with due regard to the actuarial principles laid down in Council Directive 92/96/EEC.

Provisions for claims outstanding

General business

- 47 (1) A provision shall in principle be computed separately for each claim on the basis of the costs still expected to arise, save that statistical methods may be used if they result in an adequate provision having regard to the nature of the risks.
- (2) This provision shall also allow for claims incurred but not reported by the balance sheet date, the amount of the allowance being determined having regard to past experience as to the number and magnitude of claims reported after previous balance sheet dates.
- (3) All claims settlement costs (whether direct or indirect) shall be included in the calculation of the provision.
- (4) Recoverable amounts arising out of subrogation or salvage shall be estimated on a prudent basis and either deducted from the provision for claims outstanding (in which case if the amounts are material they shall be shown in the notes to the accounts) or shown as assets.
- (5) In sub-paragraph (4) above, “subrogation” means the acquisition of the rights of policy holders with respect to third parties, and “salvage” means the acquisition of the legal ownership of insured property.
- (6) Where benefits resulting from a claim must be paid in the form of annuity, the amounts to be set aside for that purpose shall be calculated by recognised actuarial methods, and paragraph 48 below shall not apply to such calculations.
- (7) Implicit discounting or deductions, whether resulting from the placing of a current value on a provision for an outstanding claim which is expected to be settled later at a higher figure or otherwise effected, is prohibited.
- 48 (1) Explicit discounting or deductions to take account of investment income is permitted, subject to the following conditions:
- (a) the expected average interval between the date for the settlement of claims being discounted and the accounting date shall be at least four years;
 - (b) the discounting or deductions shall be effected on a recognised prudential basis;
 - (c) when calculating the total cost of settling claims, the company shall take account of all factors that could cause increases in that cost;

Status: Point in time view as at 01/02/1994.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 01 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (d) the company shall have adequate data at its disposal to construct a reliable model of the rate of claims settlements;
 - (e) the rate of interest used for the calculation of present values shall not exceed a rate prudently estimated to be earned by assets of the company which are appropriate in magnitude and nature to cover the provisions for claims being discounted during the period necessary for the payment of such claims, and shall not exceed either —
 - (i) a rate justified by the performance of such assets over the preceding five years, or
 - (ii) a rate justified by the performance of such assets during the year preceding the balance sheet date.
- (2) When discounting or effecting deductions, the company shall, in the notes to the accounts, disclose —
- (a) the total amount of provisions before discounting or deductions,
 - (b) the categories of claims which are discounted or from which deductions have been made,
 - (c) for each category of claims, the methods used, in particular the rates used for the estimates referred to in sub-paragraph (1)(d) and (e), and the criteria adopted for estimating the period that will elapse before the claims are settled.

Long term business

- 49 The amount of the provision for claims shall be equal to the sums due to beneficiaries, plus the costs of settling claims.

Equalisation provision

- [^{F261}50 Any equalisation provision established under the Insurance Companies (Credit Insurance) Regulations 1990 shall be valued in accordance with the provisions of those Regulations.]

Textual Amendments

F261 Sch. 9A substituted (19.12.1993) by virtue of S.I. 1993/3246, regs. 4, 6, 7, Sch. 1

Accounting on a non-annual basis

- 51 (1) Either of the methods described in paragraphs 52 and 53 below may be applied where, because of the nature of the class or type of insurance in question, information about premiums receivable or claims payable (or both) for the underwriting years is insufficient when the accounts are drawn up for reliable estimates to be made.
- (2) The use of either of the methods referred to in sub-paragraph (1) shall be disclosed in the notes to the accounts together with the reasons for adopting it.
- (3) Where one of the methods referred to in sub-paragraph (1) above is adopted, it shall be applied systematically in successive years unless circumstances justify a change.
- (4) In the event of a change in the method applied, the effect on the assets, liabilities, financial position and profit or loss shall be stated in the notes to the accounts.

- (5) For the purposes of this paragraph and paragraph 52 below, “underwriting year” means the financial year in which the insurance contracts in the class or type of insurance in question commenced.
- 52 (1) The excess of the premiums written over the claims and expenses paid in respect of contracts commencing in the underwriting year shall form a technical provision included in the technical provision for claims outstanding shown in the balance sheet under Liabilities item C.3.
- (2) The provision may also be computed on the basis of a given percentage of the premiums written where such a method is appropriate for the type of risk insured.
- (3) If necessary, the amount of this technical provision shall be increased to make it sufficient to meet present and future obligations.
- (4) The technical provision constituted under this paragraph shall be replaced by a provision for claims outstanding estimated in accordance with paragraph 47 above as soon as sufficient information has been gathered and not later than the end of the third year following the underwriting year.
