EXPLANATORY NOTE

(This Note is not part of the Order.)

This order increases the amount of the Northern Ireland Beef Cow subsidy for the years 1970 and 1971. The old rate was a uniform amount of £10 per cow. The new rate will depend on whether the cow is in a herd which is certified by the Ministry of Agriculture for Northern Ireland under their statutory powers for the eradication of brucellosis, in which case the subsidy will be £12 17s. 6d. per cow. For other cows it will be £11.

In 1970, a herd will be eligible for the higher rate if it is already a certified herd on 1st September, or if it subsequently becomes a certified herd as a result of a final test started on or before that date. In 1971 the operative date will be 1st June, instead of 1st September. Where brucellosis is present in a certified herd on 1st September 1970 the animals in the herd will not be eligible for the higher rate of subsidy in that year, nor in 1971 if the original infection continues until 1st June.
