(2) The period or, as the case may be, the aggregate of the periods, other than periods of whole-time paid employment as a teacher, which may be taken into account under the three last foregoing regulations and paragraph (6) of Regulation 4 shall not, in the case of a teacher to the calculation of whose salary Part III of these regulations applies or in the case of a teacher (not being a principal or depute principal) to the calculation of whose salary Part IV of these regulations applies, exceed 8 years.

*Service reckoned under lapsed powers*

10. For the avoidance of doubt, where an education authority have calculated the length of service of a teacher under regulations which existed before the date upon which these regulations came into operation and where a reduction in the length of service of the teacher would result solely from the application of the provisions of these regulations, the education authority shall continue to calculate the length of service of the teacher as if these regulations had not come into operation.

*Service to be reckoned for days of employment on permanent and temporary staffs*

11. For the purposes of this Part of these regulations, each day of whole-time employment on the permanent staff shall reckon as one day of service and each day of whole-time employment on the temporary staff shall reckon as 1·825 days of service:

Provided that

- (i) in calculating the length of service of a teacher who has served on the temporary staff for the whole or part of a salary year, the teacher shall not be credited with more than a service year in respect of his employment in that salary year, and
- (ii) where, under the Regulations of 1945, the Regulations of 1948 or the Regulations of 1951, a day of whole-time employment has been reckoned as a day of whole-time employment on the permanent staff, it shall continue to be so reckoned notwithstanding the definition of "permanent staff" contained in Regulation 2(1)(j).

*Acceptance of record of service on change of employer*

12. Where a teacher who has been employed by an education authority enters the employment of another education authority, that authority may for the purposes of these regulations accept as accurate the record of the service of the teacher which was last accepted as accurate by the education authority who last employed him; and, on being requested to do so by the teacher, the education authority whose employment the teacher has entered shall furnish him with a copy of the record of service.

*Re-assessment of length of service*

13.—(1) It shall be in the power of the education authority at any time for the purposes of these regulations to re-assess the length of service of a teacher if they consider that it has been wrongly assessed, and they shall, with all convenient speed, re-assess it at the request of the teacher.

(2) Where a teacher to the calculation of whose salary Part IV of these regulations applies becomes employed as a head of department, senior assistant teacher or assistant teacher, whether at the desire of the education

authority or on his own application, his service on first becoming so employed shall be taken to be of the same length as his service at the termination of his last employment:

Provided that if, having regard to the different methods prescribed in this Part of these regulations for calculating the length of service of a teacher to the calculation of whose salary Part III of these regulations applies and for calculating the length of service of the teacher (not being a principal or a depute principal) to the calculation of whose salary Part IV of these regulations applies, the education authority are, or the teacher is, of opinion that the period or the aggregate of the periods, other than periods of teaching employment, which have been taken into account as service under Regulation 6, Regulation 7, Regulation 8 or Regulation 10, should, within the limits prescribed by the said regulations, be increased, the education authority shall, with all convenient speed, re-assess the length of the said period or of the aggregate of the said periods, and if, as a result of the re-assessment, the length of the said period or of the aggregate of the said periods is increased, the said period or the said aggregate, as re-assessed, shall be taken into account accordingly.

(3) If agreement cannot be reached under either of the two last foregoing paragraphs as to the length of the teacher's service, the education authority or the teacher may apply to the Secretary of State for a direction as to the length of service to be taken into account, and it shall be in the power of the Secretary of State to give such direction as he thinks fit:

Provided that an application may not be made only on the ground that the education authority have failed to exercise a discretion vested in them by these regulations or by the Regulations of 1945 to 1964 or that the said discretion has not been exercised to the extent desired by the teacher.

(4) Where the length of service of a teacher or the length of a period or of an aggregate of periods is re-assessed under this regulation, the re-assessment shall be operative with effect from the beginning of the month next following the month in which the teacher requested the education authority to make the re-assessment, or, if the teacher made no such request, from the beginning of the month next following the month in which the education authority intimated to the teacher the result of the re-assessment.

### *Teachers to whose salaries Part III applies*

15. This Part of these regulations and the relative schedules shall apply to the calculation of the salaries of all certificated teachers employed whole-time by an education authority throughout or at any time during the period beginning on 1st April 1966, and terminating on 31st March 1968, both days inclusive, and of the uncertificated teachers of technical subjects specified in paragraph 9 of Part I of Schedule 1 :

Provided that the said certificated and uncertificated teachers were, in the opinion of the authority, so employed wholly or mainly in the provision of, or in connection with, primary and secondary education or either of them, but the said Part shall not apply to the salaries of teachers employed in approved schools within the meaning of the Children and Young Persons (Scotland) Act 1937.

### *Assessment of basic element of salary*

16.—(1) The annual rate of the basic element to be included in the salary of a teacher in any salary year shall be calculated by reference to the length of the service of the teacher on the first day of that salary year and to a basic scale set forth in Part II of Schedule 1 as augmented by any increase to which the teacher is entitled under Regulation 17 or Part V of these regulations :

Provided that where after the said calculation has been made—

- (i) a basic scale falls to be substituted for the basic scale by reference to which the calculation was made because of the grant of a certificate to the said teacher, or because of an improvement in his qualifications, or because of a change in the nature of his employment in the case of a teacher with a qualification described in paragraphs 1, 2 or 3 of Part I of Schedule 1, or
- (ii) the said teacher becomes entitled to any such increase or to a further or additional increase, or
- (iii) the amount of the increase to which he is entitled is reduced or his entitlement to an increase ceases—

the annual rate of the basic element to be included in his salary shall be recalculated in accordance with the foregoing provisions of this paragraph, and where the rate is increased the revised rate shall come into operation with effect from the date upon which his certificate was granted or his qualifications were improved or a change took place in the nature of his employment or he became entitled to an increase or further or additional increase, as the case may be, so, however, that if in any of the said circumstances he did not make application for a re-assessment within 12 months of the said date the revised rate shall, unless the Secretary of State on the application of the education authority or the teacher and in exceptional circumstances otherwise directs, come into operation with effect from the date upon which he applied for a re-assessment, and, where the rate is reduced, the reduced rate shall come into operation with effect from the date upon which the amount of his increase fell to be reduced or he ceased to be entitled to the increase.

