(5) Section 212I explains the meaning of “relevant percentage share” in section 212C(5).

Principal companies

212E) A company (“U”) is a principal company of C if—

- (a) C is a qualifying 75% subsidiary of U, and
- (b) U is not a qualifying 75% subsidiary of another company.

(2) A company (“V”) is a principal company of C if—

- (b) U is a qualifying 75% subsidiary of V, and

- (a) C is owned by a consortium of which X is a member, or

and X is a qualifying 75% subsidiary of Y but Y is not a qualifying 75% subsidiary of another company.

(6) If Y is a qualifying 75% subsidiary of another company (“Z”), Z is a principal company of C unless Z is a qualifying 75% subsidiary of another company, and so on.

(7) A company that is a principal company of C by virtue of any of subsections (4) to (6) is a consortium principal company of C.

When company is owned by consortium and consortium members

212(F) This section defines what a company being owned by, or a member of, a consortium means for the purposes of section 212E.

(2) A company is owned by a consortium if—

- (a) it is not a qualifying 75% subsidiary of another company,
- (b) at least 75% of its ordinary share capital is beneficially owned between them by other companies, and
- (c) none of those other companies owns less than 5% of that capital.

(3) Those other companies are the members of the consortium.

Qualifying 75% subsidiaries

212(G) For the purposes of sections 212E and 212F a company (“the subsidiary company”) is a qualifying 75% subsidiary of another company (“the parent company”) if condition 1 or 2 is met and condition 3 is met.

(2) Condition 1 is that—

- (a) the subsidiary company has ordinary share capital, and
- (b) the subsidiary company is a 75% subsidiary of the parent company (see section 1154(3) of CTA 2010).

(3) Condition 2 is that—

- (a) the subsidiary company does not have ordinary share capital, and
- (b) the parent company has control of the subsidiary company.

(4) Condition 3 is that the parent company—

(5) Chapter 6 of Part 5 of CTA 2010 (equity holders and profits or assets available for distribution) applies for the purposes of subsection (4) as that Chapter applies for the purposes of section 151(4)(a) and (b) of that Act (meaning of “75% subsidiary”).

(6) But in a case where the subsidiary company does not have ordinary share capital, Chapter 6 of Part 5 of that Act applies for those purposes as if the

members of that company were equity holders of that company for the purposes of that Chapter.

Ownership proportion

212H) For the purposes of section 212C(3) CPC's "ownership proportion" is the lowest of—

- (a) the percentage of the ordinary share capital of C that is beneficially owned by CPC,
 - (b) the percentage to which CPC is beneficially entitled of any profits available for distribution to equity holders of C, and
 - (c) the percentage to which CPC would be beneficially entitled of any assets of C available for distribution to its equity holders on a winding-up.
- (2) Chapter 6 of Part 5 of CTA 2010 applies for the purposes of subsection (1) as that Chapter applies for the purposes of section 143(3)(b) and section 144(3)(b) and (c) (condition 1: claimant company owned by consortium) of that Act.
- (3) But in a case where the subsidiary company does not have ordinary share capital, Chapter 6 of Part 5 of that Act applies for those purposes as if the members of that company were equity holders of that company for the purposes of that Chapter.

Relevant percentage share

212I) For the purposes of section 212C(5) C's "relevant percentage share" is C's percentage share in the profits or losses of the trade.

- (2) For this purpose C's percentage share in the profits or losses of a trade at any time is determined on a just and reasonable basis.
- (3) In making that determination regard must be had, in particular, to any matter that would be taken into account in determining under section 1262 of CTA 2009 (but without regard to sections 1263 and 1264 of that Act) the company's share at that time in the profits or losses of the trade.

Relevant excess of allowances

Relevant excess of allowances

212J) C or P has a relevant excess of allowances in relation to the relevant trade if—

$$RTWDV > BSV$$

- (2) Section 212K defines RTWDV and section 212L defines BSV.

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

(3) References in this Chapter to plant and machinery do not include excluded plant and machinery.

(4) Plant and machinery is “excluded plant and machinery” if—

- (a) expenditure incurred on the provision of it is not, as a result of section 34A, qualifying expenditure for the purposes of this Part, or
- (b) it is, as a result of section 67, treated for the purposes of this Part as owned otherwise than by C or P.

Relevant tax written-down value

212K1) RTWDV is the relevant tax written-down value and is to be found by adding together amounts 1 and 2.

