- (c) section 432C applies for determining the extent to which the relevant brought into account amount is referable to life assurance business or to gross roll-up business, and
- (d) the line 51 reduction condition is met (see subsection (3)).
- (2) An amount is a relevant brought into account amount for a period of account if—
 - (a) it is brought into account as mentioned in subsection (2)(b) of section 83 of the Finance Act 1989 (increases in value of non-linked assets) for that period,
 - (b) it is deemed to be brought into account for that period by subsection (2B) of that section in consequence of the transfer of non-linked assets, or
 - (c) it is taken into account under subsection (2) of that section for that period by virtue of section 444AB as being the relevant amount in relation to non-linked assets.
- (3) The line 51 reduction condition is met if—
 - (a) the amount shown in column 1 of line 51 of Form 14 of the company's periodical return in respect of the relevant business for the current period of account, is less than
 - (b) the amount so shown for the period of account immediately before it; and the amount of the difference is "the relevant reduction".
- (4) Section 432C applies in relation to so much of the relevant brought into account amount as does not exceed the relevant reduction ("the affected amount") as if it were brought into account as an increase in the value of assets in the case of the relevant business for the applicable appropriate period of account of the company.
- (5) A period of account is an "appropriate period of account" if it ended before the current period of account and—
 - (a) the amount shown in column 1 of line 51 of Form 14 of the company's periodical return in respect of the relevant business for it, was more than
 - (b) the amount so shown for the period of account immediately before it; and the amount of the difference is "the relevant increase."
- (6) The "applicable" appropriate period of account is the one which ended most recently ("the most recent appropriate period of account").
- (7) But if the relevant increase in the case of the most recent appropriate period of account is less than the affected amount, the most recent appropriate period of account is the applicable appropriate period of account in relation to only so much of the affected amount as does not exceed that relevant increase.
- (8) In that case, the appropriate period of account which ended most recently before the most recent appropriate period of account is the applicable appropriate period of account in relation to so much of the remainder as does not exceed the relevant increase in the case of that appropriate period of account (and, where necessary, so on until the applicable appropriate period of account is established in relation to all of the affected amount or there are no more appropriate periods of account).
- (9) If the current period of account is not the first in relation to which this section has applied in the case of the business concerned, the amount of the relevant increase in the case of any appropriate period of account ("the period in question") is to be treated as reduced by the relevant aggregate.

[F173432C] Fransfers of business involving excess assets

- (1) This section applies where, under an insurance business transfer scheme, there is a transfer of long-term business—
 - (a) from a non-profit fund of an insurance company ("the transferor") which is not a non-profit company in relation to the relevant period of account,
 - (b) to another insurance company ("the transferee") to constitute or form part of a non-profit fund of the transferee ("the transferee's non-profit fund"),

("the transfer") and conditions A and B are met.

- (2) Condition A is that the fair value of the assets transferred by the transfer exceeds by an amount ("the chargeable excess") the amount of the relevant liabilities transferred by the transfer.
 - For this purpose "relevant" liabilities are liabilities of a type shown (or treated as shown) in any of lines 14, 17, 21 to 23 and 31 to 38 of Form 14 of a periodical return of an insurance company.
- (3) Condition B is that the main purpose, or one of the main purposes, of the transferor or the transferee (or both) in entering into any part of the transfer scheme arrangements is to secure a reduction in tax as a result of section 432C having effect in the case of the transferee, rather than the transferor, in relation to the business transferred by the transfer.
- (4) The chargeable excess is to be brought into account by the transferor as mentioned in section 83(2)(b) of the Finance Act 1989 for the relevant period of account.
- (5) Where there is no amount shown in relation to the transferee's non-profit fund in column 1 of line 51 of Form 14 of the periodical return of the transferee for the first period of account of the transferee ending on or after the transfer date ("the first post-transfer period of account"), the chargeable excess is to be brought into account by the transferee as mentioned in section 83(2) of the Finance Act 1989 as a decrease in the value of non-linked assets for the first post-transfer period of account.