(2) Where the teacher holds a qualification described in any paragraph of Part I of the said schedule the basic scale to which the said paragraph relates shall be the basic scale by reference to which the basic element to be included in the salary of the teacher is calculated:

Provided that—

- (i) where a teacher holds more than one qualification and his qualifications are not all described in one paragraph of the said Part, the basic element of his salary shall be calculated by reference to the basic scale to which one only of the said paragraphs relates as may be selected by the teacher;
- (ii) where a teacher holds a qualification or combination of qualifications which is not described in the said Part, or where the conditions of award of a qualification described in the said Part have become more exacting and the qualification is awarded to a teacher who has fulfilled the more exacting conditions, it shall be in the power of the Secretary of State to approve the qualification or combination as equivalent in standard to the qualifications described in a paragraph or part of a paragraph of the said Part, and, if it is so approved, the said qualification or combination shall, for the purposes of these regulations, be deemed to be a qualification or combination described in that paragraph or part of a paragraph; and
- (iii) where a teacher is, or is to be, employed as an organiser or assistant organiser or supervisor of a technical subject in the whole or part of an education area and the education authority are, or the teacher, if a teacher occupies the post, is, of opinion that the basic scale by reference to which the basic element to be included in the salary of the teacher under the foregoing provisions of this paragraph is inappropriate, they

or he may submit to the Secretary of State an application for a direction as to the basic scale by reference to which the basic element in the salary of the teacher shall be calculated, and it shall be in the power of the Secretary of State to give such direction as he thinks fit.

(3) In determining by reference to the basic scale found to be applicable under the last foregoing paragraph the rate of the basic element to be included in the salary of a teacher in any salary year—

(a) where the teacher begins any service year on the first day of a salary year, the rate shall be that prescribed by the said scale for that service year; and

(b) where the teacher has completed part of any service year on the last day of the immediately preceding salary year, the rate shall be that prescribed by the said scale for that service year augmented by a fraction of the increment, if any, prescribed for the next following service year, the numerator of the said fraction being the number of months in the said part and the denominator being 12. In this sub-paragraph the word "month" shall be construed as meaning 30 days, and in the calculation of the number of months a remainder of 15 days or more shall be reckoned as a month and a remainder of less than 15 days shall be disregarded.

(4) Where the annual rate of the basic element calculated in accordance with the foregoing provisions of this regulation exceeds a multiple of £1 by a sum of less than 10s. it shall be reduced to the said multiple, and where it exceeds a multiple of £1 by 10s. or a greater sum of less than £1 the said rate shall be increased to the next multiple of £1.

#### *Increase of basic scales in particular cases*

17.—(1) Where a teacher who is not employed wholly or mainly in a primary school, or in a special school in the instruction of pupils under the age of 12 years, or otherwise wholly or mainly in the provision of primary education holds or under the Training Regulations is deemed to hold a Teacher's Certificate (Secondary Education) in English, a language other than English, history, geography, economics, mathematics or a science subject and is not entitled to have the basic element of his salary calculated by reference to Scale 1, or Scale 2 or Scale 3 of Part II of Schedule 1 the basic scale by reference to which his salary is calculated shall be increased throughout by £100:

Provided that this paragraph shall not apply in the case of a teacher who holds a Teacher's Certificate (Secondary Education) solely because the Secretary of State has given effect to an application made by the teacher under the proviso to Regulation 12(3) of the Training Regulations.

(2) Where a teacher who is not employed wholly or mainly in a primary school or otherwise wholly or mainly in the provision of primary education is entitled to have the basic element of his salary calculated by reference to Scale 3 or is entitled to have the basic scale by reference to which his salary is calculated increased under paragraph (1) of this regulation and has successfully completed 3 approved successive courses at a university or other institution the basic scale by reference to which his salary is calculated shall be increased throughout by £55.

(3) Not more than one increase in the basic scale of the teacher shall be in operation under each of the foregoing paragraphs of this regulation at any one time.

(4) Where a teacher is employed whole-time in a special school or in special classes and his employment consists wholly or mainly in teaching the category of pupils to which his certificate or qualification relates, his basic scale shall be increased throughout—

(b) by £120 if he holds or under the Training Regulations is deemed to hold a qualification referred to in Regulation 5(1)(c) of the Training Regulations, or any other qualification approved for the purpose of this sub-paragraph.

(5) Where a teacher is employed whole-time in a special school or in special classes and he does not hold a qualification in respect of which his basic scale may be increased under the last foregoing paragraph, his basic scale shall be increased throughout by £55.

(6) Where a teacher is employed whole-time under an arrangement made by the education authority under section 14 of the Act of 1946 or of the Act of 1962 in the education of pupils who are patients in a hospital his basic scale shall be increased throughout—

(a) by £120 if he holds a qualification to teach handicapped children approved under this sub-paragraph for the post, or

(7) Where a teacher is employed in a primary school whole-time in charge of a class for backward pupils or a class for retarded pupils, his basic scale shall be increased throughout by £55.

