3. The fees to be paid in respect of any matters arising under the Act shall be those specified in Schedule I to these Rules and in any case where a form specified in that Schedule as the corresponding form in relation to any matter is required to be used that form shall be accompanied by the fee specified in respect of that matter.

4. The forms mentioned in these Rules are those set out in Schedule 2 to these Rules and such forms shall be used in all cases in which they are applicable and may be modified as directed by the Comptroller.

Documents

5.—(1) All documents and copies of documents, except drawings, filed at the Office shall, unless the Comptroller otherwise directs, be written, typewritten, lithographed or printed in the English language-

(2) Duplicate documents required under these Rules may be carbon copies of the original documents provided that they are on paper of good quality and the typing is black and distinct.

6. Any notice, application, or other document sent to the Office by post shall be deemed to have been given, made or filed at the time when the letter containing the document would be delivered in the ordinary course of post.

7. Every person concerned in any proceedings to which these Rules relate, and every patentee, shall furnish to the Comptroller an address for service in the United Kingdom and that address may be treated for all purposes connected with such proceedings or patent as the address of the person concerned in the proceedings or the patentee.

Agency

8.—(1) With the exception of documents mentioned in sub-rule (2) and unless the Comptroller otherwise directs in any particular case, all notices, applications or other documents filed under the Act may be signed by, and all attendances upon the Comptroller may be made by or through, an agent duly authorised to the satisfaction of the Comptroller.

(2) The following documents are excepted from sub-rule (1):—the authorisation of an agent; an application for a patent, for the grant of a patent of addition in lieu of an independent patent, or for a complete specification to be treated as a provisional specification; a notice of opposition; and an application, request, notice, claim or declaration on any of the following forms, namely Patents Forms numbers 4, 6, 14, 15, 17 to 19, 27, 29, 32, 35, 38 to 40, 42 to 45, 47 to 50, 53 to 57, and 68.

(b) any person who has been convicted of an offence under section 88;

- (c) any person who is found by the Board of Trade (after being given an opportunity to be heard) to have been convicted of any such offence, or to have been guilty of any such misconduct, as, in the case of an individual registered in the register of patent agents, would render him liable to have his name erased therefrom;
- (d) any person, not being registered as a patent agent, who in the opinion of the Comptroller is engaged wholly or mainly in acting as agent in applying for patents in the United Kingdom or elsewhere in the name or for the benefit of a person by whom he is employed;
- (e) any company or firm, if any person whom the Comptroller could refuse to recognise as agent in respect of any business under the Act is acting as a director or manager of the company or is a partner in the firm.

Applications for the grant of patents

9.—(1) An application, other than a Convention application, shall be made on Patents Form No. 1 or, provided the application is made and signed by the applicant personally and not by a nominee, on the form reproduced at 1A in Schedule 3 hereto (being the form adopted for the purpose by the European Convention relating to the Formalities required for Patent Applications done at Paris on 11th December 1953).

(2) In the case of an application by the assignce of the person claiming to be the true and first inventor there shall be furnished at the time of filing such application, or within a period of three months thereafter, the declaration required by section 2 (2).

(3) A Convention application shall be made on Patents Form No. 1 Con. or, provided the application is made and signed by the applicant personally and not by a nominee, on the form reproduced at 1B in Schedule 3 hereto (being the form adopted for the purpose by the said European Convention).

(4) An application for the grant of a patent of addition in lieu of an independent patent shall be made on Patents Form No. 1 Add.

10. In the case of an application, other than a Convention application, by the personal representative of a deceased person who, immediately before his death, was entitled to make such an application, the probate of the will of the deceased, or the letters of administration of his estate, or an official copy of the probate or letters of administration, shall be produced at the Office in proof of the applicant's title to act as personal representative.

