SCHEDULE 5

PUBLIC GAS SUPPLY CODE

PART I

SUPPLY OF GAS TO TARIFF CUSTOMERS

Installation of meters in new premises

- 6 (1) This paragraph applies where a meter is to be used to register the quantity of gas supplied to a tariff customer and—
- (a) the building has not previously been supplied with gas by the public gas supplier ; or
 - (b) a new or substituted pipe is to be laid between the public gas supplier's main and the meter.
- (2) Subject to sub-paragraph (3) below, the meter shall be installed as near as practicable to the main, but within the outside wall of the building.
- (3) The meter may be installed otherwise than within the outside wall of the building if it is installed either—
- (a) in accommodation of a type and construction approved by the public gas supplier by an approval given in relation to buildings generally, or to any class or description of buildings ; or
 - (b) in a separate meter house or other accommodation outside the building approved by the supplier in the case of that particular building.
- (4) If the requirements of this paragraph are not complied with, the public gas supplier may refuse to supply gas to the premises until those requirements have been complied with.