(8) Where a teacher to whom the last foregoing paragraph does not apply is appointed and employed wholly or mainly to teach backward pupils in a secondary school, his basic scale shall be increased throughout by £55 or, if he holds an endorsement of special qualification to act as teacher of backward pupils in secondary departments, his basic scale shall be increased throughout by £120.

#### *Assessment of responsibility element of salary*

18.—(1) Subject to the provisions of paragraph (3) of this regulation, where a teacher has been appointed to and is employed in a post of special responsibility described opposite to any serial number of Part I of Schedule 2 in column (2) of the said Part, there shall be included in his salary, in addition to the basic element, a responsibility element, being the sum, or sums in accordance with the scales prescribed in the entry in column (3) of the said Part opposite to the said serial number or in Part II of the said schedule, as the case may be:

Provided that—

(i) where the responsibility element so calculated exceeds a multiple of £5 by a sum of less than £2 10s. it shall be reduced to the said multiple, and where it exceeds a multiple of £5 by £2 10s. or a greater sum of less than £5 the said responsibility element shall be increased to the next multiple of £5 ;

- (ii) where the responsibility element to be included in the salary of a teacher is calculated by reference to the responsibility element in the salary of another teacher and a direction issued by the Secretary of State in relation to the responsibility element in the salary of the said other teacher under paragraph (1) of Regulation 37 in any of the circumstances set forth in heads (ii) to (v) both inclusive or in head (x) of the said paragraph is in force, the responsibility element in the salary of the said other teacher shall, for the purpose of calculating the responsibility element in the salary of the teacher, be deemed to be the responsibility element which would have been included in the salary of the said other teacher but for the said direction ;
- (iii) where the teacher is employed in more than one of the posts or combined posts (hereinafter referred to as "posts") included in Group A of the said Part I, a responsibility element shall be included in respect of only one of the said posts as selected by the teacher ;
- (iv) where the teacher is employed in one or more of the posts included in Group B of the said Part, the responsibility element to be included in his salary in respect of each such post shall be in addition to any responsibility element to be included in respect of a post included in Group A or Group C ;
- (v) where the teacher is employed part-time in a post included in Group C of the said Part, the responsibility element to be included in his salary in respect of that post shall be reduced ; and if the said teacher is also employed part-time in a post included in Group A of the said Part, the responsibility element in respect of that post shall also be reduced ; and the amount of each reduced responsibility element under this proviso shall be the sum which bears the same relation to the amount of the responsibility element prescribed in the said schedule for the post as the part-time employment bears to whole-time employment ; and
- (vi) where the teacher is employed in a post included in Group D of the said Part, no responsibility element shall be included in his salary in respect of any other post to which Schedule 2 applies.

(2) Where a teacher has been appointed to a post of special responsibility the duties of which are substantially the same as those of a post named or described in column (2) of Part I of Schedule 2, the foregoing provisions of this regulation shall apply as they would have applied if the post had been so named or described notwithstanding that it may be differently named or described. If agreement cannot be reached as to whether the duties of a post are substantially the same as those of a post named or described in the said column, the education authority or the teacher may apply to the Secretary of State for a direction, and it shall be in the power of the Secretary of State to give such direction as he thinks fit.

(3) Where—

- (a) a teacher has been appointed to and is employed in a primary school in a post of special responsibility described opposite to serial number 1, serial number 13, or serial number 14 of Part I of Schedule 2 in column (2) of the said Part, and
- (b) the average number of pupils in attendance in the school in which he is employed as calculated in accordance with paragraph (6) of this regulation is a number in grade (e) or grade (f) of Scale 10 of the said schedule—

it shall be in the power of the education authority to include in the salary of that teacher if he is employed in a post of special responsibility in a

school to which the said grade (e) applies the responsibility element shown in column (4) opposite to grade (f), and to include in the salary of that teacher if he is employed in a post of special responsibility in a school to which the said grade (f) applies the responsibility element shown in column (4) opposite to grade (e):

Provided that the number of responsibility elements of the amount shown opposite to grade (e) included in the salaries of teachers in posts described opposite to serial numbers 1, 13 and 14, respectively, of Part I of the said schedule shall not exceed the number which, but for the exercise of the power given by this paragraph, would have been included in the said salaries under paragraph (1) of this regulation, and the number of responsibility elements of the amount shown opposite to grade (f) included in the salaries of teachers in posts described opposite to the said serial numbers respectively shall not exceed the number which would have been included in the said salaries under the said paragraph (1).

(4) Where a teacher continues to perform the duties in respect of which he received a responsibility element under serial number 12 or serial number 13 of Part I of Schedule 2 to the Regulations of 1948, the education authority shall include in his salary the responsibility element provided for under serial number 17 or serial number 18 respectively of Part I of Schedule 2 to these regulations.

(5) Where a teacher continues to perform the duties in respect of which he received a responsibility element under serial number 14 of Part I of Schedule 2 to the Regulations of 1948, the education authority shall include in his salary the responsibility element provided for under serial number 19 or serial number 20 as the case may be of Part I of Schedule 2 to these regulations.

(6) (a) Subject to the provisions of sub-paragraph (b) of this paragraph, for the purpose of column (3) of Part II of Schedule 2 to these regulations—

(i) the expression "number of pupils in attendance" in relation to a week means the number of pupils whose names are shown by the Register of Summaries kept at the school in accordance with Schedule 1 to the Code to have been on the Daily Registers on the last day on which a meeting was held in that week, and

(ii) the average number of pupils in attendance during any period shall be calculated by adding the number of pupils in attendance on the last day of each week in which a meeting of the school is held during the period and dividing by the number of such weeks during the said period, and

(iii) the average number referred to in the heading of the said column shall be taken to be one-third of the sum of the average numbers of pupils in attendance during the school years beginning in 1962, 1963 and 1964.