11.—(1) Except in the case of an application (other than a Convention application) which is accompanied by a complete specification. Patents Form No. 4 including a declaration as to the inventorship of the invention disclosed in the complete specification, shall be filed with the complete specification or subsequently at any time before the expiration of the period allowed by or under section 12 for putting the application in order.

(2) When so requested by the applicant the Comptroller may, if he sees fit, dispense with the said declaration.

12. Where, in pursuance of section 3 (3), the Comptroller allows a single complete specification to be proceeded with in respect of two or more applications in respect of which two or more complete specifications have been filed, the single complete specification may include any matter disclosed in any of the said specifications and shall be deemed to have been filed on such date, not earlier than the earliest date on which all the matter disclosed in the said single complete specification has been disclosed to the Office in or in connection with the applications, as the Comptroller may direct.

13.—(1) Where an applicant has made an application for a patent and, before the acceptance of the complete specification, makes a fresh application for a patent for matter included in the first mentioned application or in any specification filed in pursuance thereof, the Comptroller may direct that the fresh application or any specification filed in pursuance thereof shall be ante-dated to a date not earlier than the date of filing of the first mentioned application a request to that effect.

(2) Where an applicant having made an application for a patent subsequently discloses to the Office additional matter in connection therewith, and before the acceptance of the complete specification makes a fresh application for a patent in respect of the additional matter, the Comptroller may direct that the fresh application or any specification filed in pursuance thereof shall be ante-dated to a date not earlier than the date on which the matter was first disclosed to the Office if the applicant includes in the fresh application a request to that effect.

(3) The Comptroller may require such amendment of the complete specification filed in pursuance of either of the said applications as may be necessary to ensure that neither of the said complete specifications includes a claim for matter claimed in the other.

14. Where a complete specification has been filed pursuant to two or more applications accompanied by provisional specifications for inventions which the applicant believes to be cognate or modifications one of another and the Comptroller is of opinion that such inventions are not cognate or modifications one of another, the Comptroller may allow the complete specification to be divided into such number of complete specifications as may be necessary to enable the applications to be proceeded with as two or more separate applications for patents.

15.—(1) In addition to the specification filed with every Convention application, there shall be filed with the application, or within three months thereafter, a copy of the specification and drawings or documents filed in respect of the relevant application for protection in a Convention country or of each such application, duly certified by the official chief or head of the Patent Office of the Convention country, or otherwise verified to the satisfaction of the Comptroller.

(2) If any specification or other document relating to the application is in a foreign language, it shall be accompanied by a translation thereof verified by statutory declaration or otherwise to the satisfaction of the Comptroller.

16. Where a single Convention application has been made in respect of all or part of the inventions in respect of which two or more applications for protection have been made in one or more Convention countries, and the Examiner reports that the claims of the specification filed with the said Convention application relate to more than one invention, the Comptroller may allow one or more further applications to be filed and the specification to be divided into such number of specifications as may be necessary to enable two or more separate Convention applications to be proceeded with and may direct that the said applications be deemed to have been filed on the date of filing of the original application.

Drawings

17. Drawings, when supplied, shall be furnished in duplicate and shall accompany the provisional or complete specification to which they refer, except in the case provided for by Rule 24.

18.—(1) Drawings shall be hand-made or reproduced on white, hot-pressed, rolled or calendered strong drawing paper of smooth surface, good quality, and medium thickness, without washes or colours, in such a way as to admit of being clearly reproduced on a reduced scale by photography, or, without any intermediary steps, on a stereotype.

(2) Mounted drawings may not be used.

19.—(1) Drawings shall be on sheets which measure 13 inches from top to bottom and are either from 8 inches to $8\frac{1}{4}$ inches or from 16 inches to $16\frac{1}{2}$ inches wide, and a clear margin of half an inch shall be left at the edges of the sheet.

(2) If there are more figures than can be shown on one of the smallersized sheets, two or more of these sheets shall be used unless the larger size is required by the size of any one figure.

(3) An exceptionally large figure may be continued on subsequent sheets.

