## PLANT HEALTH

**The Import and Export (Plant Health)  
(Great Britain) Order 1980**

<i>Made</i>	- - - - -	<i>20th March 1980</i>
<i>Laid before Parliament</i>	- - - - -	<i>9th April 1980</i>
<i>Coming into Operation</i>	- - - - -	<i>1st May 1980</i>

## ARRANGEMENT OF ARTICLES

## ARTICLE

1. Citation, extent and commencement.
2. Revocation of previous order.
3. Interpretation.
4. Exception of certain plants and plant products.
5. Prohibition of the landing of certain plants, plant products, plant pests and soil.
6. Special conditions for the landing of certain plants or plant products.
7. Certificates to accompany consignments of plants, plant products or soil imported from Member States
8. Certificates to accompany consignments of plant products imported from third countries.
9. Certificates to accompany consignments of plants, plant products or soil exported from Great Britain to Member States.
10. General provisions relating to phytosanitary certificates and re-forwarding phytosanitary certificates.
11. Restriction on the planting of imported potatoes.
12. Examination, sampling and marking.
13. Procedure when plants, plant products or soil are landed or likely to be landed in contravention of this order.
14. Procedure when a plant pest or genetically manipulated material is landed or likely to be landed in contravention of this order.
15. Persons authorised by an inspector.
16. Powers of an officer of Customs and Excise.
17. Licences.
18. Information to be given.
19. Service of notices.
20. Offences.

## ARRANGEMENT OF SCHEDULES

## SCHEDULE

1. Plant pests the landing of which is prohibited.
2. Conditions subject to which plants and plant products may be landed.

## PART I

ROOTED PLANTS AND UNROOTED VEGETATIVE PROPAGATING MATERIAL  
OTHER THAN BULBS, CORMS, TUBERS OF POTATO AND SEEDS

- A. General conditions subject to which landing is permitted.
- B. Additional conditions applying in particular cases.

## PART II

## BULBS AND CORMS FOR PLANTING

- A. General conditions subject to which landing is permitted.
- B. Additional conditions applying in the case of corms of gladiolus and bulbs of the genera *Tulipa* and *Narcissus*.
- C. Additional conditions applying in the case of bulbs of the genus *Allium*, corms of freesia and crocus and bulbs of iris.

## PART III

## POTATO TUBERS

- A. General conditions subject to which landing is permitted.
- B. Additional conditions applying in the case of potato tubers for planting.
- C. Additional conditions applying in the case of potato tubers other than potato tubers for planting.

## PART IV

## SEEDS

- A. General conditions subject to which landing is permitted.
- B. Additional conditions applying in the case of seeds of lettuce, lucerne, pea and tomato and of the genus *Rubus*.
- C. Additional conditions applying in the case of seeds of the families Cruciferae and Gramineae and of the genus *Trifolium*.
- D. Additional conditions applying in the case of seeds of onion, leek and chive.

## PART V

## RAW FRUIT

- A. General conditions subject to which landing is permitted.
- B. Additional conditions applying in the case of raw fruit of the genera *Citrus*, *Cydonia*, *Malus*, *Prunus* and *Pyrus*.
- C. Additional conditions applying in the case of raw fruit of the genera *Fragaria*, *Ribes*, *Rubus*, *Vaccinium* and *Vitis*.

## PART VI

## RAW VEGETABLES

- A. General conditions subject to which landing is permitted.
- B. Additional conditions applying in particular cases.

## PART VII

## CUT FLOWERS

- A. General conditions subject to which landing is permitted.
  - B. Additional conditions applying in the case of cut flowers and parts of plants used for decoration of the genera *Castanea*, *Dendranthema*, *Dianthus*, *Gladiolus*, *Prunus*, *Quercus*, *Rosa*, *Salix*, *Syringa* and *Vitis*.
  - C. Additional conditions applying in the case of cut flowers of the genus *Protea*.
3. Plants, plant products and soil to be accompanied by a phytosanitary certificate or re-forwarding phytosanitary certificate when exported to a Member State.
  4. Form of phytosanitary certificate.
  5. Form of re-forwarding phytosanitary certificate.

The Minister of Agriculture, Fisheries and Food in relation to England, the Secretary of State for Scotland in relation to Scotland and the Secretary of State for Wales in relation to Wales in exercise of the powers conferred by sections 2 and 3(1), (2) and (4) of the Plant Health Act 1967(a), as read with section 20 of the Agriculture (Miscellaneous Provisions) Act 1972(b) and now vested in them (c) and of every other power enabling them in that behalf, hereby make the following order:—

*Citation, extent and commencement*

1. This order, which may be cited as the Import and Export (Plant Health) (Great Britain) Order 1980 shall apply to Great Britain and shall come into operation on 1st May 1980.

*Revocation of previous order*

2. The Importation of Plants, Plant Produce and Potatoes (Health) (Great Britain) Order 1971(d) is hereby revoked.

*Interpretation*

3.—(1) In this order, unless the context otherwise requires—

“appropriate Minister” means in the application of this order to England the Minister of Agriculture, Fisheries and Food, in its application to Scotland the Secretary of State for Scotland and in its application to Wales the Secretary of State for Wales;

(a) 1967 c. 8; section 3(4) was amended by the Criminal Justice Act 1967 (c. 80), section 92(2) and Schedule 3, Part II; sections 2(1), 3(1) and (2) were amended by the European Communities Act 1972 (c. 68) section 4(1) and Schedule 4, paragraph 8.

(b) 1972 (c. 62.)

(c) In the case of the Secretary of State for Wales by virtue of S.I. 1978/272.

(d) S.I. 1971/438.

“Central America” means the geographical area comprising the following countries namely Belize, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, Panama and the islands commonly known as the West Indies;

“Customs Act” means the Customs and Excise Management Act 1979(a);

“the Euro-Mediterranean area” means the geographical area comprising, Europe and the following countries namely Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Libya, Malta, Morocco, Syria, Tunisia and Turkey;

“Europe” includes the Canary Islands but does not include the Azores, Cyprus or Malta or the following regions of the Union of Soviet Socialist Republics namely the Kazakh, Kirghiz, Tadzhik, Turkmen and Uzbek Soviet Socialist Republics and the following regions of the Russian Soviet Federal Socialist Republic namely the Buryat, Yakut and Tuva Autonomous Soviet Socialist Republics, the Altai, Khabarovsk, Krasnoyarsk and Maritime Krai and the Amur, Chita, Irkutsk, Kamchatka, Kemerovo, Kurgan, Magadan, Novosibirsk, Omsk, Sakhalin, Tomsk and Tyumen Oblasts;

“genetically manipulated material” means material derived from any activity which has involved genetic manipulation and which is in the opinion of the appropriate Minister likely to result in the production of a plant pest;

“genetic manipulation” means the formation of new combinations of heritable material by the insertion of nucleic acid molecules, produced by whatever means outside the cell, into any virus, bacterial plasmid, or other vector system so as to allow their incorporation into a host organism in which they do not naturally occur but in which they are capable of continued propagation;

“importer” in relation to any plant, plant product, plant pest, genetically manipulated material or soil includes:—

- (a) any person who, whether as owner, consignor or consignee, agent, broker or otherwise is in possession of or in any way entitled to the custody or control of the plant, plant product, plant pest, genetically manipulated material or soil; and
- (b) any person by whose action a plant, plant product, plant pest, genetically manipulated material or soil is likely to be landed or has been landed in Great Britain;

“inspector” means an officer authorised by the appropriate Minister for the purposes of this order;

“landed” includes imported by post and “landing” shall be construed accordingly;

“Member State” means a Member State of the European Community other than the United Kingdom and does not include the Isle of Man or any of the Channel Islands;

“non-indigenous plant pest” means a plant pest which in the opinion of the appropriate Minister is not established in Great Britain;

“North America” means the geographical area comprising the following countries namely Canada, Mexico and the United States of America (except the state of Hawaii);

“official” in relation to any testing or any other procedure required by this order to be carried out in respect of any plant, plant product or soil means carried out by or under the supervision of the Plant Protection Service of the country in which the plant or plant product was grown or in the case of soil in which it originates and “officially” shall be construed accordingly;

“phytosanitary certificate” means a certificate either in the form set out in Schedule 4 or the equivalent written in a language other than English;

“place of production” means any group of fields or plots of land, such as a farm or nursery, normally worked as a unit, together with any contiguous uncultivated land;

“plant” means a living plant or living part of a plant, any tissue culture of such plant or living part of such plant, raw fruit or seed and includes where the context so admits any soil or other growing medium, packing material or container associated therewith;

“plant pest” means a living organism other than a vertebrate animal, or a pathogen, which is injurious to any plant and includes a culture of such organism or pathogen;

“plant product” means a product of plant origin, which product is unprocessed or has undergone simple preparation insofar as it is not a plant and includes any soil or other growing medium, packing material and container associated therewith;

“potato” means any plant or any part of a plant, including tubers and true seed, of *Solanum tuberosum* L. or other tuber-forming species or hybrids of the genus *Solanum* L.;

“premises” includes any land, building, vehicle, vessel, aircraft, hovercraft or freight container;

“raw fruit” does not include dried, dehydrated or deep-frozen fruit, and “raw” in relation to fruit of any particular description shall be construed accordingly;

“raw vegetables” does not include potatoes and does not include any other kind of vegetable which has been dried, dehydrated, brined, pickled or deep-frozen;

“re-forwarding phytosanitary certificate” means either a certificate in the form set out in Schedule 5 or the equivalent written in a language other than English;

“South America” means the geographical area comprising the following countries namely Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, French Guiana, Guyana, Paraguay, Peru, Surinam, Uruguay and Venezuela;

“third country” means a country or territory other than a Member State, the United Kingdom, the Isle of Man or any of the Channel Islands.