(2) Amount 1 is the total amount of any unrelieved qualifying expenditure in respect of plant and machinery contained in—

- (a) single asset pools,
- (b) class pools, or
- (c) the main pool,

which is available to be carried forward (in accordance with section 59) from the old period and used in calculating the profits of the relevant trade.

(3) Amount 2 is the total of any qualifying expenditure incurred on the provision of a ship for the purposes of the relevant trade which, at the end of the old period, is unrelieved by virtue of notice having been given under section 130.

(4) For the purposes of this Part the amount of unrelieved qualifying expenditure contained in any pool which is available to be carried forward (in accordance with section 59) from the old period and used in calculating the profits of the relevant trade is to be calculated on the assumptions—

- (a) that any qualifying expenditure that could have been (but was not) allocated to the pool before the end of the old period had been so allocated at the end of the old period,
- (b) that any qualifying expenditure prevented from being allocated to the pool by section 58(5) had been so allocated at the end of the old period, and
- (c) that any transaction taking place on the relevant day that has the effect of reducing the amount of unrelieved qualifying expenditure in the pool had not taken place.

(5) Where condition C in section 212C is met—

- (a) references in subsection (2) to any unrelieved qualifying expenditure in respect of plant and machinery contained in a pool which is available to be carried forward (in accordance with section 59) from the old period and used in calculating the profits of the relevant trade, and
- (b) the reference in subsection (3) to any qualifying expenditure incurred on the provision of a ship for the purposes of the relevant

trade which, at the end of the old period, is unrelieved by virtue of notice having been given under section 130, are to what it would have been but for the qualifying change.

- (6) In this section “the old period” means the period which is the old period for the purposes of section 212O (or would be if this Chapter applied): see section 212N(3).
- (7) The plant and machinery in respect of which there is unrelieved qualifying expenditure such as is mentioned in subsection (2), or qualifying expenditure such as is mentioned in subsection (3), is referred to in the following provisions as “the relevant plant and machinery”.

Balance sheet value

212(1) BSV is the balance sheet value of the relevant plant and machinery and is to be found by adding together the amounts (if any) which would be shown in respect of it in the appropriate balance sheet of C or P.

- (2) For this purpose the amounts shown in the appropriate balance sheet in respect of the relevant plant or machinery are—
- (a) the amounts shown in that balance sheet as the net book value (or carrying amount) in respect of it, and
 - (b) the amounts shown in that balance sheet as the net investment in respect of finance leases of it.
- (3) If—
- (a) any of the relevant plant or machinery is a fixture in any land, and
 - (b) the amount which falls (or would fall) to be shown in the appropriate balance sheet as the net book value (or carrying amount) of the land would include an amount in respect of the fixture,
- the amount of the net book value (or carrying amount) in respect of the fixture is determined on a just and reasonable basis.
- (4) If—
- (a) any of the relevant plant or machinery is subject to a finance lease, and
 - (b) any land or asset which is not plant or machinery is subject to that lease,
- the amount of the net investment in respect of the finance lease of that plant or machinery is determined on a just and reasonable basis.
- (5) In this section any reference to any amount shown in the appropriate balance sheet of C or P is the amount which, assuming that a balance sheet of C or P were drawn up in accordance with subsection (6), would fall to be shown in that balance sheet.
- (6) A balance sheet is drawn up in accordance with this subsection if it is drawn up in accordance with generally accepted accounting practice so as to reflect the position as at the beginning of the relevant day but adjusted to reflect the disposal of any of the relevant plant or machinery which is disposed of on the relevant day.

(7) In this section—

“finance lease” means a lease which, in accordance with generally accepted accounting practice, falls (or would fall) to be treated as a finance lease or loan in accounts of C or P;

“fixture”—

- (a) means any plant or machinery that is so installed or otherwise fixed in or to a building or other description of land as to become, in law, part of that building or other land, and
- (b) includes any boiler or water-filled radiator installed in a building as part of a space or water heating system.

Unallowable purpose

Unallowable purpose

- 212M(1) The qualifying change has an unallowable purpose if the main purpose, or one of the main purposes, of change arrangements is to obtain a relevant tax advantage (for any person).
- (2) “Change arrangements” means any arrangements made to bring about, or otherwise connected with, the qualifying change; and “arrangements” includes any agreement, understanding, scheme, transaction or series of transactions (whether or not legally enforceable).
- (3) “Obtain a relevant tax advantage” means become entitled to a reduction in profits, or an increase in losses, for the purposes of corporation tax in consequence of a claim to allowances in respect of qualifying expenditure in respect of the relevant plant and machinery or qualifying expenditure within section 212K(3).