(4) No more sheets shall be employed than are necessary.

(5) The figures shall be numbered consecutively without regard to the number of sheets, and shall as far as possible be arranged in numerical order, separated by a sufficient space to keep them distinct.

(6) Where figures on a number of sheets form in effect a single complete figure, they shall be so arranged that the complete figure can be assembled without concealing any part of another figure.

20. Drawings shall be prepared in accordance with the following requirements :---

(a) they shall be executed in durable, very dark markings;

- (b) each line shall be firmly and evenly drawn, sharply defined, and of the same strength throughout;
- (c) section lines, lines for effect, and shading lines shall be as few as possible, and shall not be closely drawn;
- (d) shading lines shall not contrast excessively in thickness with the general lines of the drawing;
- (e) sections and shading shall not be represented by solid black or washes;
- (f) they shall be on a scale sufficiently large to show the invention clearly, and only so much of the apparatus, machine, or article may appear as effects this purpose;
- (g) if the scale is given, it shall be drawn, and not denoted by words, and no dimensions may be marked on the drawings;
- (h) reference letters and numerals, and index letters and numerals used in conjunction therewith, shall be bold, distinct and not less than one-eighth of an inch in height; the same letters or numerals shall be used in different views of the same parts, and where the reference letters or numerals are shown outside the parts referred to they shall be connected with the said parts by fine lines.

21.—(1) Drawings shall bear :—

- (a) in the left-hand top corner the name of the applicant and, in the case of drawings filed with a complete specification after one or more provisional specifications, the numbers and years of the applications;
- (b) in the right-hand top corner the number of sheets of drawings sent and the consecutive number of each sheet, and the words "original" or "duplicate" as the case may require;
- (c) in the right-hand bottom corner the signature of the applicant or his agent.
- (2) The title of the invention shall not appear on the drawings.

22.—(1) No descriptive matter shall appear on constructional drawings, but drawings in the nature of flow sheets may bear descriptive matter to show the materials used and the chemical or other reactions or treatments effected in carrying out the invention.

(2) Drawings showing a number of instruments or units of apparatus and their interconnections, either mechanical or electrical, where each such instrument or unit is shown only symbolically, may bear such descriptive matter as is necessary to identify the instruments or units or their interconnections.

(3) No drawing or sketch, other than a graphic chemical formula or a mathematical formula, symbol or equation, shall appear in the verbal part of the specification and if such a formula, symbol or equation is used therein a copy thereof, prepared in the same manner as drawings, shall be furnished if the Comptroller so directs.

23. Drawings shall be delivered at the Office free from folds, breaks or creases which would render them unsuitable for reproduction by photography.

24. If an applicant desires to adopt the drawings filed with his provisional specification as the drawings or part of the drawings for his complete specification, he shall refer to them in the complete specification as those filed with the provisional specification.

Extension of the period for filing complete specification

25. A request for an extension of the period for filing a complete specification up to a period not exceeding fifteen months from the date of filing of the application shall be made on Patents Form No. 5.

Request for post-dating an application

26. Where an applicant for a patent desires that his application shall be post-dated in pursuance of the provisions of section 6 (3), he shall make a request on Patents Form No. 6.

Procedure under Sections 7, 8 and 9

27.—(1) When the Examiner, in making the investigation under section 7, reports that the invention so far as claimed in any claim of the complete specification has been published in any specification or other document falling within section 7 (1) or 7 (2), the applicant shall be so informed and shall be afforded an opportunity of amending his specification.

(2) If the Examiner finds that substantially the whole of the invention claimed has been published in one or more such specifications or documents he may, without continuing the investigation, make a provisional report to that effect.

(3) If the applicant re-files his specification and the Examiner is not satisfied either that the invention so far as claimed in any claim has not been published in any specification or other document cited by the Examiner or that the priority date of the claim is not later than the date on which the relevant document was published, the applicant shall be given an opportunity to be heard in the matter if he so requests.