(2) Any reference in this order to a numbered Article or a numbered Schedule shall be construed as a reference to the Article or Schedule so numbered in this order.

(3) Any reference in this order to a Member State, Great Britain or third country includes reference to a state, province or region within that Member State, Great Britain or third country.

*Exception of certain plants and plant products*

4.—(1) The provisions of this order, except Articles 9, 10, 11, 18 and 20 shall not apply in relation to any plant or plant product grown in Great Britain except that all the provisions of this order shall apply in relation to any such plant or plant product which has been exported from Great Britain and subsequently re-imported into Great Britain.

(2) The requirements of Articles 6, 7, 8 and 10 in relation to phytosanitary certificates and re-forwarding phytosanitary certificates shall not apply to any plants or plant products (other than plants of the genera *Malus* Mill., *Prunus* L., and *Pyrus* L., intended for planting or propagation, potatoes, cut flowers of gladiolus grown in Malta and plants of chrysanthemum) landed in Great Britain in the baggage of a passenger which:—

- (a) have been grown in any part of the Euro-Mediterranean area; and
- (b) in the case of bulbs, corms and tubers for planting, raw fruit and raw vegetables do not together exceed 2 kilograms or which, in the case of other plants or plant products, do not in total exceed 5 in number.

*Prohibition of the landing of certain plants, plant products, plant pests and soil*

5. Except as provided in column 3 of Part VA of Schedule 2 in respect of raw fruit and in column 3 of Part VIIA of Schedule 2 in respect of cut flowers the landing in Great Britain of:—

- (a) any plant pest of a description specified in Schedule 1;
- (b) any non-indigenous plant pest not being a plant pest of a description specified in Schedule 1;
- (c) any plant pest which has been subjected to genetic manipulation or any genetically manipulated material;
- (d) any potatoes except tubers of varieties which have been accepted for marketing in one or more Member States in accordance with the provisions of Council Directive 70/457/EEC(a);
- (e) any soil, excluding peat, not being soil landed in association with a growing plant or plant product which:—
  - (i) has been directly consigned to Great Britain from within a third country;
  - (ii) originates outside Europe and which is consigned to Great Britain from within a Member State and has not been officially tested and found to be free from plant pests;

is hereby prohibited.

*Special conditions for the landing of certain plants or plant products*

6. The landing in Great Britain of any plant or plant product described in column 2 of Schedule 2 is hereby prohibited unless the conditions specified in column 3 of Schedule 2 opposite the description of such plant or plant product are complied with.

*Certificates to accompany consignments of plants, plant products or soil imported from Member States*

7.—(1) No plant or plant product which is directly consigned to Great Britain from within a Member State and is of a description specified in column 2

of Part IA, IIB, IIIA, IVB or VIB of Schedule 2 or any soil which is so consigned shall be landed in Great Britain unless it is accompanied by a phytosanitary certificate issued in the country in which the plant or plant product was grown, or in the case of soil in the country in which it originates, and a re-forwarding phytosanitary certificate issued in each other country from within which it has been consigned before being landed in Great Britain.

(2) No plant or plant product which is directly consigned to Great Britain from within a Member State and is of a description specified in column 2 of Part IIA, other than corms of *Gladiolus* and bulbs of *Tulip* and *Narcissus*, column 2 of Part VB or column 2 of Part VIIB of Schedule 2 shall be landed in Great Britain unless it is accompanied by a phytosanitary certificate issued in that Member State, except that where such plant or plant product has previously been consigned from within any other country before being consigned from within that Member State to Great Britain it may instead be accompanied by the latest phytosanitary certificate relating to it issued in one of the countries from within which it was previously consigned and a re-forwarding phytosanitary certificate issued in each other country from within which it has been consigned subsequent to its consignment from within the country in which the latest phytosanitary certificate relating to such plant or plant product was issued.

(3) The requirements relating to re-forwarding phytosanitary certificates contained in paragraphs (1) and (2) of this Article shall only apply to the re-export of a consignment of plants or plant products or soil to Great Britain from a particular country if:—

- (a) such consignment has been stored, repacked or split up in that country before being consigned; or
- (b) in the case of any consignment of plants of *chrysanthemum*, *carnation*, *pelargonium* and *tomato* for planting, tubers of *potato* and raw vegetables of the genera *Beta* L., *Brassica* L., *Cichorium* L., *Daucus* L., and *Lactuca* L., the address of the consignee in the description of the consignment in the phytosanitary certificate accompanying the consignment is not in Great Britain.

*Certificates to accompany consignments of plants or plant products imported from third countries*

8.—(1) No plant or plant product which is directly consigned to Great Britain from within a third country and is of a description specified in column 2 of Part IA, IIA, IIIA, IVB, IVC, VB, VC, VIB, VIIB or VIIC of Schedule 2 shall be landed in Great Britain unless it is accompanied by a phytosanitary certificate issued in the country in which it was grown and a re-forwarding phytosanitary certificate issued in each other country from within which it has been consigned before being landed in Great Britain.

(2) The requirement contained in paragraph (1) of this Article in relation to re-forwarding phytosanitary certificates shall only apply to the re-export of a consignment of plants or plant products to Great Britain from a particular country if:—

- (a) such consignment has been stored, repacked or split up in that country before being consigned; or
- (b) the address of the consignee in the description of the consignment in the phytosanitary certificate accompanying the consignment is not in Great Britain.

*Certificates to accompany consignments of plants, plant products or soil exported from Great Britain to Member States*

9.—(1) No plant, plant product or soil of a description specified in column 2 of Schedule 3 shall be exported from Great Britain to a place within a Member State unless, when exported from Great Britain, such plant, plant product or soil is accompanied by a phytosanitary certificate or a re-forwarding phytosanitary certificate issued by an inspector or other officer of the appropriate Minister.

(2) Applications for phytosanitary certificates and re-forwarding phytosanitary certificates shall be made to the appropriate Minister or to an inspector with such information in such form and in such manner as he may require.

*General provisions relating to phytosanitary certificates and re-forwarding phytosanitary certificates*

10.—(1) Except for an inspection which is required to be carried out for the purposes of making an official statement in accordance with a condition referred to in column 3 of Schedule 2, an inspection carried out for the purposes of issuing a phytosanitary certificate or a re-forwarding phytosanitary certificate shall be carried out not more than 14 days, and in the case of a phytosanitary certificate accompanying a consignment of chrysanthemums (not being a consignment of chrysanthemum cut flowers) not more than 48 hours, before the date of the despatch of the consignment to which the inspection relates.

(2) A phytosanitary certificate or a re-forwarding phytosanitary certificate shall not be valid for the purposes of this order unless it is completed and signed by an authorised officer not more than 14 days, and in the case of a phytosanitary certificate accompanying a consignment of chrysanthemums (not being a consignment of chrysanthemum cut flowers) not more than 48 hours, before the date of the despatch of the consignment which it is to accompany and after the carrying out of any inspection referred to in paragraph (1) of this Article which relates to that consignment.

(3) Any official statement required to be given in accordance with column 3 of Schedule 2 in respect of a particular plant shall except where the said column 3 requires specifically that a statement shall appear on a phytosanitary certificate, be deemed to have been given by the issue of a phytosanitary certificate to accompany that plant or plant product in accordance with this order.

(4) Where a phytosanitary certificate or a re-forwarding phytosanitary certificate is issued in a third country of which the language is other than English it shall incorporate or be accompanied by a translation into the English language which translation, if it is a document separate from the certificate, shall be completed and signed by an authorised officer.

(5) Subject to paragraph (6) of this Article, where a consignment of plants or plant products has been consigned between two or more countries before being directly consigned to Great Britain it may be accompanied in the place of any certificate required by this order by a facsimile copy of such certificate issued in the country from within which the consignment has been directly consigned to Great Britain and certified as a true copy of the original or a true copy of a certified copy of the original, as the case may be, by an authorised officer.

(6) Paragraph (5) of this Article shall not apply in the case of a re-forwarding phytosanitary certificate issued in the country from within which the consignment was directly consigned to Great Britain in which case the original re-forwarding phytosanitary certificate issued in that country must be produced.