What happens when Chapter applies

Old and new accounting periods

- 212N(1) The accounting period of C which is current on the relevant day ends with that day and a new accounting period of C begins with the following day (but subject to subsection (2)).

When there is excess of allowances in pool: amount of excess

212Q(1) Section 212P has effect where C or P has an excess of allowances in any single asset pool, any class pool or the main pool at the end of the old period; and a pool in the case of which there is an excess of allowances is referred to in this section and section 212P as a “relevant pool”.

- (2) For the purposes of this section C or P has an excess of allowances in a pool if—

$$PA > BSVP$$

- (3) In this section and section 212Q—
- PA, in relation to a pool, is the amount specified in section 212K(2) in relation to the pool, and
 - BSVP, in relation to a pool, is so much of BSV as, on a just and reasonable apportionment, it is appropriate to attribute to the pool.
- (4) For the purposes of section 212P the amount of the excess of allowances in relation to any relevant pool (“the relevant pool in question”) is the difference between PA and BSVP.
- (5) But if, in relation to any other pool—

$$BSVP > PA$$

what would otherwise be the amount of the excess of allowances in relation to the relevant pool in question for the purposes of section 212P is reduced by so much of the difference between BSVP and PA as is not taken into account under this subsection in relation to another relevant pool or under section 212Q(8).

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Effect of excess of allowances on pools

- 212(1) The unrelieved qualifying expenditure in each relevant pool is to be taken to be reduced at the beginning of the new period by the amount of the excess of allowances in relation to the pool.
- (2) The amount of the excess of allowances is to be treated from the beginning of the new period as if it were qualifying expenditure in a new pool of the same description as the relevant pool (and so subject to the same provisions of this Part, other than this Chapter).
 - (3) Where, following the qualifying change, a person ceases to carry on a trade (or part of a trade) and C begins to carry on (whether or not in partnership) the activities of that trade (or part of a trade) as part of its trade, for the purposes of claiming any allowance in respect of qualifying expenditure in the new pool the carrying on of those activities by C is to be regarded as the carrying on of a separate trade.
 - (4) A loss attributable to an allowance claimed in respect of qualifying expenditure in the new pool may not be set off under section 37 of CTA 2010 (trade loss relief against total profits of same or earlier accounting period) otherwise than against the profits of a qualifying activity carried on by C, or any company that is a member of P, at the beginning of the relevant day.
 - (5) And the amount of such a loss which may be so set off by any person is not to exceed the amount of the loss which would have been available for such set off by the person but for the qualifying change.
 - (6) A loss attributable to an allowance claimed in respect of qualifying expenditure in the new pool may not be set off by way of group relief in accordance with Part 5 of CTA 2010 (surrender of losses by way of group relief) by a company (“the claimant company”) unless it would have been available for such set off but for the qualifying change.
 - (7) And the amount of such a loss which is available for such set off by the claimant company is not to exceed the amount of the loss which would have been available for such set off by the claimant company but for the qualifying change.
 - (8) Where any activity not carried on by C, or a company that is a member of P, at the beginning of the relevant day would otherwise be regarded for the purposes of corporation tax as forming part of a qualifying activity carried on by C or the member of P at that time it is not to be so regarded for the purposes of subsection (4).
 - (9) In a case in which condition C in section 212C is met, the references in subsections (1) and (2) to the beginning of the new period are to the time of the qualifying change (and section 948 of CTA 2010 has effect subject to this section).

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

When there are postponed capital allowances

212Q1) This section has effect where C or P has relevant postponed capital allowances.

- (2) C or P has relevant postponed capital allowances if amount 2 in section 212K(3) is an amount other than nil.
- (3) Where, following the qualifying change, a person ceases to carry on a trade (or part of a trade) and C begins to carry on (whether or not in partnership) the activities of that trade (or part of a trade) as part of its trade, for the purposes of claiming any allowance in respect of qualifying expenditure such as is mentioned in section 212K(3) the carrying on of those activities by C is to be regarded as the carrying on of a separate trade.
- (4) A loss attributable to an allowance claimed in respect of qualifying expenditure such as is mentioned in section 212K(3) may not be set off under section 37 of CTA 2010 otherwise than against the profits of a qualifying activity carried on by C, or any company that is a member of P, at the beginning of the relevant day.
- (5) And the amount of such a loss which may be so set off by any person is not to exceed the amount of the loss which would have been available for such set off by the person but for the qualifying change.
- (6) A loss attributable to an allowance claimed in respect of qualifying expenditure such as is mentioned in section 212K(3) may not be set off by way of group relief in accordance with Part 5 of CTA 2010 by a company (“the claimant company”) unless it would have been available for such set off but for the qualifying change.
- (7) And the amount of such a loss which is available for such set off by the claimant company is not to exceed the amount of the loss which would have been available for such set off by the claimant company but for the qualifying change.
- (8) If, in relation to any pool—