- (2) Where there are different intervals between payments to which an annuitant is entitled in respect of any annuity, the question whether or not the conditions in subsection (1) (b) and (c) above are satisfied in the case of that annuity shall be determined by
 - that the annuitant's entitlement, after the first payment, to payments in respect of that annuity is an entitlement to payments at yearly intervals on the anniversary of the first payment; and
 - that the amount to which the annuitant is assumed to be entitled on each such anniversary is equal to the annuitant's assumed entitlement for the year ending with that anniversary.
- (3) For the purposes of subsection (2) above an annuitant's assumed entitlement for any year shall be determined as follows
 - the annuitant's entitlement to each payment in respect of the annuity shall be taken to accrue at a constant rate during the interval between the previous payment and that payment; and

- (6) Where the amount of any one or more of the payments to which an annuitant is entitled in respect of an annuity depends on any contingency, his entitlement to payments in respect of that annuity shall be determined for the purposes of section 437(1CA) to (1CC) and this section according to whatever (applying any relevant actuarial principles) is the most likely outcome in relation to that contingency.
- (7) Where any agreement or arrangement has effect for varying the rights of an annuitant in relation to a payment in respect of any annuity, that payment shall be taken, for the purposes of section 437(1CA) to (1CC) and this section, to be a payment of the amount to which the annuitant is entitled in accordance with that agreement or arrangement.

500 Deduction of PRT in computing income for corporation tax purposes.

- (1) Where a participator in an oil field has paid any petroleum revenue tax with which he was chargeable for a chargeable period, then, in computing for corporation tax the amount of his income arising in the relevant accounting period from oil extraction activities or oil rights, there shall be deducted an amount equal to that petroleum revenue tax.

- (3) For the purposes of subsection (1) above, the relevant accounting period, in relation to any petroleum revenue tax paid by a company, is—
 - (a) the accounting period of the company in or at the end of which the chargeable period for which that tax was charged ends; or

- (4) [F838 Subject to the following provisions of this section] if some or all of the petroleum revenue tax in respect of which a deduction has been made under subsection (1) above is subsequently repaid, that deduction shall be reduced or extinguished accordingly; and any additional assessment to corporation tax required in order to give effect to this subsection may be made at any time not later than six years after the end of the [F839 calendar year] in which the first-mentioned tax was repaid.
- [F840(5)] If, in a case where paragraph 17 of Schedule 2 to the 1975 Act applies, an amount of petroleum revenue tax in respect of which a deduction has been made under subsection (1) above is repaid by virtue of an assessment under that Schedule or an amendment of such an assessment, then, so far as concerns so much of that repayment as constitutes the appropriate repayment,—
 - (a) subsection (4) above shall not apply; and
 - (b) the following provisions of this section shall apply in relation to the company which is entitled to the repayment.
 - (6) In subsection (5) above and the following provisions of this section—
 - (a) "the appropriate repayment" has the meaning assigned by sub-paragraph (2) of paragraph 17 of Schedule 2 to the 1975 Act;
 - (b) in relation to the appropriate repayment, a "carried back loss" means an allowable loss which falls within sub-paragraph (1)(a) of that paragraph and which (alone or together with one or more other carried back losses) gives rise to the appropriate repayment;
 - (c) in relation to a carried back loss, "the operative chargeable period" means the chargeable period in which the loss accrued; and
 - (d) in relation to the company which is entitled to the appropriate repayment, "the relevant accounting period" means the accounting period in or at the end of which ends the operative chargeable period or, if the company's ring fence trade is permanently discontinued before the end of the operative chargeable period, the last accounting period of that trade.
 - (7) In computing for corporation tax the amount of the company's income arising in the relevant accounting period from oil extraction activities or oil rights there shall be added an amount equal to the appropriate repayment; but this subsection has effect subject to subsection (8) below in any case where—
 - (a) two or more carried back losses give rise to the appropriate repayment; and
 - (b) the operative chargeable period in relation to each of the carried back losses is not the same; and
 - (c) if subsection (6)(d) above were applied separately in relation to each of the carried back losses there would be more than one relevant accounting period.
 - (8) Where paragraphs (a) to (c) of subsection (7) above apply, the appropriate repayment shall be treated as apportioned between each of the relevant accounting periods referred to in paragraph (c) of that subsection in such manner as to secure that the amount added by virtue of that subsection in relation to each of those relevant accounting periods is what it would have been if—
 - (a) relief for each of the carried back losses for which there is a different operative chargeable period had been given by a separate assessment or amendment of an assessment under Schedule 2 to the 1975 Act; and
 - (b) relief for a carried back loss accruing in an earlier chargeable period had been so given before relief for a carried back loss accruing in a later chargeable period.