(4) Whether or not the applicant has re-filed his specification, the Comptroller may appoint a hearing if he considers it desirable to do so, having regard to the time remaining for putting the application in order or other circumstances of the case.

(5) When a hearing is appointed, the applicant shall be given at least ten days' notice of the appointment or such shorter notice as appears to the Comptroller to be reasonable in the circumstances and shall as soon as possible notify the Comptroller whether he will attend the hearing.

(6) After hearing the applicant, or without a hearing if the applicant has not attended or has notified that he does not desire to be heard, the Comptroller may prescribe or permit such amendment of the specification as will be to his satisfaction and may refuse to accept the specification unless the amendment is made within such period as he may fix. 28. (1) When the Examiner reports that the invention so far as claimed in any claim of the complete specification is claimed in any claim of any other complete specification falling within section 8 (1) or 8 (3), the applicant shall be so informed and shall be afforded an opportunity of amending, or submitting amendments of, his specification.

(2) If, when the applicant's specification is otherwise in order for acceptance, an objection under section 8 is outstanding, the Comptroller may accept the specification and allow a period of two months from the date of its publication for removing the objection.

(3) If an objection under section 8 is communicated to the applicant after acceptance of the specification, a period of two months from the date of the communication shall be allowed for removing the objection.

29.—(1) If the applicant so requests at any time, or if the Examiner is not satisfied that the objection has been met within the period prescribed by Rule 28, including any extension thereof which the Comptroller may allow, a time for hearing the applicant shall be appointed and the applicant shall be given at least ten days' notice of the appointment and shall, as soon as possible, notify the Comptroller whether he will attend the hearing.

(2) After hearing the applicant, or without a hearing if the applicant has not attended or has notified that he does not desire to be heard, the Comptroller may prescribe or permit such amendment of the specification as will be to his satisfaction and may direct that a reference to such other specification as he shall mention shall be inserted in the applicant's specification unless the amendment is made or agreed to within such period as he may fix.

30. The periods mentioned in Rules 28 and 29 may be extended if a request for such extension is made on Patents Form No. 7 at any time within the extended period specified in the request, provided that the total extension of either period allowed under this provision shall not exceed six months.

31. When, in pursuance of Rule 29, the Comptroller directs that reference to another specification shall be inserted in the applicant's complete specification, the reference shall be inserted after the claims and shall be in the following form :--

"Reference has been directed, in pursuance of section 8 of the Patents Act 1949, to specification No. ".

32. An application under the proviso to section 79 (2), for disclosure of the result of a search made under sections 7 and 8, shall be made on Patents Form No. 8.

33. When in making the investigations under sections 7 and 8 it appears to the Examiner that the applicant's invention cannot be performed without substantial risk of infringement of a claim of another patent, the applicant shall be so informed and the procedure provided in Rules 28 to 30 shall apply.

34. When, pursuant to such procedure, the Comptroller directs that reference to a patent shall be inserted in the applicant's complete specification, the reference shall be inserted after the claims and shall be in the following form :---

"Reference has been directed in pursuance of section 9, subsection (1) of the Patents Act 1949, to patent No. ".

ì

35. An application under section 9 (2) for the deletion of a reference inserted pursuant to a direction under section 9 (1) shall be made on Patents Form No. 9, and shall state fully the facts relied upon in support of the application.

36. In the application of Rules 28 to 31, 33 and 34 to proceedings subsequent to the grant of the patent, references to the patentee shall be substituted for references to the applicant.

Putting Applications in order and acceptance of complete specifications (Sections 12 and 13)

37.—(1) There is hereby prescribed for the purposes of section 12(1) as the period within which an application for the grant of a patent is to be put in order for acceptance—

(a) in the case of an application for the grant of a patent filed before 1st January 1962, a period of three years and six months;

- (b) in the case of an application for the grant of a patent filed on or after that date but before 1st January 1964, a period of three years;
- (c) in the case of an application for the grant of a patent filed on or after 1st January 1964, a period of two years and six months.

