EXPLANATORY NOTE

(This Note is not part of the order.)

This order, which applies throughout Great Britain, implements Directive 74/647/EEC of the Council (O.J.No. L.352, 28:12:74, p. 41) on the control of Mediterranean carnation leaf-roller.

The order prohibits the cutting of flowers for sale from carnation plants infested with Mediterranean carnation leaf-roller, until the plants have been effectively treated with a view to eradicating the infestation. The order also prohibits the sale of cut carnation flowers unless they are substantially free from infestation with Mediterranean carnation leaf-roller.

Inspectors are given power to serve notices requiring the treatment or destruction of infested cut carnation flowers and, on failure to comply, to take the necessary steps at the expense of the person in default.

Inspectors are also given powers to examine and take samples of carnation plants; persons in possession of cut flowers are required to produce records relating to their sale or purchase.

Penalties are prescribed for infringements of the requirements of the order.