(7) For the purposes of paragraphs (2), (4) and (5) of this Article "authorised officer" shall mean:—

- (a) in relation to a certificate, translation or facsimile copy issued in Great Britain, an inspector or other officer of the appropriate Minister; and
- (b) in relation to a certificate, translation or facsimile copy issued in a place other than Great Britain, a representative of the Plant Protection Service of the country in which the certificate, translation or facsimile copy was issued.

(8) Except in the case of consignments imported into Great Britain by post, a phytosanitary certificate and any re-forwarding phytosanitary certificate shall be delivered to the proper officer at the same time as, and together with, the entry relating to the consignment. In this paragraph the expression "proper officer" has the like meaning as in the Customs Act and the reference to the entry shall be construed as reference to the entry, delivery of which is to be made in accordance with the provisions of that Act.

(9) In the case of a consignment imported into Great Britain by post any phytosanitary certificate and any re-forwarding phytosanitary certificate shall be affixed to the package comprising the consignment or, if the consignment consists of more than one package, such certificate shall be affixed to one of the packages and copies thereof affixed to each of the remaining packages.

(10) A certificate issued by or on behalf of a state, provincial or other regional or local government authority of part of a country, or by or on behalf of any department, service or other organ of such authority shall not be deemed to be a valid phytosanitary certificate or a valid re-forwarding phytosanitary certificate for the purposes of this order unless such authority is the only one empowered to issue, in relation to such part of the country, phytosanitary certificates or re-forwarding phytosanitary certificates to accord with the requirements of this order.

#### *Restriction on the planting of imported potatoes*

11.—(1) No person shall plant or permit or cause to be planted, in Great Britain any potatoes which have been grown in any place outside Great Britain, Northern Ireland, any of the Channel Islands, the Isle of Man, a Member State (other than Denmark), Austria or Switzerland.

(2) Potatoes referred to in paragraph (1) of this Article shall include any potatoes which have been derived from such potatoes.

(3) This Article shall not apply to any potatoes which have been landed in Great Britain under and in accordance with the conditions of a licence granted under Article 17 or which have been derived from potatoes which have been so landed.

(4) This Article applies without prejudice to the provisions of the Prevention of Spread of Pests (Seed Potatoes) (Great Britain) Order 1974(a) (which restricts the movement and planting of potatoes in certain areas of Great Britain).

---

(a) S.I. 1974/1152.

*Examination, sampling and marking*

12. An inspector, upon production, if so required, of his authority, may:—

- (a) enter for the purposes of this order any premises and examine the said premises and mark any part thereof and:—
  - (i) examine, take samples and mark any consignment landed or reasonably suspected by him of having been landed or being likely to be landed in Great Britain, whether or not such consignment was or ought to have been accompanied by a certificate required by this order; and
  - (ii) examine and take samples of any plant pest or genetically manipulated material landed or reasonably suspected by him of having been landed or being likely to be landed in Great Britain;
- (b) for the purposes of the examinations referred to in paragraph (a) of this Article, open, authorise any person to open on his behalf or require the importer or any person in charge of the consignment to open, in such manner as the inspector may specify, any container, bundle or any other package comprising the whole or part of the consignment;
- (c) if and so far as is necessary for the purposes of the examinations referred to in paragraph (a) of this Article prohibit entirely, or to the extent indicated by him, the movement of any consignment or part of a consignment or of any material or object by means of which in his opinion a plant pest is likely to be spread;
- (d) enter for the purposes of this order any premises and examine and take samples of and mark any plant, plant product or soil which has been landed or is reasonably suspected by him of having been landed in Great Britain during the previous 12 months or which has been derived from or is reasonably suspected by him to have been derived from any plant or plant product as aforesaid which has been so landed.

*Procedure when plants, plant products or soil are landed or likely to be landed in contravention of this order.*

13.—(1) If it appears to an inspector that any plant, plant product or soil in a consignment or part of a consignment is likely to be landed in Great Britain and:—

- (a) if landed would be landed in contravention of the provisions of this order; or
- (b) such plant or plant product is not substantially free from any plant pest freedom from which is not a condition specified in column 3 of Schedule 2 in relation to that plant or plant product; or
- (c) such plant, plant product or soil is carrying or infected with a non-indigenous plant pest;

he may serve upon the importer or upon any person in control of the landing or unloading of the consignment from a vessel, aircraft, vehicle, hovercraft or freight container a notice:—

- (i) prohibiting the landing or unloading of the consignment containing the plant, plant product or soil; or
- (ii) specifying the manner in which the landing or unloading of the consignment is to be carried out and the precautions which are to be

taken in the course thereof and the further precautions which are to be taken immediately subsequent to such landing; or

- (iii) requiring that if landed the consignment or such part thereof as may be specified shall be destroyed within such time and in such manner as may also be specified in the notice.

(2) If it appears to an inspector at any time that any plant, plant product or soil in a consignment or part of a consignment has been landed in Great Britain and:—

- (a) such landing is in contravention of the provisions of this order; or  
(b) such plant or plant product is not substantially free from any plant pest freedom from which is not a condition specified in column 3 of Schedule 2 in relation to that plant or plant product; or  
(c) such plant, plant product or soil is carrying or infected with a non-indigenous plant pest;

he may serve upon the importer a notice:—

- (i) requiring him within such time and in such manner as may be specified in the notice to destroy the plants, plant products or soil contained in the consignment or such part of the consignment as may be specified in the notice and to take such other steps as may also be specified in the notice to prevent the spread of any plant pest which appears to the inspector to have been landed with the plant, plant product or soil; or  
(ii) requiring that the plants, plant products or soil contained in the consignment or such part thereof as may be specified in the notice shall not be removed from the premises also specified in the notice.

(3) Any notice served under paragraph (2) of this Article requiring the destruction of any plant, plant product or soil which is carrying or is infected with a plant pest may contain provisions deferring the said destruction for such period and under such conditions, if any, as may be specified in the notice.

(4) Where the destruction required by a notice served under paragraph (2) of this Article has been deferred in accordance with provisions in the notice referred to in paragraph (3) of this Article the importer upon whom the notice was served shall be permitted, within the period specified in the notice, to destroy the plant pest which the plant, plant product or soil to which the notice relates is carrying or by which it is infected, except that if the importer upon whom the notice was served shall have failed within the period specified in the notice to destroy that plant pest to the satisfaction of an inspector the destruction which the notice requires shall be carried out by the importer within two days following the expiry of the period specified in the notice or within such other period as may be specified in writing by an inspector.

(5) Any destruction required by a notice served under paragraph (1) or (2) of this Article shall be carried out by the importer upon whom the notice is served to the satisfaction of an inspector at a place designated by an inspector and, except with the written authority of the appropriate Minister or an inspector, none of the plants, plant products or soil shall be moved otherwise than directly to such a place.

(6) A notice served under paragraph (1) or (2) of this Article may be amended or withdrawn by an inspector by a further notice in writing served upon the person upon whom the first mentioned notice was served.

(7) If an importer shall fail to comply with the requirements of a notice served under paragraph (1) or (2) of this Article including where relevant a notice which has been amended under paragraph (6) of this Article then, without prejudice to any proceedings under this order consequent upon such failure, an inspector or a person authorised by him for the purpose on production if so required of his authority may for the purposes of this order enter any premises in which the plant, plant product or soil to which the notice relates may be and take such steps as appear to the inspector to be necessary either to ensure compliance with the requirements of the said notice or to remedy the consequences of the failure to carry them out and the cost of taking such steps shall be recoverable by the appropriate Minister as a civil debt from the person upon whom the notice was served.

(8) This Article shall apply without prejudice to the provisions of the Customs Act.

*Procedure when a plant pest or genetically manipulated material is landed or is likely to be landed in contravention of this order*

**14.**—(1) If it appears to an inspector that a plant pest or genetically manipulated material is likely to be landed or has been landed in Great Britain in contravention of this order, he may serve on the importer a notice requiring him to destroy the said plant pest or genetically manipulated material within such time and in such manner as may be specified in the notice and to take such steps as may also be specified in the notice to prevent its spread.

(2) A notice served under paragraph (1) of this Article may be amended or withdrawn by an inspector by a further notice in writing served upon the person upon whom the first mentioned notice was served.

(3) If an importer shall fail to comply with the requirements of a notice served under paragraph (1) of this Article including where relevant a notice which has been amended under paragraph (2) of this Article then, without prejudice to any proceedings under this order consequent upon such failure, an inspector or a person authorised by him for the purpose may on production if so required of his authority enter for the purposes of this order any premises where the plant pest or genetically manipulated material to which the notice relates may be and take such steps as appear to the inspector to be necessary either to ensure compliance with the requirements of the said notice or to remedy the consequences of the failure to carry them out and the cost of taking such steps shall be recoverable by the appropriate Minister as a civil debt from the person upon whom the notice was served.

(4) This Article shall apply without prejudice to the provisions of the Customs Act.