$$BSVP > PA$$

what would otherwise be the amount of qualifying expenditure such as is mentioned in section 212K(3) is to be treated for the purposes of this section as reduced by so much of the difference between BSVP and PA in relation to the pool as is not taken into account under section 212O(5) in relation to a relevant pool.

- (9) Where any activity not carried on by C, or a company that is a member of P, at the beginning of the relevant day would otherwise be regarded for the purposes of corporation tax as forming part of a qualifying activity

Transactions on relevant day

212S) This section applies if any plant and machinery is transferred on the relevant day and (apart from subsection (4)(c) of section 212K) the transfer would have the effect of reducing RTWDV (as determined in accordance with that section).

(2) No person other than C or P is entitled to claim an allowance in respect of the plant or machinery after the transfer.”

3 For the heading of Chapter 17 substitute “ OTHER ANTI-AVOIDANCE ”.

4 Section 247 (giving effect to allowances and charges: trades) is renumbered as subsection (1) of that section; and after that subsection insert—

“(2) See Chapter 16A for provision restricting in certain circumstances the ways in which effect may be given to an allowance by virtue of subsection (1)(a).”

SCHEDULE 5 U.K.

LEASED ASSETS

Restriction of qualifying expenditure

- 1 (1) In Chapter 17 of Part 2 of CAA 2001 (plant and machinery: anti-avoidance), after section 228M insert—

“228MA Restriction of qualifying expenditure

- (1) This section applies where capital expenditure is incurred on the provision of plant or machinery (“the asset”) and at the time the expenditure is incurred—
- (a) the asset is leased or arrangements exist under which it is to be leased, and
 - (b) arrangements have been entered into in relation to payments under the lease that have the effect of reducing the value of the asset to the lessor (“V”).
- (2) For the purposes of capital allowances the lessor's qualifying expenditure on the asset is restricted to V.
- (3) The value of the asset to the lessor is given by—

$$V = VI + VR$$

where—

VI is the present value of the lessor's income from the asset, and

VR is the present value of the residual value of the asset reduced by the amount of any rental rebate.

- (4) For this purpose—
- (a) the lessor's income from the asset is the total of all the amounts that—
 - (i) have been received by the lessor, or it is reasonable to expect the lessor will receive, in connection with the lease, and
 - (ii) have been brought into account by the lessor, or it is reasonable to expect the lessor will bring into account, as income in computing profits chargeable to tax, and

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: There are currently no known outstanding effects for the Finance Act 2010. (See end of Document for details)

- (b) the residual value of the asset is what it is reasonable to expect will be the market value of the lessor's interest in the asset immediately after the termination of the lease.
- (5) In determining the lessor's income from the asset, exclude—
 - (a) disposal receipts brought, or to be brought, into account under Part 2, and
 - (b) so much of any amount as represents charges for services or qualifying UK or foreign tax (within the meaning of section 70YE) to be paid by the lessor.
- (6) Where capital expenditure has previously been incurred by the lessor on the provision of the asset, the reference in subsection (2) to the lessor's qualifying expenditure on the asset is to be read as a reference to the total amount of the lessor's qualifying expenditure on the asset.
- (7) The following provisions supplement this section—
 - (a) section 228MB provides for the calculation of “present value”, and
 - (b) section 228MC defines what is meant by a rental rebate.
- (8) In this section and sections 228MB and 228MC “lease” includes any arrangements which provide for plant or machinery to be leased or otherwise made available by a person (“the lessor”) to another person (“the lessee”).

228MB Calculation of present value

- (1) For the purposes of section 228MA the “present value” of an amount is to be calculated by using the interest rate implicit in the lease.
- (2) The general rule is that the interest rate implicit in the lease is the interest rate that would apply in accordance with normal commercial criteria, including, in particular, generally accepted accounting practice (where applicable).
- (3) If the interest rate implicit in the lease cannot be determined in accordance with subsection (2), it is taken to be 1% above LIBOR.
- (4) For this purpose—
 - (a) LIBOR means the London interbank offered rate on the relevant day for deposits for a term of 12 months in the relevant currency,
 - (b) the relevant day is the day on which the lease was entered into (or if that was not a business day, the first business day after that day), and
 - (c) the relevant currency is the currency in which rentals under the lease are payable.