(2) Where an application for the grant of a patent is post-dated under any of the provisions of the Act, it shall nevertheless be treated for the purpose of determining the relevant period prescribed for the purposes of section 12(1) as if it had not been so post-dated.

(3) A notice under section 12 (2) requesting an extension of the period allowable under section 12 (1) for putting an application in order shall be given on Patents Form No. 10.

(4) A notice under the proviso to section 13 (1) requesting postponement of the acceptance of a complete specification to a date later than twelve months from the date of its filing, shall be given on Patents Form No. 11.

38.—(1) After the date of the publication of a complete specification the application and specification as accepted together with the drawings and documents (if any) filed in pursuance of Rule 15 may be inspected at the Office upon payment of a fee prescribed by these Rules.

(2) The documents (if any) filed in pursuance of Rule 15 or photographic copies thereof may be made available for inspection without fee.

Opposition to grant of patent (Section 14)

- **39.**—(1) A notice of opposition to the grant of a patent
- (a) shall be given on Patents Form No. 12,
- (b) shall state the ground or grounds on which the opponent intends to oppose the grant, and
- (c) shall be accompanied by a copy thereof and shall be supported by a statement (in duplicate) setting out fully the nature of the opponent's interest, the facts upon which he relies and the relief which he seeks.

(2) A copy of the notice and of the statement shall be sent by the Comptroller to the applicant.

40. If the applicant desires to proceed with his application, he shall, within three months of the receipt of such copies, file a counterstatement setting out fully the grounds upon which the opposition is contested and deliver to the opponent a copy thereof.

41. The opponent may within three months from the receipt of the copy of the counterstatement file evidence in support of his case and shall deliver to the applicant a copy of the evidence.

42. Within three months from the receipt of the copy of the opponent's evidence or, if the opponent does not file any evidence, within three months from the expiration of the time within which the opponent's evidence might have been filed, the applicant may file evidence in support of his case and shall deliver to the opponent a copy of the evidence ; and within three months from the receipt of the copy of the applicant's evidence the opponent may file evidence confined to matters strictly in reply and shall deliver to the applicant a copy of the evidence.

43. No further evidence shall be filed by either party except by leave or direction of the Comptroller.

44.—(1) Copies of all documents, other than printed United Kingdom specifications, referred to in the notice of opposition or in any statement or evidence filed in connection with the opposition, authenticated to the satisfaction of the Comptroller, shall be furnished (in duplicate) for the Comptroller's use unless he otherwise directs. Such copies shall accompany the notice, statement or evidence in which they are referred to.

(2) Where a specification or other document in a foreign language is referred to, a translation thereof, verified by statutory declaration or otherwise to the satisfaction of the Comptroller, and one additional copy of the translation, shall also be furnished.

45.—(1) On completion of the evidence (if any), or at such other time as he may see fit, the Comptroller shall appoint a time for the hearing of the case, and shall give the parties at least fourteen days' notice of the appointment.

(2) If either party desires to be heard he shall notify the Comptroller on Patents Form No. 13 and the Comptroller may refuse to hear either party who has not filed the said form prior to the date of hearing.

(3) If either party intends to refer at the hearing to any publication not already mentioned in the proceedings, he shall give to the other party and to the Comptroller at least ten days' notice of his intention, together with details of each publication to which he intends to refer.

(4) After hearing the party or parties desiring to be heard or, if neither party desires to be heard, then without a hearing, the Comptroller shall decide the case and notify his decision to the parties giving reasons for his decision if so required by any party.

46. If in consequence of the proceedings the Comptroller directs that a reference to another patent shall be inserted in the applicant's specification under section 9 (1), the reference shall be as prescribed by Rule 34.

