EXPLANATORY NOTE

(This Note is not part of the Rules.)

The Rate-product (County Boroughs) Rules 1959 provide for the method of ascertaining the product of a rate of one penny in the pound for any county borough for the purposes of general grants under the Local Government Act 1958 and rate-deficiency grants under section 2 of the Local Government Act 1948 (11 & 12 Geo.6.c. 26) and sections 5 to 7 of the Act of 1958. These rules make two changes in the rules of 1959 both of which are consequential on the Rating Act 1966.

Section 10(2) of the Act of 1966 provides that rebates granted under section 5 of the Act and grants towards those rebates payable under section 9, shall be treated respectively as loss on collection and gross rate income for the purpose of the Rules of 1959. These rules set out the method by which the grant is to be allocated to part of a rating area in cases where it is necessary to ascertain the gross rate income of that part.

The second change made by these rules in the Rules of 1959 is that discount allowed by the rating authority under section 4 of the Act of 1966 to persons entitled to pay rates by instalments who do not do so, is, like discount allowed generally under section 8 of the Rating and Valuation Act 1925 (15 & 16 Geo.5.c. 90), not to be treated as loss on collection of the rate.