228MC Rental rebate

- (1) For the purposes of section 228MA “rental rebate” means any sum payable to the lessee that is calculated by reference to the termination value of the asset.

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: There are currently no known outstanding effects for the Finance Act 2010. (See end of Document for details)

- (2) The general rule is that the termination value of an asset is the value of the asset at or about the time when the lease terminates.
- (3) Calculation by reference to the termination value includes calculation by reference to any one or more of—
 - (a) the proceeds of sale, if the asset is sold,
 - (b) any insurance proceeds, compensation or similar sums in respect of the asset, and
 - (c) an estimate of the market value of the asset.
- (4) Calculation by reference to the termination value also includes—
 - (a) determination in a way which, or by reference to factors or criteria which, might reasonably be expected to produce a broadly similar result to calculation by reference to the termination value, or
 - (b) any other form of calculation indirectly by reference to the termination value.”

- (2) The amendment made by sub-paragraph (1) has effect in relation to capital expenditure incurred on or after 9 December 2009.

Restriction of deduction for rental rebate

- 2 (1) In Chapter 4 of Part 2 of ITTOIA 2005 (trading income: rules restricting deductions), after section 55A insert—

“Rental rebates

55B Rental rebates

- (1) Where plant or machinery (“the asset”) is leased and a rental rebate is payable by the lessor, the amount of the deduction allowable in respect of the rebate is limited to—
 - (a) the amount of the lessor's income from the lease, or
 - (b) in the case of a finance lease, that amount excluding the finance charge.
- (2) “Rental rebate” means any sum payable to the lessee that is calculated by reference to the termination value of the asset.
- (3) For this purpose—
 - (a) the termination value of an asset is the value of the asset at or about the time when the lease terminates,
 - (b) calculation by reference to the termination value includes calculation by reference to any one or more of—
 - (i) the proceeds of sale, if the asset is sold,

- a broadly similar result to calculation by reference to the termination value, or
- (ii) any other form of calculation indirectly by reference to the termination value.
- (4) For the purposes of this section—

- (i) disposal receipts brought into account under Part 2 of CAA 2001 (see section 60(1) of that Act), and
- (ii) so much of any amount as represents charges for services or qualifying UK or foreign tax (within the meaning of section 70YE of that Act) to be paid by the lessor, and
- (b) the finance charge, in relation to a finance lease, is—
- (i) if the lease is one that, under generally accepted accounting practice, falls (or would fall) to be treated as a loan, so much of the rentals under the lease as fall (or would fall) to be treated as interest, or
- (ii) in any other case, the amount that, in accordance with generally accepted accounting practice, falls (or would fall) to be treated as the gross return on investment.
- (5) Where the asset is acquired by the lessor in a transaction in relation to which an election is made under section 266 of CAA 2001 (election where predecessor and successor are connected persons), this section applies as if the successor had been the lessor at all material times and everything done to or by the predecessor had been done to or by the successor.
- (6) Where the whole or part of a rental rebate is disallowed under this section as a deduction in computing profits—
- (a) the amount disallowed, or
- (b) if less, the amount by which the rental rebate exceeds the amount of capital expenditure incurred by the lessor,
- may be treated for the purposes of capital gains tax as an allowable loss accruing to the lessor on the termination of the lease.
- That allowable loss is deductible only from chargeable gains accruing to the lessor on the disposal of the asset.
- (7) This section does not apply to a long funding finance lease (see section 148C).”
- (2) In Chapter 4 of Part 3 of CTA 2009 (trading income: rules restricting deductions), after section 60 insert—

“60A Rental rebates

“PART 21A U.K.

RISK TRANSFER SCHEMES

Introduction

Overview

937A This Part contains rules about the treatment of certain losses made by companies as a result of risk transfer schemes.

Group schemes and single company schemes

937B) A risk transfer scheme may be—

- (a) a group scheme, or
- (b) a risk transfer scheme other than a group scheme (a “single-company scheme”).

(2) A risk transfer scheme to which a company (“company A”) is a party is a “group scheme” if at least one company other than company A is at any time both—

- (a) associated with company A, and
- (b) a party to the scheme.

