- (3) In addition, there may be included in the cost of an asset constructed by the company —
- (a) a reasonable proportion of the costs incurred by the company which are only indirectly attributable to the construction of that asset, but only to the extent that they relate to the period of construction; and
 - (b) interest on capital borrowed to finance the construction of that asset, to the extent that it accrues in respect of the period of construction;
- provided, however, in a case within sub-paragraph (b) above, that the inclusion of the interest in determining the cost of that asset and the amount of the interest so included is disclosed in a note to the accounts.
- 40 (1) Subject to the qualification mentioned below, the cost of any assets which are fungible assets may be determined by the application of any of the methods mentioned in sub-paragraph (2) below in relation to any such assets of the same class. - the amount of that difference shall be disclosed in a note to the accounts.
- (4) Subject to sub-paragraph (5) below, for the purposes of sub-paragraph (3)(b) above, the relevant alternative amount, in relation to any item shown in a company's balance sheet, is the amount which would have been shown in respect of that item if assets of any class included under that item at an amount determined by any method permitted by this paragraph had instead been included at their replacement cost as at the balance sheet date.

Status: Point in time view as at 01/10/2007.

Changes to legislation: Companies Act 1985 is up to date with all changes known to be in force on or before 17 July 2024. There are changes that may be brought into force at a future date. - (5) The relevant alternative amount may be determined by reference to the most recent actual purchase price before the balance sheet date of assets of any class included under the item in question instead of by reference to their replacement cost as at that date, but only if the former appears to the directors of the company to constitute the more appropriate standard of comparison in the case of assets of that class.

Substitution of original amount where price or cost unknown

- 41 Where there is no record of the purchase price of any asset acquired by a company or of any price, expenses or costs relevant for determining its cost in accordance with paragraph 39 above, or any such record cannot be obtained without unreasonable expense or delay, its cost shall be taken for the purposes of paragraphs 31 to 36 above to be the value ascribed to it in the earliest available record of its value made on or after its acquisition by the company.

Provision for unexpired risks

- 45 The provision for unexpired risks (as defined in paragraph 81 below) shall be computed on the basis of claims and administrative expenses likely to arise after the end of the financial year from contracts concluded before that date, in so far as their estimated value exceeds the provision for unearned premiums and any premiums receivable under those contracts.

 - (i) a rate justified by the performance of such assets over the preceding five years, or
 - (ii) a rate justified by the performance of such assets during the year preceding the balance sheet date.

(2) The court may, on the joint application of all the transferor companies and pre-existing transferee companies concerned in the scheme, approve the appointment of a joint expert to draw up a single report on behalf of all those companies.

(5) The reference in sub-paragraph (4) above to an officer or servant does not include an auditor.

(6) Where any valuation is made by a person other than the expert himself, the latter's report shall state that fact and shall also—

- (a) state the former's name and what knowledge and experience he has to carry out the valuation, and
- (b) describe so much of the undertaking, property and liabilities as were valued by the other person, and the method used to value them, and specify the date of the valuation.

 - (b) give an opinion as to whether the method or methods used are reasonable in all the circumstances of the case, indicate the values arrived at using each such method and (if there is more than one method) give an opinion on the relative importance attributed to such methods in arriving at the value decided on;
 - (c) describe any special valuation difficulties which have arisen;
 - (d) state whether in the expert's opinion the share exchange ratio is reasonable; and