*Persons authorised by an inspector*

**15.** An inspector who authorises a person to act in accordance with paragraph (7) of Article 13 or paragraph (3) of Article 14 shall give to that person precise instructions in writing as to the steps which appear to the inspector to be necessary.

*Powers of an officer of Customs and Excise*

16.—(1) An inspector may request an officer of Customs and Excise (either orally or in writing) to prohibit the removal of plants, plant products or soil which have not been cleared from Customs charge until they have been examined by an inspector and such request may be made in relation to a particular consignment of plants, plant products or soil or in relation to plants, plant products or soil of any description specified in the request. A request made orally under this paragraph shall be confirmed in writing.

(2) Where a request has been made under paragraph (1) of this Article, the officer of Customs and Excise shall, by notice in writing served upon the importer, require that, until the plants, plant products or soil have been examined by an inspector, they shall not be removed from the place specified in the notice and he shall at the same time inform the inspector making the request under paragraph (1) of this Article of the contents of the notice.

(3) An inspector shall, without undue delay, examine any plant, plant product or soil in respect of which a notice has been served by an officer of Customs and Excise under this Article and shall advise that officer in writing of the terms of a notice issued and of any action taken by the inspector in accordance with this order.

(4) Where an officer of Customs and Excise has served a notice under paragraph (2) of this Article prohibiting removal of any plant, plant product or soil such plant, plant product or soil shall not, prior to its inspection by an inspector, be removed by any person contrary to the terms of the notice except with the written consent of either the said officer or an inspector.

*Licences*

17. Notwithstanding any provisions in this order any plant, plant product, plant pest, genetically manipulated material or soil may be landed in Great Britain under and in accordance with the conditions of a licence granted by the appropriate Minister.

*Information to be given*

18.—(1) Every person who has or has had in his possession or under his charge any plant, plant product, plant pest, genetically manipulated material or soil which the appropriate Minister or an inspector knows to have been landed or suspects has been landed in Great Britain or exported therefrom, and every person who as auctioneer, salesman or otherwise, has sold or offered for sale any such plant, plant product, plant pest, genetically manipulated material or soil shall, if so required by demand in writing by the appropriate Minister or inspector, give to the said Minister or inspector within the time specified in that demand all such information as he possesses as to the persons who have or have had or are likely to have or have had any such plant, plant product, plant pest, genetically manipulated material or soil in their possession or in their custody or control.

(2) Any information given under this Article shall not be available as evidence against the person giving the same in any prosecution, except in respect of an alleged failure to comply with this Article.

*Service of notices*

19.—(1) For the purposes of this order, a notice shall be deemed to have been served on any person if it is delivered to him personally or left for him at his last known place of abode or business or sent through the post in a letter addressed to him there.

(2) A notice may:—

- (a) in the case of a body corporate, be served on the secretary or clerk of that body at the address of the registered or principal office of that body;
- (b) in the case of a partnership, be served on a partner or a person having the control or management of the partnership business or in Scotland, the firm at the principal office of the partnership.

*Offences*

20.—(1)(a) A person shall be guilty of an offence if he contravenes or fails to comply:—

- (i) with a provision of this order; or
  - (ii) with a term or condition of any notice served or licence granted in accordance with the provisions of this order.
- (b) A person shall be guilty of an offence if he:—
- (i) knowingly or recklessly makes a false statement for the purposes of obtaining a phytosanitary certificate or a re-forwarding phytosanitary certificate required under the provisions of Article 9; or
  - (ii) wilfully obstructs or impedes an inspector or any person authorised by an inspector in the exercise of his powers by or under this order.

(c) A person guilty of an offence under paragraph (1)(a) or (1)(b) of this Article shall be liable on summary conviction to a fine not exceeding £100 or in respect of a second or subsequent offence shall be liable on summary conviction to a fine not exceeding £200.

(2) Paragraph (1) of this Article shall not apply to the landing of articles of any description which is prohibited by this order and for which a penalty may be imposed under the Customs Act.

In Witness whereof the Official Seal of the Minister of Agriculture, Fisheries and Food is hereunto affixed on 19th March 1980.

(L.S.)

*Peter Walker,*  
Minister of Agriculture, Fisheries and Food

20th March 1980.

*George Younger,*  
Secretary of State for Scotland

20th March 1980.

*Nicholas Edwards,*  
Secretary of State for Wales

## SCHEDULE 1

Article 5

## PLANT PESTS THE LANDING OF WHICH IS PROHIBITED

## PART I

*Live organisms of the animal kingdom at all stages of their development*

1. *Arrhenodes minutus* (Drury)—Oak Timber Worm.
2. *Cacoecimorpha pronubana* (Hübner)—Carnation Tortrix (moth).
3. *Ceratitis capitata* (Wiedemann)—Mediterranean Fruit Fly.
4. *Comstockaspis perniciosus* (Comstock) (syn. *Quadraspidotus perniciosus* (Comstock))—San José Scale.
5. *Conotrachelus nenuphar* (Herbst.)—Plum Curculio (weevil).
6. *Cydia molesta* (Busck.) (syn. *Laspeyresia molesta* (Busck))—Oriental Fruit Moth.
7. *Epichoristodes acerbella* (Walker)—African Carnation Tortrix (moth).
8. *Globodera rostochiensis* (Wollenweber) Behrens and *Globodera pallida* (Stone) Behrens—Potato Cyst Nematodes.
9. *Hylurgopinus rufipes* (Eichoff)—Native Elm Bark Beetle.
10. *Hyphantria cunea* (Drury)—Fall Webworm.
11. *Leptinotarsa decemlineata* (Say)—Colorado Beetle.
12. *Liriomyza huidobrensis* (Blanchard) *L. sativae* Blanchard, *L. trifolii* (Burgess) and *Amauromyza maculosa* Malloch—American Leafminers.
13. *Popillia japonica* Newman—Japanese Beetle.
14. *Pseudopityophthorus minutissimus* (Zimmerman) and *P. pruinus* (Eichoff)—Oak Bark Beetles.
15. *Rhagoletis cingulata* (Loew)—North American Cherry Fruit Fly.
16. *Rhagoletis fausta* (Osten Sacken)—Black Cherry Fruit Fly.
17. *Rhagoletis pomonella* (Walsh)—Apple Fruit Fly.
18. *Scaphoideus luteolus* Van Duzee—White Banded Elm Leaf Hopper.
19. *Scolytus multistriatus* (Marsham)—Small Elm Bark Beetle.
20. *Scolytus scolytus* (Fabricius)—Large Elm Bark Beetle.
21. *Spodoptera littoralis* (Boisduval)—Mediterranean Climbing Cutworm.
22. *Spodoptera litura* (Fabricius)—Asian and Pacific Cutworm.

## PART II

*Bacteria*

1. *Corynebacterium michiganense* pv. *sepedonicum* (Spieck. and Kothh.) Dye and Kemp, the cause of Potato Ring Rot.
2. *Erwinia amylovora* (Burr.) Winsl. *et al.*, the cause of Fire Blight of Rosaceae.
3. *Xanthomonas populi* Ridé and Ridé, the cause of Bacterial Canker of Poplar.

## PART III

*Cryptogams*

1. *Angiosorus solani* Thirum and O'Brien, the cause of Potato Smut.
2. *Ceratocystis fagacearum* (Bretz) Hunt, the cause of Oak Wilt.
3. *Ceratocystis ulmi* (Buism.) C. Moreau, the cause of Dutch Elm Disease.
4. *Chrysomyxa arctostaphyli* Diet., the cause of Spruce Witches' Broom Rust.
5. *Cronartium comptoniae* Arthur, the cause of Sweet Fern Blister Rust of Pine.
6. *Cronartium fusiforme* Hedgc. and Hunt ex Cumm., the cause of Fusiform Rust of Pine.
7. *Cronartium quercuum* (Berk.) Miyabe ex Shirai, the cause of Pine-Oak Gall Rust.
8. *Endocronartium harknessi* (J. P. Moore) Y. Hiratsuka (syn. *Peridermium harknessi* J. P. Moore), the cause of Western Gall Rust of Pine.
9. *Endothia parasitica* (Murrill) P. J. and H. W. Anderson, the cause of Chestnut Blight.
10. *Guignardia loricina* (Saw.) Yamamoto and Ito, the cause of Shoot Blight of Larch.
11. *Hypoxyton pruinaum* (Klotzsche) Cke., the cause of Hypoxyton Canker of Poplar.
12. *Melampsora farlowii* (Arthur) Davis, the cause of Tsuga Needle Rust.
13. *Melampsora medusae* Thuem, (syn. *M. albertensis* Arthur), the cause of Conifer-Aspen Rust.
14. *Mycosphaerella populorum* Thomp. (syn. *Septoria musiva* Peck), the cause of Septoria Canker of Poplar.
15. *Ophiostoma roboris* Georgescu and Teodoru, associated with Oak Vascular Mycosis.
16. *Poria weirii* Murr., the cause of Poria Root Rot.
17. *Synchytrium endobioticum* (Schilb.) Perc., the cause of Potato Wart Disease.