- (2) A company's adjusted ring fence profits for an accounting period are the amount which, on the assumption mentioned in subsection (3) below, would be determined for that period (in accordance with this Chapter) as the profits of the company's ring fence trade chargeable to corporation tax.
- (3) The assumption is that financing costs are left out of account in computing—
 - (a) the amount of the profits or loss of any ring fence trade of the company's for each accounting period beginning on or after 17th April 2002; and
 - (b) where for any such period the whole or part of any loss relief is surrendered to the company in accordance with section 492(8), the amount of that relief or, as the case may be, that part.
- (4) For the purposes of this section, "financing costs" means the costs of debt finance.

 - [F844(b)] any exchange gain or loss from a debtor relationship, within the meaning of that Chapter (see section 103(1A) and (1B) of that Act), in relation to debt finance;

- [F845(c)] any credit or debit falling to be brought into account under Schedule 26 to the Finance Act 2002 (derivative contracts) in relation to debt finance;
 - (d) the financing cost implicit in a payment under a finance lease;
- where the company is the lessee under a long funding operating lease, the amount deductible in respect of payments under the lease in computing the profits of the lessee for the purposes of corporation tax (after first making against any such amount any reductions falling to be made by virtue of section 502K); and
 - (e) any other costs arising from what would be considered in accordance with generally accepted accounting practice to be a financing transaction.
- (6) Where an amount representing the whole or part of a payment falling to be made by a company—
 - (a) falls (or would fall) to be treated as a finance charge under a finance lease for the purposes of accounts relating to that company and one or more other companies and prepared in accordance with generally accepted accounting practice, but
 - (b) is not so treated in the accounts of the company,

the amount shall be treated for the purposes of this section as financing costs falling within subsection (5)(d) above.

(7) If—

- (a) in computing the adjusted ring fence profits of a company for an accounting period, an amount falls to be left out of account by virtue of subsection (5) (d) above, but
- (b) the whole or any part of that amount is repaid,

the repayment shall also be left out of account in computing the adjusted ring fence profits of the company for any accounting period.

- (8) In this section "finance lease" means any arrangements—
 - (a) which provide for an asset to be leased or otherwise made available by a person to another person ("the lessee"), and
 - (b) which, under generally accepted accounting practice,—
 - (i) fall (or would fall) to be treated, in the accounts of the lessee or a person connected with the lessee, as a finance lease or a loan, or
 - (ii) are comprised in arrangements which fall (or would fall) to be so treated.
- (9) For the purposes of applying subsection (8)(b) above, the lessee and any person connected with the lessee are to be treated as being companies which are incorporated in a part of the United Kingdom.
- (10) In this section "accounts", in relation to a company, includes any accounts which—
 - (a) relate to two or more companies of which that company is one, and
 - [F847(b)] are drawn up in accordance with generally accepted accounting practice.]

I^{F859}Introductory

Textual Amendments

F859 Pt. 12 Ch. 5A (ss. 502A-502L) inserted (with effect in accordance with Sch. 8 para. 15 of the amending Act) by Finance Act 2006 (c. 25), Sch. 8 para. 11

502A Scope of Chapter 5A

This Chapter has effect for the purposes of corporation tax only.

Lessors under long funding finance leases

502B Lessor under long funding finance lease: rental earnings

- (1) This section applies for determining for the purposes of corporation tax the profits of a company for any period of account in which it is the lessor of any plant or machinery under a long funding finance lease.
- (2) The amount to be brought into account as the lessor's taxable income from the lease for the period of account is the amount of the rental earnings in respect of the lease for the period of account.
- (3) The "rental earnings" for any period is the amount which, in accordance with generally accepted accounting practice, falls (or would fall) to be treated as the gross return on investment for that period in respect of the lease where it meets the finance lease test.
- (4) If the lease is one which, under generally accepted accounting practice, falls (or would fall) to be treated as a loan in the accounts in question, so much of the rentals under the lease as fall (or would fall) to be treated as interest are to be treated for the purposes of this section as rental earnings.