47. If the applicant notifies the Comptroller that he does not desire to proceed with the application, the Comptroller, in deciding whether costs should be awarded to the opponent, shall consider whether proceedings might have been avoided if the opponent had given reasonable notice to the applicant before the opposition was filed.

Procedure under Section 15

48. If at any time after the acceptance of a complete specification and before the grant of the patent it comes to the notice of the Comptroller, otherwise than in consequence of proceedings in opposition to the grant, that the invention so far as claimed in any claim of the complete specification has been published in any specification or other document falling within section 15 (1), the applicant shall be so informed and shall be allowed a period of two months within which to submit such amendment of his specification as will be to the Comptroller's satisfaction.

49.—(1) If the specification has not been amended to the Comptroller's satisfaction within the period allowed under Rule 48, including any extension thereof which the Comptroller may allow, a time for hearing the applicant shall be appointed, and the applicant shall be given at least ten days' notice of the appointment, and shall, as soon as possible, notify the Comptroller whether he will attend the hearing.

(2) After hearing the applicant, or without a hearing if the applicant has not attended or has notified that he does not desire to be heard, the Comptroller may prescribe or permit such amendment of the specification as will be to his satisfaction and may refuse to grant a patent unless the amendment is made or agreed to within such period as he may fix.

50. The periods mentioned in Rules 48 and 49 may be extended if a request for such extension is made on Patents Form No. 7 at any time within the extended period specified in the request, provided that the total extension of either period allowed under this provision shall not exceed six months.

Mention of inventor as such (Section 16)

51. A request by the applicant for a patent, or, if the actual deviser of the invention or of a substantial part thereof is not the applicant or one of the applicants, by the applicant and the said deviser, under section 16 (3) shall be made on Patents Form No. 14 and shall be accompanied by a statement setting out fully the facts relied upon.

52.—(1) A claim under section 16 (4) shall be made on Patents Form No. 15 and shall be accompanied by a statement setting out fully the facts relied upon.

(2) A copy of the claim and of the statement shall be sent by the Comptroller to every applicant for the patent (not being the claimant) and to any other person whom the Comptroller may consider to be interested and the claimant shall supply a sufficient number of copies for that purpose.

(3) The Comptroller may give such directions (if any) as he may think fit with regard to the subsequent procedure.

53. An application under section 16 (5) for an extension of the period for making a request or claim shall be made on Patents Form No. 16.

54.—(1) An application under section 16 (8) for a certificate shall be made on Patents Form No. 17 and shall be accompanied by a statement setting out fully the facts relied upon.

(3) A copy of the notice and of the statement shall be sent by the Comptroller to the person making the request, and thereafter the provisions of Rules 40 to 45 shall apply.

132. Where, in accordance with section 76 (3), a hearing is appointed, at least fourteen days' notice of the appointment shall be given to the patentee or the applicant for a patent and to any other person to whom notice of the proposed correction has been given by the Comptroller.

- (h) as to when any document filed in proceedings after acceptance of the complete specification may be inspected in accordance with the provisions of Rule 146.

(2) Any such request shall be made on Patents Form No. 67 and a separate form shall be used in respect of each item of information required.

Duplicate patent

136. An application under section 80 for a duplicate of a patent shall be made on Patents Form No. 68 and shall be accompanied by evidence setting out fully and verifying the circumstances in which the patent was lost or destroyed, or cannot be produced.

Evidence before Comptroller

137. Where under these Rules evidence is required to be filed it shall be by statutory declaration or affidavit unless otherwise expressly provided in these Rules.

138.—(1) The statutory declarations and affidavits required by these Rules, or used in any proceedings thereunder, shall be headed in the matter or matters to which they relate, and shall be divided into paragraphs consecutively numbered, and each paragraph shall so far as possible be confined to one subject.

(2) Every statutory declaration or affidavit shall state the description and true place of abode of the person making the same, and shall be written, typed, lithographed or printed.

