826 Interest on tax overpaid. U.K.

^{M14}(1) In any case where—

- (a) a repayment falls to be made of corporation tax paid by a company for an accounting period which ends after the appointed day; or
- (b) a repayment of income tax falls to be made in respect of a payment received by a company in such an accounting period; or
- (c) a payment falls to be made to a company of the whole or part of the tax credit comprised in any franked investment income received by the company in such an accounting period,

then, from the material date until [^{F18}the order for repayment or payment is issued], the repayment or payment shall carry interest at the rate which, under section 89 of the Management Act, is for the time being the prescribed rate for the purposes of this section.

- (2) In relation to corporation tax paid by a company for an accounting period, the material date for the purposes of this section is the date on which corporation tax was paid or, if it is later, the date on which corporation tax for that accounting period became (or, as the case may be, would have become) due and payable in accordance with section 10.
- (3) In relation to a repayment of income tax falling within subsection (1)(b) above or a payment of the whole or part of a tax credit falling within subsection (1)(c) above, the material date is the date on which corporation tax became (or, as the case may be, would have become) due and payable for the accounting period in which the payment referred to in subsection (1)(b) above or, as the case may be, the franked investment income referred to in subsection (1)(c) above was received by the company.
- (4) For the purposes of this section a repayment of tax made on a claim under section 419(4) shall be treated as if it were a repayment of corporation tax for the accounting period in which the repayment of, or of the part in question of, the loan or advance mentioned in section 419(4) was made but, in relation to such a repayment of tax, the material date for the purposes of this section is—
 - (a) the date on which the loan or advance (or part thereof) is repaid; or
 - (b) if it is later, the date on which the tax which is to be repaid was in fact paid.
- (5) Interest paid under this section shall be paid without any deduction of income tax and shall not be brought into account in computing any profits or income.
- (6) Where a repayment of corporation tax is a repayment of tax paid by a company on different dates, the repayment shall so far as possible be treated for the purposes of

this section as a repayment of tax paid on a later rather than an earlier date among those dates.

- (7) In any case where—
- (a) there is in any accounting period of a company (“the later period”) an amount of surplus advance corporation tax, as defined in section 239(3); and
 - (b) pursuant to a claim under section 239(3), the whole or any part of that amount is treated for the purposes of section 239 as discharging liability for an amount of corporation tax for an earlier accounting period (“the earlier period”); and
 - (c) a repayment falls to be made of corporation tax made for the earlier period,
- then, in determining the amount of interest (if any) payable under this section on the repayment of corporation tax for the earlier period, no account shall be taken of any increase in the amount of the repayment resulting from section 239(3) except so far as concerns interest for any time after the date on which any corporation tax for the later period became due and payable (as mentioned in subsection (2) above).