Lessors under long funding operating leases

502E Lessor under long funding operating lease: periodic deduction

(1) This section applies for determining for the purposes of corporation tax the profits of a company for any period of account—

Status: Point in time view as at 31/12/2006. This version of this part contains provisions that are not valid for this point in time. Changes to legislation: Income and Corporation Taxes Act 1988, PART XII is up to date with all changes known to be in force on or before 10 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (a) for the whole of which, or
- (b) for any part of which,

the company is the lessor of any plant or machinery under a long funding operating lease.

- (2) A deduction is allowed in computing the profits of the company for the period of account.
- (3) The amount of the deduction for any period of account is to be determined as follows.
- (4) First, find the "relevant value" for the purposes of subsection (6)(a) below, which is—
 - (a) if the only use of the plant or machinery by the lessor has been the leasing of it under the long funding operating lease as a qualifying activity, cost;
 - (b) if the last previous use of the plant or machinery by the lessor was the leasing of it under another long funding operating lease as a qualifying activity, market value;
 - (c) if the last previous use of the plant or machinery by the lessor was the leasing of it under a long funding finance lease as a qualifying activity, the recognised value;
 - (d) if the last previous use of the plant or machinery by the lessor was for the purposes of a qualifying activity other than leasing under a long funding lease, the lower of cost and market value;
 - (e) if the lessor owns the plant or machinery as a result of having incurred expenditure on its provision for purposes other than those of a qualifying activity, but—
 - (i) the plant or machinery is brought into use by the lessor for the purposes of a qualifying activity on or after 1st April 2006, and
 - (ii) that qualifying activity is the leasing of the plant or machinery under the long funding operating lease,

the relevant value is the lower of first use market value and first use amortised value.

(5) In subsection (4) above—

"cost" means the amount of the expenditure incurred by the lessor on the provision of the plant or machinery;

"first use amortised value" means the value that the plant or machinery would have at the time when it is first brought into use for the purposes of the qualifying activity, on the assumption that—

- (a) the cost of acquiring the plant or machinery had been written off on a straight line basis over the remaining useful economic life of the plant or machinery, and
- (b) any further capital expenditure incurred had been written off on a straight line basis over so much of the remaining economic life of the plant or machinery as remains at the time when the expenditure is incurred;

"first use market value" means the market value of the plant or machinery at the time when it is first brought into use for the purposes of the qualifying activity;

"market value" means the market value of the plant or machinery at the commencement of the term of the long funding operating lease;

Status: Point in time view as at 31/12/2006. This version of this part contains provisions that are not valid for this point in time.

Changes to legislation: Income and Corporation Taxes Act 1988, PART XII is up to date with all changes known to be in force on or before 10 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

"recognised value" means the value at which the plant or machinery is recognised in the books or other financial records of the lessor at the commencement of the long funding operating lease.

(6) From—

- (a) the relevant value determined in accordance with subsection (4) above, subtract
 - (b) the amount which, at the commencement of the term of the lease, is (or, in a case falling within subsection (4)(e) above, would have been) expected to be the residual value of the plant or machinery,

to find the expected gross reduction in value over the term of the lease.

- (7) Apportion the amount of that expected gross reduction in value to each period of account in which any part of the term of the lease falls.
- (8) The apportionment must be on a time basis according to the proportion of the term of the lease that falls in each period of account.
- (9) The amount of the deduction for any period of account is the amount so apportioned to that period.