(b) Where—

(i) a school is opened or was opened after 1st August 1962, or

(ii) a change in the organisation of education in an area is made on or after 1st August 1962, or

(iii) after 31st March 1965, a movement of population, or any other cause has brought or brings the average number of pupils in attendance, calculated in accordance with head (ii) of sub-paragraph (a) of this paragraph—

(aa) for a period during which meetings of the school were held in 4, but not more than 4 weeks, and

(bb) for a period of 52 consecutive weeks from and including the period referred to in sub-head (aa) of this head—

into one or more higher or one or more lower grades in a relevant scale in the said Part II than the average number of pupils in attendance during the period comprising the school years beginning in 1962, 1963 and 1964, calculated in accordance with head (iii) of sub-paragraph (a) of this paragraph, or

(iv) the responsibility element to be calculated is that to be included under serial number 27 of Part I of Schedule 2 in the salary of a teacher in charge of the education of pupils who are patients in a hospital—

the number of pupils in attendance to be taken as the average number for the purposes of column (3) of Part II of Schedule 2 shall be such number, instead of the average number calculated in accordance with the provisions of sub-paragraph (a) of this paragraph, as may be agreed between the education authority and the teacher concerned, or the method by which the average number for the purposes of the said column (3) is calculated shall be such alternative method as may be so agreed :

Provided that—

(i) any such number or alternative method as is agreed relating to the circumstances set out in head (iii) of this sub-paragraph shall apply with effect from the commencement of the period referred to in sub-head (aa) of the said head, or from 1st April 1966, whichever is the later, or in exceptional circumstances from such other date not earlier than 1st April 1966 as may be so agreed ;

(ii) if agreement cannot be reached between the education authority and the teacher concerned as to the number of pupils in attendance to be taken as the average number for the purposes of column (3) of Part II of Schedule 2 or as to the alternative method by which the average number for the purposes of the said column (3) shall be calculated or as to the date with effect from which any agreement as to average number or alternative method shall come into force it shall be in the power of the Secretary of State, on the application of the education authority or of the teacher concerned, to issue such direction as he thinks fit.

(c) In calculations under the last two foregoing sub-paragraphs a fraction of less than a half shall be disregarded and a fraction of a half or more shall be treated as one unit.

#### *Teachers employed temporarily in posts of special responsibility*

19.—(1) Where a teacher is employed to perform in a school the duties of a post of special responsibility in place of a teacher who is temporarily absent from the post or pending a permanent appointment to the post—

(a) if the teacher was not already in the employment of the education authority, or was employed by the authority elsewhere than in the school, the authority shall include in his salary a responsibility element at the same annual rate as that of the responsibility element included, or which would have been included under these regulations had the employment been after 31st March 1966, in the salary paid to the absent teacher or in the salary of the teacher who last held the post ; and

(b) if the teacher was employed by the authority in the school, he shall not be entitled to have a responsibility element at the rate prescribed in the last foregoing sub-paragraph included in his salary until he has been employed in the post of special responsibility for 20 school

days, whether consecutive or not; and on the completion of the said 20 school days the said responsibility element in respect of his employment in the said post for the said 20 days shall vest in him, and thereafter the said responsibility element shall vest in him in respect of each day in which he is employed in the said post:

Provided that—

- (i) where, in a case to which sub-paragraph (b) applies, a period of 6 months has elapsed since the teacher was last employed in the said post, he shall again have to be employed in the said post for 20 school days before he becomes entitled to have the said responsibility element included in his salary;
- (ii) where, in a case to which either sub-paragraph (a) or sub-paragraph (b) applies, a responsibility element is already included in the salary of the teacher in respect of other special responsibilities, that responsibility element and the responsibility element for which this paragraph provides shall be subject to such of the provisos to paragraph (1) of the last foregoing regulation as may be applicable; and
- (iii) where, in a case to which either sub-paragraph (a) or sub-paragraph (b) applies, a direction given under paragraph (1) of Regulation 37 of these regulations or of the Regulations of 1963 or 1964 in any of the circumstances set forth in heads (i) to (v), both inclusive, or in head (x) of the said paragraphs was in operation in relation to the salary of the absent teacher immediately before he became absent or of the teacher who last held the post immediately before he ceased to hold the post, the responsibility element to be included in the salary of the teacher employed to perform temporarily the duties of the absent teacher or of the teacher who last held the post shall be at the annual rate at which it would have been if the said direction had not then been in force.

(2) In this regulation the expression "school day" means a day upon which a meeting is held of the school in which the teacher is employed, or a meeting is held of any of the schools to which his special responsibilities under this paragraph extend, and "meeting" has the meaning attributed to it by Regulation 1(1)(i) of the Code.

(3) This regulation shall with any necessary modifications apply where a teacher is employed to be in charge of the education of pupils who are patients in a hospital in place of a teacher who is temporarily absent from the post or pending a permanent appointment to the post.