(3) In this Part “the relevant group” means—

- (a) company A, and
- (b) each company other than company A in relation to which the condition in subsection (2) is met.

(4) In its application in relation to single company schemes, this Part applies subject to the following modifications.

(5) The modifications are that—

- (a) references to the relevant group, a member of the relevant group, or the members of the relevant group, are treated as references to company A, and
- (b) sections 937E(2) and 937L(2) are treated as omitted.

Basic definitions

Meaning of “risk transfer scheme”

937C) A scheme to which a company (“company A”) is a party is a “risk transfer scheme” if conditions 1 to 3 are met.

(2) Condition 1 is that the purpose, or one of the main purposes, of any member of the relevant group on entering into the scheme is to obtain a financial advantage for the relevant group that it is reasonable to assume could not otherwise have been obtained without the relevant

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: There are currently no known outstanding effects for the Finance Act 2010. (See end of Document for details)

group becoming subject to (or incurring the cost of avoiding) a relevant risk.

- (3) In subsection (2) “a relevant risk” means a risk that the relevant group would make economic losses in one or more accounting periods of company A as a result of fluctuations in—
 - (a) the rate of exchange between any two currencies,
 - (b) the retail prices index (or any similar general index of prices) or any other index, or
 - (c) any price or other value.
- (4) Condition 2 is that, as a result of the scheme, and disregarding the effect of this Part, the relevant group—
 - (a) is not subject to the relevant risk, or
 - (b) is subject only to a negligible proportion of that risk.
- (5) Condition 3 is that, disregarding the effect of the provisions of the Corporation Tax Acts, condition 2 would not be met.
- (6) For the purposes of this section the relevant group obtains a “financial advantage” from a scheme if, taking into account the effect of the scheme on each member of the group, the scheme—
 - (a) increases the return on any investment,
 - (b) reduces the costs of any borrowing, or
 - (c) has an effect economically equivalent to that mentioned in paragraph (a) or (b).

Meaning of “the scheme rate, index or value”

937D In this Part “the scheme rate, index or value”, in relation to a risk transfer scheme, means the rate, index or value mentioned in section 937C(3)(a), (b) or (c) in relation to the relevant risk for the scheme.

Scheme losses and scheme profits

937E) A loss or profit made by a company in an accounting period is a “scheme loss” or “scheme profit” in relation to a risk transfer scheme to which the company is a party at any time in the period if the loss or profit—

- (a) is from a loan relationship, or derivative contract, that is part of the scheme,
- (b) would, apart from this Part, be brought into account in determining a debit or credit for the purposes of Part 5 of CTA 2009 (loan relationships) or Part 7 of that Act (derivative contracts), and
- (c) arises as a result of fluctuations in the scheme rate, index or value.

(2) References in this Part to a scheme loss or scheme profit made by a company in a period that is not an accounting period of that company are to the scheme loss or scheme profit that the company would have made in the period from the loan relationship or derivative contract in question if the period had been an accounting period of the company.

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: There are currently no known outstanding effects for the Finance Act 2010. (See end of Document for details)

- (3) References in this section to a loss or profit from a loan relationship or a derivative contract include—
- (a) a loss or profit from a related transaction, and
 - (b) a loss or profit of a capital nature.
- (4) In subsection (3)(a) “related transaction” has the meaning given by—
- (a) section 304 of CTA 2009 (in relation to a loan relationship), or
 - (b) section 596 of that Act (in relation to a derivative contract).

Ring-fenced scheme losses and relevant scheme profits

937(F) Subsection (2) applies if—

- (a) a company makes one or more scheme losses in an accounting period in relation to a risk transfer scheme, and
 - (b) disregarding any profits or losses made otherwise than as a result of the scheme, the relevant group makes a pre-tax economic loss in the period as a result of fluctuations in the scheme rate, index or value.
- (2) The relevant proportion of each scheme loss made by the company in the accounting period is a “ring-fenced scheme loss”.
- (3) For this purpose “the relevant proportion” means—

$$\frac{A - B - C}{A}$$

where—

A is the total of the scheme losses made in the period in relation to the scheme by the members of the relevant group,

B is the total of the scheme profits made in the period in relation to the scheme by the members of the relevant group, and

C is the pre-tax economic loss referred to in subsection (1)(b).