502F Long funding operating lease: lessor's additional expenditure

- (1) This section applies if in any period of account—
 - (a) a company is the lessor of any plant or machinery under a long funding operating lease,
 - (b) the company incurs capital expenditure in relation to the plant or machinery, and
 - (c) that capital expenditure (the "additional expenditure") is not reflected in the market value of the plant or machinery at the commencement of the term of the lease.
- (2) In a case falling within section 502E(4)(e) above, subsection (1)(c) above has effect as if the reference to the commencement of the term of the lease were a reference to the time when the plant or machinery is first brought into use by the lessor for the purposes of the qualifying activity.
- (3) Where this section applies, an additional deduction is allowed in computing the profits of the company for each post-expenditure period of account in which the company is the lessor of the plant or machinery under the lease.
- (4) The amount of the deduction for any such period of account is to be determined as follows.
- (5) Find ARV, CRV, PRV, and TRV where—
 - "ARV" is the amount which, at the time when the additional expenditure is incurred, is expected to be the residual value of the plant or machinery;
 - "CRV" is the amount which, at the commencement of the term of the lease, is expected to be the residual value of the plant or machinery;
 - "PRV" is the sum of any amounts that fell to be taken into account as RRV (see subsection (6)) in the application of this section in relation to any previous additional expenditure incurred by the company in relation to the leased plant or machinery;

Status: Point in time view as at 31/12/2006. This version of this part contains provisions that are not valid for this point in time. Changes to legislation: Income and Corporation Taxes Act 1988, PART XII is up to date with all changes known to be in force on or before 10 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

"TRV" is the total of CRV and PRV.

(6) Find RRV, where—

- (a) if ARV exceeds TRV, RRV is the portion of the excess that is a result of the additional expenditure, but
- (b) if ARV does not exceed TRV, RRV is nil.

(7) From—

- (a) the amount of the additional expenditure, subtract
 - (b) RRV,

to find the expected partial reduction in value over the remainder of the term of the lease.

- (8) Apportion the amount of that expected partial reduction in value to each post-expenditure period of account in which any part of the term of the lease falls.
- (9) The apportionment must be on a time basis according to the proportion of the term of the lease that falls in each post-expenditure period of account.
- (10) The amount of the additional deduction for any period of account is the amount so apportioned to that period.
- (11) In this section "post-expenditure period of account" means any period of account ending after the incurring of the additional expenditure.

502G Lessor under long funding operating lease: termination of lease

- (1) This section applies for determining the liability to corporation tax of a company which is the lessor immediately before the termination of a long funding operating lease.
- (2) Step 1 is to find—
 - (a) the termination amount (TA);
 - (b) the total of any sums paid to the lessee that are calculated by reference to the termination value (LP).
- (3) Step 2 is to find—
 - (a) the relevant value for the purposes of section 502E(6)(a) (RV);
 - (b) the total of the deductions allowable under section 502E for periods of account for the whole or part of which the company was the lessor before the termination of the lease (TD1);
 - (c) the amount, if any, (ERV) by which RV exceeds TD1.

(4) Step 3 is to find—

- (a) the total of any amounts of capital expenditure incurred by the company which constitute additional expenditure for the purposes of section 502F in the case of the lease (TAE);
- (b) the total of any deductions allowable under section 502F for periods of account for the whole or part of which the company was the lessor before the termination of the lease (TD2);
- (c) the amount, if any, (EAE) by which TAE exceeds TD2.
- (5) Step 4 is to find the total of ERV and EAE (T).

Status: Point in time view as at 31/12/2006. This version of this part contains provisions that are not valid for this point in time.

Changes to legislation: Income and Corporation Taxes Act 1988, PART XII is up to date with all changes known to be in force on or before 10 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (6) If (TA LP) exceeds T, treat a profit of an amount equal to the excess as arising to the company in the period of account in which the lease terminates.
- (7) If T exceeds (TA LP), treat a loss of an amount equal to the excess as arising to the company in that period of account.
- (8) A profit or loss treated as arising to the company under subsection (6) or (7) above is to be treated—
 - (a) in the case of a profit, as income of the company attributable to the lease,
 - (b) in the case of a loss, as a revenue expense incurred by the company in connection with the lease.
- (9) In computing the profits of the company, no deduction is allowed in respect of any sums paid to the lessee that are calculated by reference to the termination value.

"qualifying activity" has the same meaning as in Part 2 of the Capital Allowances Act;

"residual value", in relation to any plant or machinery leased under a long funding operating lease, means—

(a) the estimated market value of the plant or machinery on a disposal at the end of the term of the lease,