22.—(1) The education authority shall classify the teachers to whom this Part of these regulations applies into groups according to their qualifications. They shall classify each teacher who holds a qualification described in Part IA of Schedule 3 as a teacher in Group IA. They shall classify each teacher who holds a qualification described in Part IB of the said schedule but does not hold a qualification described in Part IA thereof as a teacher in Group IB. They shall classify each teacher who holds a qualification described in Part II of the said schedule but does not hold a qualification described in Part IA or Part IB thereof as a teacher in Group II. They shall classify all other teachers as teachers in Group III. Where a teacher who has been classified into a group possesses or obtains a qualification described in Schedule 3 which entitles him to be classified into a higher group, he may apply to the education authority for reclassification and the education authority shall reclassify him accordingly.

(2) The provisions of the last foregoing paragraph, other than the last sentence thereof, shall not be construed as requiring the education authority to reclassify a teacher who was classified or deemed to have been classified under Regulation 22 of the Regulations of 1956 or of 1959 or of 1963 or of 1964, and a teacher who was classified or deemed to have been classified under the said Regulations in a group shall be deemed to have been classified in the same group under the last foregoing paragraph.

*Classification of posts by level of work*

23.—(1) The education authority shall classify the posts of heads of departments, senior assistant teachers and assistant teachers to whom this Part of these regulations applies into 3 grades according to the level of the work performed or to be performed by the occupants of the respective posts. Where, in their opinion—

- (a) in the case of a post of assistant teacher, an essential part of the teaching work of the post, or
- (b) in the case of a post of head of department or senior assistant teacher, an essential part of his teaching work or of other teaching work for the supervision of which he has special responsibility—

is, or is likely to be, in one of the categories described in Part I of Schedule 4, they shall classify the post as a post in Grade I. Where, in their opinion, any such essential part is, or is likely to be, in one of the categories described in Part II of the said schedule, but no such essential part is, or is likely to be, in one of the categories described in Part I thereof, they shall classify the post as a post in Grade II. All other posts shall be classified as posts in Grade III :

Provided that—

- (i) subject to the provisions of proviso (iii) to this regulation, where the education authority are of opinion that the level of the essential part of the work which determined the classification of a post has altered, or where the classification of a post falls to be determined by the essentiality of a new or of a different part of the work of the post, they shall intimate to the teacher occupying the post the grade into which they propose to reclassify it, and, if the teacher is dissatisfied with the proposed classification and the education authority do not abandon their proposal, the teacher may apply to the Secretary of State for a direction as to the grade in which the post shall be classified, and it shall be in the power of the Secretary of State to give such direction as he thinks fit ;
- (ii) subject to the provisions of proviso (iii) to this regulation, where the occupant of a post becomes dissatisfied with the classification of the post on the ground either that the essential part of the work which determined the classification of the post is such that the post should be classified in a higher grade than that in which it is classified, or that the classification of the post should be determined by the essentiality of a new or of a different part of the work of the post, he may so represent to the education authority, and, if the education authority do not reclassify the post, he may apply to the Secretary of State for a direction as to the grade in which the post shall be classified and it shall be in the power of the Secretary of State to give such direction as he thinks fit ;
- (iii) a post shall not be reclassified until after the expiry of one year from the date with effect from which it was last classified or reclassified ; and
- (iv) in deciding whether a particular part of the work of a post is an essential part of that work for the purpose of determining the classification of the post, the education authority or the Secretary of State, as the case may be, shall have regard to whether—
  - (a) one or more of the courses provided in the further education centre would be below standard if that part of the work were not included in the work of these courses, and

(b) that part was included in the work of the post primarily in order to enable the teacher occupying the post to gain experience of performing work at a more advanced level than the remainder of the work of the post, and

(c) a teacher in a higher group or occupying a post in a higher grade is available in the centre to perform that part.

(2) The provisions of the last foregoing paragraph shall not be construed as requiring the education authority to reclassify a post which was classified or deemed to have been classified under Regulation 23 of the Regulations of 1963 or of 1964, and a post which was classified or deemed to have been classified in a grade under the said Regulation shall be deemed to have been classified in the same grade under the last foregoing paragraph.

*Assessment of volume and level of work in further education centres*

24. The education authority shall make an assessment of the volume and level of work of each further education centre under their management in which teachers are employed whole-time and the said assessment shall be expressed by means of an index figure calculated in accordance with the provisions of Schedule 5. The said assessment shall relate to the year beginning on 1st August 1964 and ending on 31st July 1965, (hereinafter referred to as "the standard year"):

Provided that where after 1st August 1964—

(i) a further education centre is or was opened, or

(ii) the whole-time employment of teachers in a centre is or was begun, or

(iii) new courses are or were instituted or discontinued in a centre, or courses are or were transferred to or from a centre—

it shall be in the power of the Secretary of State, on the application of the education authority or of a teacher, to give a direction prescribing the index figure for the centre and the date with effect from which the index figure so prescribed shall be used in the calculation of the salaries of the occupants of posts of special responsibility in the centre.

*Salaries of principals and depute principals*

25.—(1) The annual rate of the salary of a principal or of a depute principal (in this regulation referred to as "the teacher concerned") in any salary year shall be calculated by reference to the length on the first day of that salary year of his service in the post in relation to which the said calculation is being made, to the relevant index figure for the centre and to a scale set forth in Part II of Schedule 6 as augmented by any increase to which he is entitled under paragraph (6) or (7) or (9) of this regulation or Part V of these regulations.

(2) Where the relevant index figure is within the range of index figures given in column (4) opposite to any serial number of Part I of Schedule 6, the salary of the teacher concerned shall be calculated by reference to the salary scale in Part II of the said schedule specified opposite to the said serial number—

(a) in the case of a principal, in column (2), or

(b) in the case of a depute principal, in column (3).

