- (5) If a utility makes such an election—
 - (a) the scheme shall have effect for the specified period in relation to such electricity or gas supplied by the utility as is covered by the scheme, and

Other commodities: directions by Commissioners

- 35 (1) This paragraph applies to supplies that are not of either of the descriptions mentioned in paragraphs (a) and (b) of paragraph 26(1) (electricity and gas in a gaseous state).
- (2) The Commissioners may, at the request of the person liable to account for any levy charged on any supplies to which this paragraph applies, make a direction under sub-paragraph (3) or (4) altering the time at which those supplies (or such of those supplies as may be specified in the direction) are to be treated as taking place.
- (3) The Commissioners may direct that the supplies shall be treated as taking place—
- (a) at times or on dates determined by or by reference to the occurrence of some event described in the direction, or
 - (b) at times or on dates determined by or by reference to the time when some event so described would in the ordinary course of events occur,
- provided the resulting times or dates are in every case earlier than would otherwise apply.
- (4) The Commissioners may direct that the supplies shall be treated as taking place—
- (a) at the beginning of the relevant working period (as defined in the case of the person making the request in and for the purposes of the direction), or
 - (b) at the end of the relevant working period (as so defined).

Status: Point in time view as at 26/03/2013. This version of this schedule contains provisions that are prospective.

Changes to legislation: Finance Act 2000, SCHEDULE 6 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (5) A direction under sub-paragraph (4) shall not apply to the extent that the time when the supplies in question are made is determined by paragraph 31(1).

Supplies invoiced or paid for before 1st April 2001

- 36 (1) This paragraph applies where—
- (a) the taxable commodities covered by an invoice issued, or payment received, before 1st April 2001 are to any extent commodities that have not been burned (or, in the case of electricity, consumed) before the invoice is issued or payment is received, and
 - (b) the advance invoicing or payment is not acceptable normal practice.
- It does not matter whether the invoice mentioned in paragraph (a) is, or is not, a climate change levy accounting document.
- (2) A fair apportionment shall be made to determine the quantity of the taxable commodities covered by the invoice or payment that will not be, or was not, burned (or consumed) before 1st April 2001.
- (3) Where this paragraph applies, a supply is treated as taking place on 1st April 2001.
- That supply is a supply of the quantity of the taxable commodities that is mentioned in, and determined under, sub-paragraph (2).
- (4) For the purposes of this paragraph advance invoicing or payment is “acceptable normal practice” if—
- (a) the supply is of a kind in the case of which it is normal practice for invoices to be issued, or payments made, in respect of taxable commodities not already burned (or consumed),
 - (b) that practice does not involve issuing invoices, or making payments, more than 15 weeks in advance of the burning (or consumption) of any of the taxable commodities in respect of which the invoice is issued or payment is made, and
 - (c) the advance invoicing or payment is in accordance with the practice.
- (5) Nothing in paragraph 27 requires a climate change levy accounting document to be issued to cover any commodities that are supplied by a supply that, under sub-paragraph (3), is treated as made on 1st April 2001.
- (6) This paragraph applies to invoices issued, and payments received, before the passing of this Act (as well as to those issued or received after its passing).

Supplies of electricity or gas spanning change of rate etc.

- 37 (1) This paragraph applies in the case of a supply of electricity, or of gas that is in a gaseous state and is of a kind supplied by a gas utility, affected by—
- (a) a change in the descriptions of supplies that are taxable supplies,
 - (b) a change in any rate of levy in force,
 - (c) a change consisting in the rate of levy applicable to the supply ceasing to be, or becoming, the rate that is applicable to ^{F68}... reduced-rate supplies, or
 - (d) the change consisting in the transition from 31st March 2001 to 1st April 2001.

Status: Point in time view as at 26/03/2013. This version of this schedule contains provisions that are prospective.

Changes to legislation: Finance Act 2000, SCHEDULE 6 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (2) For the purposes of this paragraph a supply is affected by a change if the electricity or gas of which it is a supply (“the supplied commodity”) is actually supplied partly before the change and partly after.

However, this paragraph does not apply in the case of a supply that, under paragraph 36(3), is treated as made on 1st April 2001.

- (3) If the person liable to account for any levy on the supply so elects—
- (a) the rate at which levy is chargeable on any part of the supply, or
 - (b) any question whether, or to what extent, the supply is a taxable supply,
- shall be determined in accordance with sub-paragraph (5) or (6).
- (4) An election for determination in accordance with sub-paragraph (6) may be made only where—
- (a) there is such a change as is mentioned in sub-paragraph (1)(c), and
 - (b) all the supplied commodity is actually supplied before the supply is treated as taking place.
- (5) Where the election is for determination in accordance with this sub-paragraph, the rules are—
- (A) Treat the fraction of the supplied commodity actually supplied before the change (“the pre-change fraction”) as supplied by a supply made before the change and treat the fraction of the supplied commodity actually supplied after the change (“the post-change fraction”) as supplied by a supply made after the change.
- (B) Where the pre-change and post-change fractions are not known (because, for example, there are no relevant meter readings available)—
- “the pre-change fraction” is calculated by dividing—
- (a) the number of days in the period over which the supply is actually made that fall before the change, by
 - (b) the number of days in that period; and
- “the post-change fraction” is the difference between 1 and the pre-change fraction.
- (C) If use of the fractions given by rule B would produce an inequitable result, the pre-change and post-change fractions may be derived from a reasonable estimate of the fractions of the supplied commodity actually supplied before and after the change.
- (6) Where the election is for determination in accordance with this sub-paragraph, treat the change as taking place immediately after the time at which the last of the supplied commodity was actually supplied.

- 42C (1) Sub-paragraph (2) applies for the purposes of paragraph 42A(2) if, in the calendar year in which the deemed supply is treated as taking place, carbon capture and storage technology is operated in relation to carbon dioxide generated by the station in question in producing electricity.
- (2) In relation to the deemed supply, only C% of the relevant carbon price support rate is to be applied (instead of the full rate).
 - (3) “C%” is 100% minus the station's carbon capture percentage for the calendar year.
 - (4) The station's “carbon capture percentage” for the calendar year is the percentage of the station's generated carbon dioxide for that year which, through the operation of the carbon capture and storage technology, is—
 - (a) captured, and
 - (b) then disposed of by way of permanent storage.
 - (5) The station's “generated carbon dioxide” for the calendar year is the amount of carbon dioxide generated in the year by the station from the use of carbon price support rate commodities in producing electricity.
 - (6) In this paragraph “carbon capture and storage technology” and “carbon dioxide” have the meaning given by section 7(3) and (4) of the Energy Act 2010.
 - (7) Sub-paragraph (8) applies for the purposes of sub-paragraph (4) in relation to any carbon dioxide if—
 - (a) the carbon dioxide is captured but then leaks out and therefore is not disposed of by way of permanent storage, but
 - (b) the leak does not occur—
 - (i) on the land on which the station is situated,
 - (ii) on any other land under the control of the station's owner or a person connected with the station's owner, or
 - (iii) from any pipeline or other facility or installation which is operated by the station's owner or a person connected with the station's owner.

Section 1122 of the Corporation Tax Act 2010 (“connected” persons) applies for the purposes of paragraph (b).
 - (8) The carbon dioxide is to be treated as if it had been disposed of by way of permanent storage.

- (a) uses taxable commodities otherwise than as fuel,
 - (b) produces a product of the same kind as one produced by the recycling process,
 - (c) uses a greater amount of energy than the recycling process to produce a given quantity of that product, and
