#### PART 2

#### OTHER ENACTMENTS

#### *Income Tax (Trading and Other Income) Act 2005*

449 For section 148E substitute—

**“148E Long funding operating lease: lessor's additional expenditure**

- (1) This section applies if in any period of account—
  - (a) a person carrying on a trade is the lessor of any plant or machinery under a long funding operating lease,
  - (b) the person incurs capital expenditure in relation to the plant or machinery (the “additional expenditure”), and
  - (c) the additional expenditure is not reflected in the market value of the plant or machinery at the commencement time (see subsection (7)).
- (2) An additional deduction is allowed in calculating the profits of the person for income tax purposes for each period of account—
  - (a) which ends after the incurring of the additional expenditure, and
  - (b) in which the person is the lessor of the plant or machinery under the lease.
- (3) The amount of the deduction is so much of the expected reduction in value of the additional expenditure (“the expected reduction”) as is attributable to the period of account.
- (4) The expected reduction is the amount of the additional expenditure, less the remaining residual value of the plant or machinery resulting from that expenditure.
- (5) For how to determine that remaining residual value, see—
  - (a) section 148EA (determination of remaining residual value resulting from lessor's first additional expenditure), and
  - (b) section 148EB (determination of remaining residual value resulting from lessor's further additional expenditure).
- (6) The amount of the expected reduction attributable to the period of account is found by apportioning that reduction on a time basis according to the proportion of the term of the lease that falls in the period of account.