(3) In determining by reference to the scale found to be applicable under the last foregoing paragraph the rate of salary of the teacher concerned in any salary year—

(a) where any year of service of the teacher concerned in his post begins on the first day of a salary year the rate shall be that prescribed by the said scale for that year of service in a post, and

(b) where the teacher concerned has completed part of any year of service in his post on the last day of the immediately preceding salary year, the rate shall be that prescribed by the said scale for that year of service in a post augmented by a fraction of the increment, if any, prescribed for the next following year of service in a post, the numerator of the said fraction being the number of months in the said part and the denominator being 12. In this sub-paragraph the word "month" shall be construed as meaning 30 days, and in the calculation of the number of months a remainder of 15 days or more shall be reckoned as a month and a remainder of less than 15 days shall be disregarded, and

(c) where the rate exceeds a multiple of £1 by less than 10s. it shall be reduced to the said multiple, and where it exceeds a multiple of £1 by 10s. or a greater sum of less than £1 the said rate shall be increased to the next multiple of £1.

(4) Where under paragraph (2) of this regulation the salary of a depute principal may be calculated by reference to one or other of two scales, the education authority in selecting the scale to be used shall have regard to the way in which the work of the centre is organised, to the extent to which the depute principal is required to undertake teaching duties or special responsibilities other than those of a depute principal and generally to the whole circumstances of the centre.

(5) The date, whether before or after the date upon which these regulations came into operation, which was fixed by the education authority as the date upon which the teacher concerned should assume the duties of his post shall, for the purposes of this regulation, be taken to be the date upon which the service in the post of the teacher concerned began.

(6) Where the teacher concerned is classified in Group IA or Group IB or where, in the opinion of the education authority, an essential part of the work of the further education centre in which he is employed is, or is likely to be, in one of the categories described in Part I of Schedule 4, the scale by reference to which his salary is calculated shall be increased throughout by £300 but shall not be increased under the next following paragraph.

(7) Where the teacher concerned is classified in Group II or where, in the opinion of the education authority, an essential part of the work of the further education centre in which he is employed is, or is likely to be, in one of the categories described in Part II of Schedule 4, the scale by reference to which his salary is calculated shall be increased throughout by £80.

(8) Where the teacher concerned is dissatisfied with the opinion of the education authority under paragraph (6) or (7) of this regulation, he may apply to the Secretary of State for a direction as to the category described in Schedule 4 in which an essential part of the work of the centre is to be regarded as being, or is likely to be, and it shall be in the power of the Secretary of State to give such direction as he thinks fit. If the direction is that an essential part of the work is to be regarded as being, or is likely to be, in a category described in Part I or Part II of the said schedule, the scale by reference to which the salary of the teacher concerned is calculated shall be increased under the said paragraph (6) or (7) as the case may be.

(9) Where a teacher or other person is appointed principal or depute principal and the annual rate of his salary on the day fixed by the education authority as the day upon which he should assume his new duties is less than, or exceeds by less than £90, the annual rate of his salary on the

last day of his employment in his previous post, his salary shall be augmented by the smaller of the following increases, that is to say—

- (a) by the amount by which the annual rate of his salary on the last day of his employment in his previous post, increased by £90 exceeds the annual rate of the salary which would otherwise be payable under this regulation on the day fixed by the education authority as the day upon which he should assume his new duties, or
- (b) by such sum as will bring the annual rate of his salary, excluding the increase prescribed in this paragraph, to its maximum.

(10) In the last foregoing paragraph references to annual salary rate mean that rate excluding any increase payable under Part V of these regulations.

(11) The two last foregoing paragraphs shall, with the necessary modifications, apply to a teacher or other person appointed principal or depute principal after 31st March 1963, but before 1st April 1966, as they apply to a teacher or other person so appointed after 31st March 1966.

*Salaries of heads of departments, senior assistant teachers and assistant teachers*

26.—(1) The annual rate of the salary of a head of department, a senior assistant teacher or an assistant teacher (in this regulation referred to as "the teacher concerned") in any salary year shall be calculated by reference to the length of his service on the first day of the salary year, to his group or to the grade of his post, and to a scale set forth in Part II of Schedule 7, as augmented by any increase to which he is entitled under paragraph (5) or (6) of this Regulation or under Part V of these regulations:

Provided that the annual rate shall be recalculated in accordance with the foregoing provisions of this paragraph—

- (i) where the teacher concerned is reclassified in a higher group, with effect from the date upon which he obtained the qualification which entitled him to reclassification, but if he did not make application for reclassification within 6 months of the said date, the reclassification shall, unless the Secretary of State on the application of the education authority or of the teacher and in exceptional circumstances otherwise directs, have effect from the date upon which he applied for reclassification;
- (ii) where the post is reclassified in a higher or a lower grade, with effect from such date as may be fixed by the education authority, or as the Secretary of State may direct on the application of the teacher concerned;
- (iii) where the teacher concerned becomes entitled to any such increase or to a further or additional increase, with effect from the date upon which he became entitled to the increase or further or additional increase; and
- (iv) where the amount of the increase to which he is entitled is reduced or his entitlement to an increase ceases, with effect from the date upon which his entitlement was reduced or ceased.

(2) Subject to the provisions of paragraph (5) of this regulation, where the teacher concerned falls within the description set forth in column (3) opposite to a serial number in Part I of Schedule 7, the salary of the said teacher shall be calculated by reference to the scale in Part II of the said schedule specified opposite to the said serial number in column (2).