- (4) Subsection (5) applies if—
- (a) a company makes one or more scheme profits in an accounting period in relation to a risk transfer scheme, and
 - (b) disregarding any profits or losses made otherwise than as a result of the scheme, the relevant group makes a pre-tax economic profit in the period as a result of fluctuations in the scheme rate, index or value.
- (5) The relevant proportion of each scheme profit made by the company in the accounting period is a “relevant scheme profit”.
- (6) For this purpose “the relevant proportion” means—

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: There are currently no known outstanding effects for the Finance Act 2010. (See end of Document for details)

$$\frac{A - B - C}{A}$$

where—

A is the total of the scheme profits made in the period in relation to the scheme by the members of the relevant group,

B is the total of the scheme losses made in the period in relation to the scheme by the members of the relevant group, and

C is the pre-tax economic profit referred to in subsection (4)(b).

Treatment of ring-fenced scheme losses

Ring-fenced scheme loss: treatment in period in which made

937(1) This section applies for the purpose of determining the amount (if any) of a ring-fenced scheme loss that may be brought into account by a company in the accounting period in which it is made.

(2) If the amount of the company's profits pool for the scheme as at the beginning of the period is nil, the ring-fenced scheme loss may not be brought into account.

(3) If the amount of the company's profits pool for the scheme as at the beginning of the period is—

(a) greater than nil, and

(b) less than the total of the ring-fenced scheme losses made in the period in relation to the scheme by the company,

only the relevant proportion of the ring-fenced scheme loss may be brought into account.

(4) For this purpose “the relevant proportion” means—

$$\frac{A}{B}$$

where—

A is the amount of the company's profits pool as at the beginning of the period, and

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: There are currently no known outstanding effects for the Finance Act 2010. (See end of Document for details)

B is the total of the ring-fenced scheme losses made in the period in relation to the scheme by the company.

- (5) If the amount of the company's profits pool for the scheme as at the beginning of the period is equal to or greater than the total of the ring-fenced scheme losses made in the period in relation to the scheme by the company, the ring-fenced scheme loss may be brought into account in full.
- (6) A reference in this paragraph to bringing a ring-fenced scheme loss into account is to bringing it into account in determining a debit or credit for the purposes of Part 5 of CTA 2009 (loan relationships) or Part 7 of that Act (derivative contracts).

Ring-fenced scheme loss: treatment in subsequent periods

937H) This section applies where—

- (a) a company makes one or more scheme profits in an accounting period in relation to a risk transfer scheme,
 - (b) disregarding any profits or losses made otherwise than as a result of the scheme, the relevant group makes a pre-tax economic profit in the period as a result of fluctuations in the scheme rate, index or value, and
 - (c) the amount of the company's losses pool for the scheme as at the beginning of the period is greater than nil.
- (2) The company may bring into account, as if it were a loss made in the period from a loan relationship—

$$A \times B$$

where—

A is so much of the amount of the company's losses pool as at the beginning of the period as does not exceed the total of the relevant scheme profits made in the period in relation to the scheme by the company, and

B is the proportion of the total of the relevant scheme profits made in the period in relation to the scheme by the company that consists of profits made from its loan relationships.

- (3) The company may bring into account, as if it were a loss made in the period from a derivative contract—

$$A \times C$$

where—

A has the same meaning as in subsection (2), and

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: There are currently no known outstanding effects for the Finance Act 2010. (See end of Document for details)

C is the proportion of the total of the relevant scheme profits made in the period in relation to the scheme by the company that consists of profits made from its derivative contracts.

- (4) A reference in this section to bringing an amount into account is to bringing it into account in determining a debit or credit for the purposes of Part 5 of CTA 2009 (loan relationships) or Part 7 of that Act (derivative contracts).

A company's losses pool and profits pool

A company's losses pool and profits pool

- 937(1) The amount of a company's losses pool for a risk transfer scheme as at the beginning of an accounting period (“the current accounting period”) is—

$$A + B - C$$

where—

A is—

- (a) the amount of the pool as at the beginning of the previous accounting period, or
(b) if the risk transfer scheme began in the current accounting period, nil,

B is the total amount, if any, of ring-fenced scheme losses made in the previous accounting period in relation to the scheme by the company that, as a result of the application of section 937G(2) or (3), are not brought into account in that period, and

C is the total amount (if any) that, as a result of the application of section 937H(2) or (3), is brought into account in the previous accounting period in relation to the scheme by the company.