139. The statutory declarations and affidavits shall be made and subscribed as follows—

- (a) In the United Kingdom, before any justice of the peace, or any commissioner or other officer authorised by law in any part of the United Kingdom to administer an oath for the purpose of any legal proceedings;

- (c) Elsewhere, before a British Minister, or person exercising the functions of a British Minister, or a Consul, Vice-Consul, or other person exercising the functions of a British Consul, or before a notary public, or before a judge or magistrate.

140. Any document purporting to have affixed, impressed or subscribed thereto or thereon the seal or signature of any person authorised by the last foregoing Rule to take a declaration, in testimony that the declaration was made and subscribed before him, may be admitted by the Comptroller without proof of the genuineness of the seal or signature or of the official character of the person or his authority to take the declaration.

141. At any stage of any proceedings before the Comptroller he may direct that such documents, information or evidence as he may require shall be furnished within such period as he may fix.

Hearing in Scottish cases (Section 86)

142.—(1) Any party or parties to proceedings under sections 55 (1), 55 (2) or 56 (1) of the Act may request the Comptroller to direct that any hearing in such proceedings shall be held in Scotland.

- (2) A request made under sub-rule (1) shall—
- (a) be in writing;
- (b) be accompanied by a statement of facts setting out the grounds upon which the request is made; and
- (c) be lodged with the Comptroller at any time before the Comptroller issues notification to the parties that a hearing has been appointed, or, with the leave of the Comptroller, within 14 days thereafter.

(3) The Comptroller, upon a request being made under sub-rule (1) of this rule, shall forthwith intimate such request by sending a copy thereof together with the relevant statement of facts to any party to the proceedings who has not signed the request as a consenter thereto, and for the purpose of such intimation sufficient copies of the request and statement shall be lodged with the Comptroller by the party or parties making the request.

(4) Any party or parties to the proceedings having objection to a request intimated under sub-rule (3) may, within one month of such intimation, lodge with the Comptroller a counterstatement setting out the grounds upon which objection is taken, and the Comptroller shall forthwith intimate the objection by sending a copy of the counterstatement to any party who is not a signatory, and for the purpose of such intimation sufficient copies of the counterstatement shall be lodged with the Comptroller by the party or parties making the objection.

(5) Subject to the foregoing provisions the Comptroller may give such directions as he thinks fit with regard to the procedure to be followed in dealing with a request made under sub-rule (1) including any hearing thereon which may appear to him to be necessary.

(6) Where the Comptroller, after consideration of a request made under subrule (1), is satisfied, having regard to the balance of convenience in all the circumstances of the case, that any hearing thereon should be held in Scotland, he shall grant the request and issue such directions as shall seem to him appropriate.

(7) Any decision of the Comptroller under this Rule shall be final.

The Journal, Reports of Cases, and publication of documents

143.—(1) The Comptroller shall publish a journal containing particulars of applications for patents and other proceedings under the Act and any other information that he may deem to be generally useful or important.

(2) The journal shall be entitled "The Official Journal (Patents)".

(3) Unless the Comptroller otherwise directs, the journal shall be published weekly.

144. The Comptroller shall publish from time to time reports of such cases relating to patents, trade marks and registered designs as he may deem to be generally useful or important.

145. The Comptroller may arrange for the publication and sale of copies of specifications, drawings and other documents in the Office, and of indexes to and abridgments of such documents.

146.—(1) In addition to the documents mentioned in section 13 (2) and Rule 38 (1), and subject to the provisions of this Rule, the following documents shall be open to public inspection after the date of publication of the complete

(2) The following shall not be open to public inspection, namely, Patents Forms Nos. 8, 37, 66 and 67.