(3) In determining by reference to the scale found to be applicable under the last foregoing paragraph the rate of the salary of the teacher concerned in any salary year—

- (a) where the teacher concerned begins any service year on the first day of a salary year the rate shall be that prescribed by the said scale for that service year, and
- (b) where the teacher concerned has completed part of any service year on the last day of the immediately preceding salary year, the rate shall be that prescribed by the said scale for that service year augmented by a fraction of the increment, if any, prescribed for the next following service year, the numerator of the said fraction being the number of months in the said part and the denominator being 12. In this sub-paragraph the word "month" shall be construed as meaning 30 days, and in the calculation of the number of months a remainder of 15 days or more shall be reckoned as a month and a remainder of less than 15 days shall be disregarded, and
- (c) where the rate exceeds a multiple of £1 by less than 10s. it shall be reduced to the said multiple, and where it exceeds a multiple of £1 by 10s. or a greater sum of less than £1 the said rate shall be increased to the next multiple of £1.

(4) Where the salary of the teacher concerned is calculated by reference to Scale 35 and the teacher does not hold one of the qualifications described in Part III of Schedule 3 he shall on completing his tenth service year, notwithstanding that he continues in teaching employment and notwithstanding anything in Part II of these regulations, be deemed to remain in his tenth service year for the purpose of the calculation of his salary :

Provided that if he subsequently obtains one of the said qualifications his eleventh service year shall be deemed to begin on the date upon which he obtains the said qualification and his service after the said date shall be taken into account accordingly in the calculation of his salary.

(5) Where the teacher concerned is a certificated teacher or has satisfactorily completed a course of teacher-training approved for the purpose of this regulation, the scale by reference to which his salary is calculated shall be increased throughout by the sum of £80.

(6) Where the teacher concerned is a head of department or a senior assistant teacher and the relevant index figure is within the range of index figures given opposite to any serial number of Schedule 8 the scale by reference to which his salary is calculated shall be increased throughout, in the case of a head of department, by a sum being a sum not less than that shown opposite to the said serial number in column (2) of the said schedule and not more than that so shown in column (3) thereof, and, in the case of a senior assistant teacher, by a sum being a sum not less than that so shown in column (4) and not more than that so shown in column (5) thereof.

#### *Teachers employed temporarily in posts of special responsibility*

27.—(1) Where a teacher is employed to perform in a further education centre the duties of a post of special responsibility in place of a teacher who is temporarily absent from the post or pending a permanent appointment to the post,—

- (a) if the teacher was not already in the employment of the education authority, or was employed by the authority elsewhere than in the further education centre, the authority shall pay him in respect of his

employment in the said post a salary assessed in accordance with the foregoing provisions of these regulations ; and

- (b) if the teacher was employed by the education authority in the further education centre, he shall not be entitled to the said salary until he has been employed in the post of special responsibility for 20 days, whether consecutive or not, during each of which a teacher-meeting was held in relation to which the teacher had special responsibility ; and on completion of the said 20 days the said salary in respect of his employment in the said post for the said 20 days shall vest in him, and thereafter it shall vest in him in respect of each day in which he is employed in the said post :

Provided that—

- (i) where, in a case to which sub-paragraph (b) applies, a period of 6 months has elapsed since the teacher was last employed in the said post, he shall again have to be employed in the said post for 20 such days before he becomes entitled to the said salary ; and
- (ii) where, in a case to which either sub-paragraph (a) or (b) applies, a direction given under paragraph (1) of Regulation 37 of these regulations or of the Regulations of 1963 or 1964 in any of the circumstances set forth in heads (vi) to (x), both inclusive, of the said paragraphs, was in operation in relation to the salary of the absent teacher immediately before he became absent or of the teacher who last held the post immediately before he ceased to hold the post, the salary of the teacher employed to perform temporarily the duties of the absent teacher or of the teacher who last held the post shall be at the annual rate at which it would have been if the said direction had not then been in operation.

(2) No salary other than that provided for in this regulation shall be payable by the education authority to the teacher in respect of the period for which he is employed in the said post of special responsibility.

- (a) where the recognised customary route from the school or further education centre to the recognised centre of population conforms to one only of the descriptions set forth in sub-paragraph (d) of paragraph (4) of this regulation, by £60 ; or
- (b) where the said recognised customary route conforms to any of the descriptions set forth in head (i) of the said sub-paragraph and to either of the descriptions set forth in head (ii) of the said sub-paragraph, by £115.

(2) Where, because of exceptional financial disadvantages arising out of the isolated situation of a school or a further education centre, the education authority are, or the teacher is, of opinion—

- (a) that, where the school is a remote school or the centre is a remote further education centre, the increase provided for in the last foregoing paragraph is insufficient, or
- (b) that, although the school is not a remote school, the basic scale by reference to which the basic element of the salary of a teacher employed whole-time in the school or of a teacher who lives near the school and whose whole-time employment includes employment in the school is insufficient, or
- (c) that, although the centre is not a remote further education centre, the scale by reference to which the salary of a teacher employed whole-time in the centre or of a teacher who lives near the centre and whose whole-time employment includes employment in the centre is insufficient—

the education authority or the teacher may apply to the Secretary of State for a direction, and it shall be in the power of the Secretary of State to give such direction as he thinks fit.

(3) Where the education authority are of opinion that the financial disadvantages of being employed in a particular remote school or a particular remote further education centre are insufficient to justify any increase under paragraph (1) of this regulation, or are sufficient to justify only a smaller increase than that prescribed in the said paragraph, they may apply to the Secretary of State for a direction, and it shall be in the power of the Secretary of State to give such direction as he thinks fit.