- (2) The amount of a company's profits pool for a risk transfer scheme as at the beginning of an accounting period (“the current accounting period”) is—

$$A + B - C$$

where—

A is—

- (a) the amount of the pool as at the beginning of the previous accounting period, or
(b) if the risk transfer scheme began in the current accounting period, nil,

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: There are currently no known outstanding effects for the Finance Act 2010. (See end of Document for details)

B is—

- (a) the total of any relevant scheme profits made in the previous accounting period in relation to the scheme by the company, less
- (b) the total amount (if any) that, as a result of the application of section 937H(2) or (3), is brought into account in that accounting period in relation to the scheme by the company, and

C is the total amount (if any) of ring-fenced scheme losses made in the previous accounting period in relation to the scheme by the company that, as a result of the application of section 937G(3) or (5), are brought into account in that period.

General

Tax capacity assumption

937J) This section applies for the purpose of determining whether condition 2 in section 937C is met.

- (2) Where a member of the relevant group (“the company”) makes a scheme loss in an accounting period, the economic profits and losses made by the relevant group in the period must be calculated on the assumption that the company obtained the full tax benefit of the loss.
- (3) The “full tax benefit” of the loss is the reduction in the corporation tax liability of the company that would result if—
 - (a) the loss were brought into account, and
 - (b) the company's profits chargeable to corporation tax, before doing so, were equal to the debit (or the reduction in any credit) determined by reference to the loss.
- (4) A reference in this section to bringing a loss into account is to bringing it into account in determining a debit or credit for the purposes of Part 5 of CTA 2009 (loan relationships) or Part 7 of that Act (derivative contracts).

Meaning of “associated with”

937K) For the purposes of this Part a company (“company B”) is associated with another company (“company A”) at a time (“the relevant time”) if any of the following five conditions is met.

- (2) The first condition is that the financial results of company A and company B, for a period that includes the relevant time, meet the consolidation condition.
- (3) The second condition is that there is a connection between company A and company B for the accounting period of company A in which the relevant time falls.
- (4) The third condition is that, at the relevant time, company A has a major interest in company B or company B has a major interest in company A.
- (5) The fourth condition is that—

 - (b) at the relevant time the third company has a major interest in company B.
- (6) The fifth condition is that—
- (a) there is a connection between company A and a third company for the accounting period of company A in which the relevant time falls, and
 - (b) at the relevant time the third company has a major interest in company B.
- (7) In this section the financial results of any two companies for any period meet “the consolidation condition” if—
- (a) they are required to be comprised in group accounts prepared under section 399 of the Companies Act 2006 (duty of certain parent companies to prepare group accounts), or
 - (b) they would be required to be comprised in such accounts but for the application of an exemption mentioned in subsection (3) of that section.
- (8) The following provisions apply for the purposes of this section—
- sections 466 to 471 of CTA 2009 (companies connected for accounting period), and
 - sections 473 and 474 of CTA 2009 (meaning of “major interest”).

Interpretation of references to economic losses and profits

- (2) For the purposes of this Part an economic loss or profit is made “by the relevant group” if it is made by the members of the relevant group considered together.
- (3) Where—
- (a) any member of the relevant group makes a scheme loss or profit in an accounting period, and
 - (b) that scheme loss or profit is, under generally accepted accounting practice, calculated by reference to fluctuations in the scheme rate, index or value over a longer period,
- the economic loss or profit made by the group in the accounting period as a result of those fluctuations is, so far as it relates to that scheme loss or profit, to be computed over that longer period.
- (4) In determining for the purposes of this Part the amount of an economic loss or profit made by the relevant group in any period, the economic losses and profits of each member of the relevant group—

Status: Point in time view as at 06/04/2010. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: There are currently no known outstanding effects for the Finance Act 2010. (See end of Document for details)

- (a) are (subject to subsection (3)) to be computed over that period (whether or not that period is an accounting period of the member), but
 - (b) are only to be taken into account to the extent that they are attributable to times at which the member is a party to the risk transfer scheme in question.
- (5) A reference in this Part to a “pre-tax” economic loss or profit is a reference to an economic loss or profit determined disregarding any loss or gain made as a result of the operation of any provision of the Corporation Tax Acts.

Foreign currency accounting

- 937M) In determining under this Part amounts that a company may or may not bring into account in an accounting period, economic losses and profits are to be computed in the tax calculation currency of that company in that accounting period.
- (2) Section 17(5) of CTA 2010 (meaning of references to the tax calculation currency of a company) applies for the purposes of this section.

- (2) The power conferred by subsection (1) may only be exercised in relation to losses and profits made by a company that carries on a banking business, an insurance business or a business consisting wholly or partly of dealing in securities.
- (3) In this section “securities” includes—