## PART IV

*Viruses and Virus-Like Pathogens*

1. Harmful viruses and virus-like pathogens of the genera *Cydonia* Mill., *Fragaria* L., *Malus* Mill., *Prunus* L., *Pyrus* L., *Ribes* L. and *Rubus* L.:—
  - (a) Apple Proliferation Disease mycoplasm
  - (b) Apricot Chlorotic Leaf Roll Disease mycoplasm
  - (c) Cherry Rasp Leaf virus (American)
  - (d) Peach Mosaic virus (American)
  - (e) Peach Phony rickettsia
  - (f) Peach Rosette Disease mycoplasm
  - (g) Peach Yellowing Disease mycoplasm
  - (h) Pear Decline Disease mycoplasm
  - (i) Plum Line Pattern virus (American)
  - (j) Plum Pox (Sharka) virus
  - (k) Raspberry Leaf Curl viruses (American)
  - (l) Strawberry Latent 'C' virus

- (m) Strawberry Vein Banding virus
  - (n) Strawberry Witches' Broom Disease mycoplasm
  - (o) X Disease mycoplasm
  - (p) Other harmful viruses and virus-like pathogens of the genera *Cydonia* Mill., *Fragaria* L., *Malus* Mill., *Prunus* L., *Pyrus* L., *Ribes* L. and *Rubus* L. which are not known to occur within the Member States.
2. Harmful viruses and virus-like pathogens of potato:—
    - (a) Potato Spindle Tuber viroid
    - (b) Potato Yellow Dwarf virus
    - (c) Potato Yellow Vein virus
    - (d) Other harmful viruses and virus-like pathogens of potato which are not known to occur within the Member States.
  3. Elm Phloem Necrosis Disease mycoplasm.
  4. Rose Wilt Disease pathogen.
  5. Tomato Bunchy Top viroid (syn. Potato Spindle Tuber viroid).
  6. Tomato Ring Spot virus.
  7. Harmful viruses and virus-like pathogens of grapevine (*Vitis* L.).

#### PART V

##### *Phanerogams*

*Arceuthobium* M. Bieb.—Non-European species of dwarf mistletoe.

## Article 6

## SCHEDULE 2

## CONDITIONS SUBJECT TO WHICH PLANTS AND PLANT PRODUCTS MAY BE LANDED

## PART IA

ROOTED PLANTS AND UNROOTED VEGETATIVE PROPAGATING MATERIAL OTHER THAN BULBS, CORMS, TUBERS OF POTATO AND SEEDS  
GENERAL CONDITIONS SUBJECT TO WHICH LANDING IS PERMITTED

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
1.	<p>All rooted plants, planted or intended for planting, and all unrooted vegetative propagating material, including cuttings, scions and budwood, but excluding aquarium plants directly consigned to Great Britain from within a Member State and plants of the genera:—</p> <p><i>Abies</i> Mill.  <i>Castanea</i> Mill.  <i>Larix</i> Mill.  <i>Picea</i> A. Dietr.  <i>Pinus</i> L.  <i>Populus</i> L.  <i>Pseudotsuga</i> Carr.  <i>Quercus</i> L.  <i>Tsuga</i> Carr.  <i>Ulmus</i> L.</p>	<p>(1) The consignment shall be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more re-forwarding phytosanitary certificates (Schedule 5) in accordance with Article 7 or 8 and Article 10.</p> <p>(2) The consignment shall be free from the plant pests specified in Schedule 1.</p> <p>(3) Where it has been directly consigned to Great Britain from within a third country, in addition to complying with the requirements specified in paragraphs (1) and (2) and paragraph (5) or (6) of this item, the consignment shall be free from Stem Borers (<i>Opogona sacchari</i> (Bojer) and other <i>Opogona</i> spp.).</p> <p>(4) Where the consignment has been directly consigned to Great Britain from within a Member State and the plants comprising it were grown outside Europe and are not free from soil, in addition to complying with the requirements specified in paragraphs (1) and (2) of this item, it shall be accompanied by an official statement that the soil associated with the plants has been found to be free from plant pests.</p> <p>(5) Where the consignment has been directly consigned to Great Britain from within a third country and the plants comprising it were grown in the Euro-Mediterranean area and are not free from soil, in addition to complying with the requirements specified in paragraphs (1), (2) and (3) of this item, it shall be accompanied by an official statement that the soil associated with the plants has been found to be free from plant pests.</p>

Schedule 2  
Part IA

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
2.	All rooted plants, planted or intended for planting, grown in the open air.	<p>(6) Where the consignment has been directly consigned to Great Britain from within a third country and the plants comprising it were grown outside the Euro-Mediterranean area, in addition to complying with the requirements specified in paragraphs (1), (2) and (3) of this item, the plant comprising it shall have been freed, within 14 days prior to export, from the medium in which they were grown and if other growing medium or packing material is added it shall be free from plant pests and soil.</p> <p>The consignment shall be accompanied by an official statement that the plants comprising it were grown on land:—</p> <p>(a) which is free from Potato Ring Rot (<i>Corynebacterium michiganense</i> pv. <i>sepedonicum</i> (Spieck. and Kotth.) Dye and Kemp) and Potato Wart Disease (<i>Synchytrium endobioticum</i> (Schilb.) Perc.); and</p> <p>(b) which has been officially sampled and the samples found to be free from Potato Cyst Nematodes (<i>Globodera pallida</i> (Stone) Behrens and <i>Globodera rostochiensis</i> (Wollenweber) Behrens).</p>
3.	All annual and biennial plants.	Where the consignment has been directly consigned to Great Britain from within a third country the plants comprising it shall have been grown in the Euro-Mediterranean area.
4.	<p>All herbaceous perennials of the families:—</p> <p style="padding-left: 40px;">Caryophyllaceae; Compositae; Cruciferae; Leguminosae; and Rosaceae</p> <p>except plants of:—</p> <p style="padding-left: 40px;">carnation (<i>Dianthus caryophyllus</i> L.) chrysanthemum (species, hybrids and cultivars of <i>Deudranthema</i> (DC.) Desmoul.) and strawberry (species, hybrids and cultivars of <i>Fragaria</i> L.).</p>	Where the consignment has been directly consigned to Great Britain from within a third country the plants comprising it shall have been grown in the Euro-Mediterranean area.

Schedule 2  
Part IA

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
5.	<p>All plants of trees and shrubs except plants of the genera:—</p> <p><i>Abies</i> Mill. <i>Castanea</i> Mill. <i>Larix</i> Mill. <i>Picea</i> A. Dietr. <i>Pinus</i> L. <i>Populus</i> L. <i>Pseudotsuga</i> Carr. <i>Quercus</i> L. <i>Tsuga</i> Carr. <i>Ulmus</i> L.</p>	<p>(1) Where the consignment has been directly consigned to Great Britain from within a third country:—</p> <p>(a) the plants comprising it shall not have been grown in South America or in any of the following countries or parts of countries namely:—</p> <p>Afghanistan Angola Australia Bangladesh Bhutan Botswana Burundi Hong Kong Iran Japan Korea (North) Kenya Lesotho Macao Malawi Mozambique Nepal New Zealand Pakistan The People's Republic of China The Republic of India The Republic of South Africa Rwanda South Korea South West Africa Southern Rhodesia Swaziland Taiwan Tanzania Uganda The Union of Soviet Socialist Republics—the Khabarovsk and Maritime Krai and the Kamchatka, Magadan and Sakhalin Oblasts of the Russian Soviet Federal Socialist Republic Zaire—Shaba province Zambia;</p> <p>(b) it shall be free from plant debris; and</p> <p>(c) the plants comprising it, except:—</p> <p>(i) plants of a description specified in column 2 of item 13 of this Schedule; and</p>

*Schedule 2*  
*Part IA*

<i>Item</i> (1)	<i>Description of plants and plant products</i> (2)	<i>Conditions subject to which landing is permitted</i> (3)
6.	All plants of deciduous trees and shrubs except plants of the genera:—  <i>Castanea</i> Mill. <i>Populus</i> L. <i>Quercus</i> L. <i>Ulmus</i> L.	(ii) plants grown in Europe shall have undergone effective treatment for the control of all stages of Homoptera and Lepidoptera and the method of treatment shall be declared in the phytosanitary certificate accompanying the plants.  Where the consignment has been directly consigned to Great Britain from within a third country and the plants comprising it were not grown in Europe the plants shall be in the dormant state and free from leaves.
7.	Plants of the family Solanaceae other than plants of potato.	(1) The consignment shall be:— (a) free from Stolbur Disease mycoplasma; and  (b) accompanied by an official statement that the plants comprising it were grown at a place of production at which no symptoms of Stolbur Disease mycoplasma have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.  (2) Where the consignment has been directly consigned to Great Britain from within a third country in addition to complying with the requirements specified in paragraph (1) of this item the plants comprising it shall have been grown in the Euro-Mediterranean area.
8.	Plants of the family Gramineae.	The consignment shall not have been directly consigned to Great Britain from within a third country.