- (3) (a) Where a document other than a Patents Form is filed or sent after the said date and the person filing or sending it so requests at the time of filing, the Comptroller may direct it to be treated as confidential.
- (b) Where such a direction has been given and not withdrawn, nothing in this Rule shall be taken to authorise or require any person to be allowed to inspect the document to which the direction relates except by leave of the Comptroller.
- (c) The Comptroller shall not withdraw any direction given under this Rule nor shall he give leave for any person to inspect any document to which a direction which has not been withdrawn relates without prior consultation with the person at whose request the direction was given, unless the Comptroller is satisfied that such prior consultation is not reasonably practicable.
- (d) Where such a direction is given or withdrawn a record of the fact shall be filed with the document to which it relates.

Hours of business and excluded days (Section 98)

147.—(1) The following shall be excluded days for purposes of the transaction by the public of business of all classes under the Act :—

Christmas Day, Good Friday, the Saturday following Good Friday and all Sundays.

(2) Days which may, from time to time, be notified by a notice posted in a conspicious place in the Office shall be excluded days for purposes of the transaction of business of all classes or such class or classes as may be specified in the notice.

(3) All Saturdays, other than those falling within sub-rule (1) or (2), shall be excluded days for purposes of the transaction of all classes of business other than the filing of new applications for patents which are not Convention applications.

148. The Office shall be deemed to be closed at the following hours for the transaction of business of the classes specified—

- (a) On weekdays other than Saturdays, at six o'clock for the filing of applications, forms and other documents, and at four o'clock for all other business;
- (b) On Saturdays, at one o'clock for the filing of new applications for patents which are not Convention applications.

Applications to and Orders of Court

149. Where an application to the Court under section 75 for rectification of the register has been made, the applicant shall forthwith serve an office copy of the application on the Comptroller, who shall enter a notice of the application on the register.

150. Where any Order has been made by the Court under the Act revoking a patent or extending the term of a patent, or allowing a patentee to amend his specification, or affecting the validity or proprietorship of a patent or any rights thereunder, the person in whose favour such order has been made shall file Patents Form No. 69 accompanied by an office copy of such order, and thereupon the specification shall be amended or the register rectified or altered as the case may be.

General

151. Except as otherwise provided in these Rules, before exercising any discretionary power given to him by the Act or these Rules adversely to an applicant for a patent or for amendment of a specification, the Comptroller shall give at least ten days' notice to the applicant of the time when he may be heard.

152. Any document filed in any proceedings before the Comptroller may, if he thinks fit, be amended, and any irregularity in procedure may be rectified, on such terms as he may direct.

153.-(1) Where by virtue of any of the Rules mentioned in sub-rule (2) of this Rule any notice of opposition or application for the revocation of a patent is required to be supported by a statement or evidence, such statement or evidence shall be filed on, or within 14 days after, the date on which the notice is given or the application is made.

(2) The Rules referred to in sub-rule (1) are Rules 39 (1), 72 (2), 80 (2), 86 (2), 91 (2), 96 (1), 100 (1), 106 (2), 114 (3) and 131 (2).

154. The times prescribed by these Rules for doing any act, or taking any proceeding thereunder, other than the times prescribed by Rules 37, 59, 72 (1), 80, 86, 100 and 106, may be extended by the Comptroller if he thinks fit, upon such notice to the parties and upon such terms, as he may direct, and such extension may be granted although the time has expired for doing such act or taking such proceeding.

155. Where, under these Rules, any person is required to do any act or thing, or any document or evidence is required to be produced or filed, and it is shown to the satisfaction of the Comptroller that from any reasonable cause that person is unable to do that act or thing, or that that document or evidence cannot be produced or filed, the Comptroller may, upon the production of such evidence and subject to such terms as he thinks fit, dispense with the doing of any such act or thing, or the production or filing of such document or evidence.

156. Where the hearing before the Comptroller of any dispute between two or more parties relating to any matter in connection with a patent or an application for a patent takes place after the date of the publication of the complete specification, the hearing of the dispute shall be in public unless the Comptroller, after consultation with those parties to the dispute who appear in person or are represented at the hearing, otherwise directs.
