## EXPLANATORY NOTES

### COMMENTARY ON SECTIONS

#### **Part 3 - Recovery of Nhs Charges**

##### **Information**

##### ***Section 160: Provision of information***

340. The system for recovery of NHS charges is reliant upon information being exchanged by the various parties involved in the chain of events from accident to payment of compensation. *Subsections (1) and (2)* of this Section provide that a person against whom a claim for compensation is made and other persons set out in *paragraphs (b) to (g) of subsection (1)* must provide the authority with such information about the case as is required by regulations and that such information must be provided within the timescales and in the manner required by regulations. *Subsection (3)* makes clear that the information required may include information about NHS treatment or ambulance services provided to an injured person. It is envisaged that the only information which would be needed about the injured person's NHS treatment would be the category of treatment - treatment without admission, for example in accident and emergency or at an out-patient clinic, or treatment given as an in-patient plus the number of days' admission and in some instances the type of treatment provided.