## PART IB

ROOTED PLANTS AND UNROOTED VEGETATIVE PROPAGATING MATERIAL OTHER THAN BULBS, CORMS, TUBERS OF POTATO AND SEEDS  
ADDITIONAL CONDITIONS APPLYING IN PARTICULAR CASES

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
9.	Plants of the genus <i>Beta</i> L.	<p>(1) The consignment shall be free from Beet Leaf Curl virus.</p> <p>(2) The consignment shall be accompanied by:—</p> <p>(a) either an official statement that the plants comprising it were grown in a country in which Beet Leaf Curl virus is not known to occur; or</p> <p>(b) an official statement that the plants comprising it were grown in a region in which Beet Leaf Curl virus is not known to occur and at a place of production at which and in the immediate vicinity of which no symptoms of Beet Leaf Curl virus have been observed, during at least two inspections, since the beginning of the last complete cycle of vegetation.</p> <p>(3) The consignment shall be accompanied by:—</p> <p>(a) either an official statement that the plants comprising it were grown in an area within which during the last complete cycle of vegetation there has been no occurrence of Colorado Beetle (<i>Leptinotarsa decemlineata</i> (Say)) within 25 km of the place of production; or</p> <p>(b) an official statement that the plants comprising it have been cleaned so as to minimise contamination with soil and plant debris and to remove all fully expanded and unnecessary foliage.</p> <p>(4) The consignment shall not have been directly consigned to Great Britain from within a third country.</p>
10.	Plants of carnation ( <i>Dianthus caryophyllus</i> L.).	<p>(1) The consignment shall be free from:—</p> <p>(a) Carnation Bacterial Leaf Spot (<i>Pseudomonas woodsii</i> (E. F. Smith) Stev.);</p>

Schedule 2  
Part IB

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
		<p>(b) Carnation Wilts (<i>Erwinia chrysanthemi</i> pv. <i>dianthicola</i> (Hellmers) Dickey, <i>Fusarium oxysporum</i> Schl., <i>Phialophora cinerescens</i> (Wollenw.) V. Beyma and <i>Pseudomonas caryophylli</i> (Burkh.) Starr and Burkh.); and</p> <p>(c) Old World Bollworm (<i>Helicoverpa armigera</i> (Hübner)).</p> <p>(2) The consignment shall be accompanied by an official statement that the plants comprising it were:—</p> <p>(a) derived in a direct line from mother plants which have been found to be free from Carnation Wilts (<i>Erwinia chrysanthemi</i> pv. <i>dianthicola</i> (Hellmers) Dickey, <i>Fusarium oxysporum</i> Schl., <i>Phialophora cinerescens</i> (Wollenw.) V. Beyma and <i>Pseudomonas caryophylli</i> (Burkh.) Starr and Burkh.) in officially approved tests carried out within the last two complete cycles of vegetation and which, during the same period, have been examined and found to be free from Carnation Bacterial Leaf Spot (<i>Pseudomonas woodsii</i> (E. F. Smith) Stev.); and</p> <p>(b) grown at a place of production at which no symptoms of Carnation Bacterial Leaf Spot (<i>Pseudomonas woodsii</i> (E. F. Smith) Stev.) or Carnation Wilts (<i>Erwinia chrysanthemi</i> pv. <i>dianthicola</i> (Hellmers) Dickey, <i>Fusarium oxysporum</i> Schl., <i>Phialophora cinerescens</i> (Wollenw.) V. Beyma and <i>Pseudomonas caryophylli</i> (Burkh.) Starr and Burkh.) have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p> <p>(3) Where the consignment has been directly consigned to Great Britain from within a Member State in addition to complying with the conditions specified in paragraphs (1) and (2) of this item it shall be accompanied by:—</p> <p>(a) either an official statement that the plants comprising it were grown at a place of production</p>

Schedule 2  
Part IB

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
		<p>which is known to have been free, since the beginning of the last complete cycle of vegetation, from African Carnation Tortrix (moth) (<i>Epichoristodes acerbella</i> (Walker)), Asian and Pacific Cutworm (<i>Spodoptera litura</i> (Fabricius)), Old World Bollworm (<i>Helicoverpa armigera</i> (Hübner)) and Mediterranean Climbing Cutworm (<i>Spodoptera littoralis</i> (Boisduval)); or</p> <p>(b) an official statement that the plants comprising it have been treated in accordance with officially approved methods for the eradication of African Carnation Tortrix (moth) (<i>Epichoristodes acerbella</i> (Walker)), Asian and Pacific Cutworm (<i>Spodoptera litura</i> (Fabricius)), Old World Bollworm (<i>Helicoverpa armigera</i> (Hübner)), and Mediterranean Climbing Cutworm (<i>Spodoptera littoralis</i> (Boisduval)).</p> <p>(4) Where the consignment has been directly consigned to Great Britain from within a third country in addition to complying with the requirements specified in paragraphs (1) and (2) of this item it shall be accompanied by:—</p> <p>(a) an official statement that the plants comprising it either:—</p> <p>(i) were grown in a country which is known to be free from Asian and Pacific Cutworm (<i>Spodoptera litura</i> (Fabricius)), Old World Bollworm (<i>Helicoverpa armigera</i> (Hübner)), Mediterranean Climbing Cutworm (<i>Spodoptera littoralis</i> (Boisduval)) and Fall Armyworm (<i>Spodoptera frugiperda</i> (Smith)); or</p> <p>(ii) have been subjected to cold storage at 1.5°C for not less than 10 days;</p> <p>(b) an official statement that either:—</p> <p>(i) the plants comprising it were grown in a country which is</p>

Part IB

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
		<p>at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p> <p>(4) Where the consignment has been directly consigned to Great Britain from within a third country, in addition to complying with the requirements specified in paragraphs (1), (2) and (3) of this item:—</p> <p>(a) it shall be free from dead leaves and plant debris;</p> <p>(b) the plants comprising it shall have been grown in Africa, Europe or in one of the following countries namely:—</p> <p style="padding-left: 40px;">Australia Canada Israel Lebanon New Zealand Syria Turkey the United States of America (except the state of Hawaii);</p> <p>(c) the plants comprising it, if then were grown elsewhere than in Europe, shall have been grown in a region which is known to be free from Strawberry Weevils (<i>Anthonomus signatus</i> Say and <i>Anthonomus bisignifer</i> Schenkling);</p> <p>(d) it shall be accompanied by an official statement that the plants comprising it were grown at a place of production at which no symptoms of Strawberry Angular Leafspot (<i>Xanthomonas fragariae</i> Kennedy and King) have been observed in plants during at least one official inspection carried out since the beginning of the last complete cycle of vegetation; and</p> <p>(e) it shall be accompanied by an official statement that the plants comprising it were:—</p> <p style="padding-left: 40px;">(i) derived in a direct line from mother plants which have been officially inspected and found to be free from Strawberry Red Core (<i>Phytophthora fragariae</i> Hickman); and</p>

## Schedule 2

## Part IB

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
30.	Plants of rose (species, hybrids and cultivars of <i>Rosa</i> L.).	<p>(ii) grown at a place of production:—</p> <ul style="list-style-type: none"> <li>— in respect of which records have been maintained for not less than thirty years which records show that Strawberry Red Core (<i>Phytophthora fragariae</i> Hickman) has not occurred on that land during that period; or</li> <li>— which has been tested and found to be free from <i>Phytophthora fragariae</i> Hickman the cause of Strawberry Red Core.</li> </ul> <p>The consignment shall be accompanied by an official statement that the plants comprising it were taken from a crop in which no symptoms of Rose Wilt Disease pathogen (syn. Rose Dieback, Rose Leaf Curl, Rose Proliferation, Rose Spring Dwarf and Rose Stunt) have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p>
31.	Plants of grapevine ( <i>Vitis</i> L.)	<p>(1) The consignment shall be free from:—</p> <ul style="list-style-type: none"> <li>(a) Vine Black Rot (<i>Guignardia baccae</i> (Cav.) Jacz. syn. <i>Glomerella cingulata</i> (Stonem.) Spauld, and V. Schrenk.); and</li> <li>(b) Grape phylloxera (<i>Daktulosphaira vitifoliae</i> (Fitch)).</li> </ul> <p>(2) The consignment shall be accompanied by an official statement that the plants comprising it were grown at a place of production at which no symptoms of harmful viruses and virus-like pathogens of grape vine have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p> <p>(3) Where the consignment has been directly consigned to Great Britain from within a third country, in addition to complying with the requirements specified in paragraphs (1) and (2) of this item, it shall:—</p>

