
STATUTORY INSTRUMENTS

1963 No. 1710

The Weights and Measures Regulations 1963

PART VII

BEAM SCALES AND BALANCES

Principles of construction

74.—(1) Any attachment for adjusting beam scales or balances shall be permanently affixed to the instrument and shall be so constructed that it cannot be readily tampered with.

(2) All beam scales with wooden scale boards shall be provided with an adjusting balance ball or box.