(4) In this regulation, unless the context otherwise requires—

(b) the teacher lives at or near one of the said places, and

(c) the recognised customary route to the centre of population recognised as the centre normally used by persons living at or near the place where the teacher lives satisfies the conditions set forth in head (i) or (ii) of sub-paragraph (d) of the last foregoing paragraph—

the teacher shall be deemed for the purposes of this regulation to be a teacher whose whole-time employment is in a remote school.

(6) The education authority shall maintain a list classifying the schools and further education centres in their area in which the basic scales or the scales by reference to which the salaries of the teachers employed in the schools or centres, as the case may be, are increased—

foregoing Regulation, the basic scale by reference to which the basic element of the salary of a teacher who was employed in the said school on 31st March 1954, is calculated shall continue to be increased by the amount by which it was increased under the Regulations of 1951 so long as he continues to be employed in the said school.

## PART VI

It shall be in the power of the Secretary of State, after consultation with the Scottish Joint Council, to direct that these regulations shall apply to the said salary with such modifications as he may prescribe.

**37.**—(1) Subject to the provisions of the next following paragraph, where a teacher occupies a post—

- (a) in which he has remained at the desire of the education authority, or

and if the application of these regulations to his salary would result in—

- (i) a reduction in the basic element of his salary, or
- (ii) a reduction in the responsibility element of his salary, or
- (iii) the calculation of the said responsibility element by reference to a lower grade on any scale set forth in Part II of Schedule 2, or

- (ix) the calculation of his salary by reference to a lower grade on any scale set forth in Schedule 8—

Provided that the reduction does not exceed the reduction applicable to the circumstances of his case recommended in any deliverance of the Scottish Joint Council in force during the teacher's absence, which contains provisions relating to—

Provided that the suspension or the reduction, as the case may be, is in accordance with any deliverance of the Scottish Joint Council in force at the time.

#### *Postponement of increments*

42.—(1) If a teacher is not performing his duties to the satisfaction of the education authority, it shall be in the power of the authority, notwithstanding anything in these regulations, to postpone for one salary year after the date of the adoption of the resolution for the said postponement the increments payable to him in accordance with the basic scale applicable to the calculation of the basic element of his salary if he is a teacher to the calculation of whose salary Part III of these regulations applies, or the scale applicable to the calculation of his salary if he is a teacher to the calculation of whose salary Part IV of these regulations applies.

(2) If at any time within 6 weeks after the adoption of a resolution under this regulation a petition is presented to the Secretary of State by the said teacher praying for an inquiry into the reasons for the postponement, the Secretary of State shall make such inquiry as he sees fit, and if as a result of such inquiry he is of opinion that the postponement is not reasonably justifiable he shall communicate such opinion to the education authority, and the resolution shall thereupon be deemed never to have been adopted.

(3) It shall be in the power of the education authority at any time to revoke any resolution adopted under this regulation, and the resolution shall thereupon cease to have effect in relation to the remainder of the salary year in which the education authority resolve to revoke the resolution and in subsequent salary years.

This regulation shall with the necessary modifications apply to an application by a teacher requiring a decision by the Scottish Joint Council or the education authority.

*Revocation of regulations*

46.—(1) The regulations set forth in Schedule 9 to these regulations are hereby revoked: provided that such revocation shall not prevent the Secretary of State or the education authority from exercising any of their functions under the Regulations of 1964 in relation to the salary payable to any teacher in respect of employment in the period during which the Regulations of 1964 were in operation.

(2) Notwithstanding the provisions of the last foregoing paragraph, any power, whether under the Regulations of 1964 or under regulations made before the Regulations of 1964, to re-assess the length of service of a teacher for the purpose of the calculation of his salary in respect of employment in the period during which the Regulations of 1964, or the regulations made before the Regulations of 1964, were in operation shall not be exercised save in exceptional circumstances.

(3) Section 38 of the Interpretation Act 1889 shall apply as if these regulations were an Act of Parliament and as if any regulations revoked by these regulations were Acts of Parliament repealed by an Act of Parliament.

## Regulation 46

## SCHEDULE 9

## REGULATIONS REVOKED

<i>Short Title</i>	<i>Reference</i>
The Teachers' Salaries (Scotland) Provisional Regulations 1966 ...	S.I. 1966/248 (1966 I, p. 515).

## EXPLANATORY NOTE

*(This Note is not part of the regulations.)*

These regulations, which repeat the provisions of the Teachers' Salaries (Scotland) Provisional Regulations 1966 with minor modifications, prescribe the scales of salary to be paid by education authorities to teachers employed whole-time in the period 1st April 1966 to 31st March 1968.

Part II prescribes how previous teaching service, War service, National service, certain other employments and added years for late entrants, or for teachers returning, to teaching are to determine the position of a teacher on the salary scales. Changes have been made to provide for the salary placing of teachers in schools to be determined by reference to their age on qualifying as teachers rather than to the nature of their previous occupations; and in certain circumstances teachers may also receive some placing for periods of absence from teaching.

Part III and Schedules 1 and 2 deal with the salaries of teachers in schools and prescribe increases in nine basic scales.

Certain increases have been made in the additions prescribed for teachers holding additional qualifications and employed in particular posts; and the payments made, in addition to the basic element of salary, to teachers in posts of special responsibility have been increased.

Part IV and Schedules 3 to 8 continue without material change the system for calculating the salaries of teachers in further education centres and provide for increases in the salaries of these teachers.

Part V continues the provision for supplements to the salaries of teachers employed in remote schools and further education centres and in distant islands, and provides for an increase in the rates of these supplements.

Part VI enables the Secretary of State, often after consultation with the Scottish Joint Council, to modify the regulations in special circumstances on the application of an education authority or a teacher. These provisions do not differ materially from those in earlier regulations.