Schedule 2  
Part IB

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
32.	Plants of hop ( <i>Humulus lupulus</i> L.)	<p>(a) be free from</p> <p>(i) Vine Black Rot (<i>Guignardia bidwellii</i> (Ellis) Viala and Ravaz); and</p> <p>(ii) Canker of Grapevine (<i>Xanthomonas ampelina</i> Panagopoulos); and</p> <p>(b) be accompanied by an official statement that the plants comprising it were grown at a place of production at which no symptoms of Vine Black Rot caused by <i>Guignardia baccae</i> (Cav.) Jacz. (syn. <i>Glomerella cingulata</i> (Stonem.) Spauld. and V. Schrenk.) or <i>Guignardia bidwellii</i> (Ellis) Viala and Ravaz or Canker of Grapevine (<i>Xanthomonas ampelina</i> Panagopoulos) have been observed in plants during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p> <p>The consignment shall be:—</p> <p>(a) free from Verticillium Wilt of Hop (<i>Verticillium albo-atrum</i> (Reinke and Berth.)); and</p> <p>(b) accompanied by an official statement that the plants comprising it, the mother plants from which they were taken and the place of production at which they were grown have been officially inspected at least once since the beginning of the last complete cycle of vegetation and found to be free from symptoms of Verticillium Wilt of Hop (<i>Verticillium albo-atrum</i> (Reinke and Berth.)).</p>
33.	Plants of tomato ( <i>Lycopersicon esculentum</i> Mill. and hybrids and cultivars thereof).	<p>(1) The consignment shall be free from:—</p> <p>(a) Bacterial Canker of Tomato (<i>Corynebacterium michiganense</i> pv. <i>michiganense</i> (E. F. Smith) Jensen);</p> <p>(b) Bacterial Spot of Pepper and Tomato (<i>Xanthomonas campestris</i> pv. <i>vesicatoria</i> (Doidge) Dye);</p> <p>(c) Old World Bollworm (<i>Helicoverpa armigera</i> (Hübner));</p>

Schedule 2  
Part IB

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
		<p>(d) Potato Brown Rot (<i>Pseudomonas solanacearum</i> (E. F. Smith) E. F. Smith); and</p> <p>(e) Potato Spindle Tuber viroid (syn. Tomato Bunchy Top viroid).</p> <p>(2) Where the consignment has been directly consigned to Great Britain from within a third country, in addition to complying with the requirements specified in paragraph (1) of this item, it shall be accompanied by an official statement that the plants comprising it were grown:—</p> <p>(a) either in a region which is known to be free from Potato Spindle Tuber viroid (syn. Tomato Bunchy Top viroid); or</p> <p>(b) at a place of production at which no symptoms of Potato Spindle Tuber viroid (syn. Tomato Bunchy Top viroid) have been observed in plants during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p>
34.	Plants of aubergine ( <i>Solanum melongena</i> L.).	The consignment shall be free from Potato Brown Rot ( <i>Pseudomonas solanacearum</i> (E. F. Smith) E. F. Smith).
35.	Rhizomes of iris ( <i>Iris</i> L.)	The consignment shall be free from Botrytis Rot of Iris ( <i>Sclerotinia convoluta</i> Drayt.).
36.	Plants of leek ( <i>Allium ampeloprasum</i> var. <i>porrum</i> (L.) Gay) and chive ( <i>Allium schoenoprasum</i> L.).	<p>(1) The consignment shall be free from Stem Nematode (<i>Ditylenchus dipsaci</i> (Kühn) Filipjev).</p> <p>(2) Where the consignment has been directly consigned to Great Britain from within a third country, in addition to complying with the requirements specified in paragraph (1) of this item it shall be free from Allium Leaf-tip Dieback (<i>Mycosphaerella schoenoprasii</i> (Auersw.) Schroet) and Smut (<i>Ustilago allii</i> McAlpine).</p>

## PART IIA

BULBS AND CORMS FOR PLANTING: GENERAL CONDITIONS  
SUBJECT TO WHICH LANDING IS PERMITTED

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
37.	All bulbs and corms for planting.	<p>(1) The consignment shall be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more reforwarding phytosanitary certificates (Schedule 5) in accordance with Article 7 or 8 and Article 10.</p> <p>(2) The consignment shall be free from the plant pests specified in Schedule 1.</p> <p>(3) Where the consignment has been directly consigned to Great Britain from within a Member State and the plants comprising it were grown outside Europe and are not free from soil, in addition to complying with the requirements specified in paragraphs (1) and (2) of this item, it shall be accompanied by an official statement that the soil associated with the plants has been found to be free from plant pests.</p> <p>(4) Where the consignment has been directly consigned to Great Britain from within a third country and the plants comprising it were grown in the Euro-Mediterranean area and are not free from soil, in addition to complying with the requirements specified in paragraphs (1) and (2) of this item, it shall be accompanied by an official statement that the soil associated with the plants has been found to be free from plant pests.</p> <p>(5) Where the consignment has been directly consigned to Great Britain from within a third country and the plants comprising it were grown outside the Euro-Mediterranean area, in addition to complying with the requirements specified in paragraphs (1) and (2) of this item, the plants comprising it shall have been freed, within 14 days prior to export, from the medium in which they were grown and if other growing medium or packing material is added it shall be free from plant pests and soil.</p>
38.	All flower bulbs.	<p>The consignment shall be free from:—</p> <p>(a) Large Narcissus Fly (<i>Merodon equestris</i> (Fabricius));</p> <p>(b) Stem Nematode (<i>Ditylenchus dipsaci</i> (Kühn) Filipjev);</p>

Schedule 2  
Part IIA

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
39.	All flower corms.	<p>(c) Potato Tuber Nematode (<i>Ditylenchus destructor</i> Thorne); and</p> <p>(d) Hyacinth Black Slime (<i>Sclerotinia bulborum</i> (Wakk.) Rehm).</p> <p>The consignment shall be free from:—</p> <p>(a) Large Narcissus Fly (<i>Merodon equestris</i> (Fabricius));</p> <p>(b) Gladiolus Hard Rot (<i>Septoria gladioli</i> Pass.); and</p> <p>(c) Gladiolus Dry Rot (<i>Stromatinia gladioli</i> (Drayton) Whetzel).</p>

## PART IIB

BULBS AND CORMS FOR PLANTING: ADDITIONAL CONDITIONS APPLYING  
IN THE CASE OF CORMS OF GLADIOLUS AND BULBS OF THE GENERA *Tulipa* L.  
AND *Narcissus* L.

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
40.	Corms of gladiolus ( <i>Gladiolus</i> L.)	<p>(1) The consignment shall be free from:—</p> <p>(a) <i>Fusarium</i> Yellows and Corm Rot (<i>Fusarium oxysporum</i> Schl. f. sp. <i>gladioli</i> (Massey) Snyder and Hansen);</p> <p>(b) Gladiolus Scab and Neck Rot (<i>Pseudomonas gladioli</i> Severini); and</p> <p>(c) Gladiolus Rusts (<i>Uromyces</i> spp.).</p> <p>(2) The consignment shall be accompanied by:—</p> <p>(a) either an official statement that the corms comprising it originate in a country known to be free from Gladiolus Rusts (<i>Uromyces</i> spp.); or</p> <p>(b) an official statement that the corms comprising it were grown at a place of production at which no symptoms of Gladiolus Rusts (<i>Uromyces</i> spp.) have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p>
41.	Bulbs of the genera <i>Tulipa</i> L. and <i>Narcissus</i> L.	<p>The consignment shall be accompanied by an official statement that the bulbs comprising it were taken from a crop in which no symptoms of Stem Nematode (<i>Ditylenchus dipsaci</i> (Kühn) Filipjev) have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p>

## PART IIC

BULBS AND CORMS FOR PLANTING: ADDITIONAL CONDITIONS APPLYING  
IN THE CASE OF BULBS OF THE GENUS *Allium* L. CORMS OF FREESIA  
AND CROCUS AND BULBS OF IRIS

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
42.	Bulbs of the genus <i>Allium</i> L.	<p>(1) The consignment shall be free from Stem Nematode (<i>Ditylenchus dipsaci</i> (Kühn) Filipjev).</p> <p>(2) Where the consignment has been directly consigned to Great Britain from within a third country, in addition to complying with the requirements specified in paragraph (1) of this item, it shall be free from:—</p> <p style="padding-left: 2em;">(a) <i>Allium</i> Leaftip Dieback (<i>Mycosphaerella schoenoprasii</i> (Auersw.) Schroet); and</p> <p style="padding-left: 2em;">(b) Smut (<i>Ustilago allii</i> McAlpine).</p>
43.	Corms of freesia ( <i>Freesia</i> Klatt.).	<p>The consignment shall be free from:—</p> <p style="padding-left: 2em;">(a) Fusarium Yellows and Corm Rot (<i>Fusarium oxysporum</i> Schl. f. sp. <i>gladioli</i> (Massey) Snyder and Hansen); and</p> <p style="padding-left: 2em;">(b) Gladiolus Scab and Neck Rot (<i>Pseudomonas gladioli</i> Severini).</p>
44.	Corms of crocus ( <i>Crocus</i> L.) and bulbs of iris ( <i>Iris</i> L.).	<p>The consignment shall be free from Fusarium Yellows and Corm Rot (<i>Fusarium oxysporum</i> Schl. f. sp. <i>gladioli</i> (Massey) Snyder and Hansen).</p>

## PART IIIA

## POTATO TUBERS: GENERAL CONDITIONS SUBJECT TO WHICH LANDING IS PERMITTED

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
45.	Tubers of potato.	<p>(1) The consignment shall be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more re-forwarding phytosanitary certificates (Schedule 5) in accordance with Article 7 or 8 and Article 10.</p> <p>(2) The potatoes comprising the consignment shall have been directly derived from potatoes which were certified as seed potatoes in the United Kingdom, the Isle of Man, any of the Channel Islands or in one of the countries specified in paragraph (1) of column 3 of item 47 of this Schedule.</p> <p>(3) The consignment shall be free from:—</p> <p>(a) The plant pests specified in Schedule 1;</p> <p>(b) Potato Brown Rot (<i>Pseudomonas solanacearum</i> (E. F. Smith) E. F. Smith);</p> <p>(c) Potato Moth (<i>Phthorimaea operculella</i> (Zeller));</p> <p>(d) Potato Tuber Nematode (<i>Ditylenchus destructor</i> Thorne); and</p> <p>(e) Tomato Spotted Wilt virus.</p> <p>(4) Where the potatoes comprising it were grown in a Member State, the consignment, in addition to complying with the requirements specified in paragraphs (1), (2), (3), (6), (7), (8) and (9) of this item, shall be accompanied by an official statement that the potatoes:—</p> <p>(a) were grown in accordance with Community provisions to combat Potato Wart Disease (<i>Synchytrium endobioticum</i> (Schilb.) Perc.) (a); and</p> <p>(b) were grown in a country which is known to be free from Potato Ring Rot (<i>Corynebacterium michiganense</i> pv. <i>sepedonicum</i> (Spieck. and Kotth.) Dye and Kemp).</p>

(a) Council Directive 69/464/EEC (O.J. No. L. 323, 24.12.69 p. 1).

## Schedule 2

## Part IIIA

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
		<p>(5) Where the potatoes comprising it were grown in a third country, the consignment, in addition to complying with the requirements specified in paragraphs (1), (2), (3), (6), (7), (8) and (9) of this item, shall be accompanied by an official statement that the potatoes were grown:—</p> <p>(a) in a country known to be free from Potato Ring Rot (<i>Corynebacterium michiganense</i> pv. <i>sepedonicum</i> (Speck. and Kotth.) Dye and Kemp) and from races of Potato Wart Disease (<i>Synchytrium endobioticum</i> (Schilb.) Perc.) other than the common European race thereof;</p> <p>(b) at a place of production at which no symptoms of Potato Wart Disease (<i>Synchytrium endobioticum</i> (Schilb.) Perc.) have been observed during the 30 years prior to the date on which the phytosanitary certificate accompanying the consignment was issued; and</p> <p>(c) in a country in which Potato Spindle Tuber viroid is not known to occur.</p> <p>(6) The consignment shall be accompanied by an official statement:—</p> <p>(a) that, prior to export to Great Britain, the potatoes comprising it were riddled or brushed or washed under official supervision in an officially approved packing station in such a manner as to remove any Colorado Beetles (<i>Leptinotarsa decemlineata</i> (Say)) and to prevent re-infestation therewith; and</p> <p>(b) that, in the case of potatoes which have been stored prior to export to Great Britain:—</p> <p>(i) the potatoes were riddled, brushed or washed in the manner described in subparagraph (a) of this paragraph before they were stored; or</p> <p>(ii) the potatoes have been freed from soil and officially examined to ensure freedom</p>

*Schedule 2*  
*Part IIIA*

<i>Item</i> (1)	<i>Description of plants and plant products</i> (2)	<i>Conditions subject to which landing is permitted</i> (3)
		<p style="text-align: center;">from Colorado Beetle (<i>Lep- tinotarsa decemlineata</i> (Say)) within the tubers.</p> <p>(7) The consignment shall contain not more than 2% by weight of soil.</p> <p>(8) Where the potatoes comprising the consignment are not packed in new packages the containers in which they are packed shall:—</p> <p style="padding-left: 40px;">(a) be constructed in such manner and of such materials that they are capable of being effectively cleaned; and</p> <p style="padding-left: 40px;">(b) have been cleaned in accordance with an officially approved method.</p> <p>(9) the consignment shall have been transported from the packing station to the consignee's premises in containers which have been closed in such a manner as to prevent the entry of plant pests.</p>

## PART IIIB

POTATO TUBERS: ADDITIONAL CONDITIONS APPLYING IN THE CASE  
OF POTATO TUBERS FOR PLANTING

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
46.	Tubers of potato for planting.	<p>(1) The potatoes comprising the consignment shall have been grown in, consigned from within, and officially certified as seed potatoes in Northern Ireland, the Isle of Man, any of the Channel Islands or one of the following countries namely:—</p> <p style="padding-left: 40px;">Austria Belgium Federal Republic of Germany France Italy Luxembourg Netherlands Republic of Ireland Switzerland.</p> <p>(2) The consignment shall be free from Stolbur Disease mycoplasma.</p> <p>(3) The consignment shall be accompanied by an official statement:—</p> <p style="padding-left: 40px;">(a) that the potatoes comprising it were grown at a place of production at which no symptoms of Stolbur Disease mycoplasma have been observed on plants of potato and other plants of the family Solanaceae during at least one official inspection carried out since the beginning of the last complete cycle of vegetation; and</p> <p style="padding-left: 40px;">(b) that, on the basis of official soil sampling carried out not more than two years before the planting of the crop from which the potatoes comprising the consignment were derived but after the date of the harvest of the preceding potato crop, if any, grown on the same land, the land on which the potatoes comprising the consignment were grown is believed to be free from Potato Cyst Nematodes (<i>Globodera rostochiensis</i> (Wollenweber) Behrens and <i>Globodera pallida</i> (Stone) Behrens).</p> <p>(4) The consignment shall be accompanied by:—</p>

*Schedule 2  
Part IIIB*

<i>Item (1)</i>	<i>Description of plants and plant products (2)</i>	<i>Conditions subject to which landing is permitted (3)</i>
		<p>(a) either an official statement that the potatoes comprising it were grown in an area within which during the last complete cycle of vegetation there has been no occurrence of Colorado Beetle (<i>Leptinotarsa decemlineata</i> (Say)) within 25 km of the place of production; or</p> <p>(b) an official statement that the potatoes comprising it were grown at a place of production at which all potato crops have been officially inspected for the presence of Colorado Beetle (<i>Leptinotarsa decemlineata</i> (Say)) at each certification inspection during the growing season and at which official control measures have been applied against that plant pest on each occasion on which it has been found to be present.</p>

## PART IIIC

POTATO TUBERS: ADDITIONAL CONDITIONS APPLYING IN THE CASE  
OF POTATO TUBERS OTHER THAN POTATO TUBERS FOR PLANTING

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
47.	Tubers of potato other than tubers of potato for planting.	<p>(1) The potatoes shall have been grown in and consigned from within Northern Ireland, the Isle of Man, any of the Channel Islands or one of the following countries namely:—</p> <p>Algeria Austria Belgium Cyprus Egypt Federal Republic of Germany France Greece Israel Italy Lebanon Libya Luxembourg Malta Morocco Netherlands Portugal Republic of Ireland Spain Switzerland Tunisia.</p> <p>(2) The consignment shall be accompanied by:—</p> <p>(a) either an official statement that the potatoes comprising it were grown in an area within which during the last complete cycle of vegetation there has been no occurrence of Colorado Beetle (<i>Leptinotarsa decemlineata</i> (Say)) within 25 km of the place of production; or</p> <p>(b) an official statement that the potatoes comprising it were grown at a place of production at which all potatoes have been treated under official supervision during the growing season with an insecticide specifically to control Colorado Beetle (<i>Leptinotarsa decemlineata</i> (Say)) so as to prevent contamination of the harvested crop with that plant pest.</p>

## PART IVA

## SEEDS: GENERAL CONDITIONS SUBJECT TO WHICH LANDING IS PERMITTED

<i>Item</i> (1)	<i>Description of plants and plant products</i> (2)	<i>Conditions subject to which landing is permitted</i> (3)
48.	All seeds (except for true seeds of potato which are prohibited under Article 5(d)).	The consignment shall be free from the plant pests specified in Schedule 1.

## PART IVB

SEEDS: ADDITIONAL CONDITIONS APPLYING IN THE CASE OF SEEDS OF LETTUCE, LUCERNE, PEA AND TOMATO AND OF THE GENUS *Rubus* L.

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
49.	Seeds of:— lettuce ( <i>Lactuca sativa</i> L.) lucerne ( <i>Medicago sativa</i> L.) pea ( <i>Pisum sativum</i> L.) species of <i>Rubus</i> L. tomato ( <i>Lycopersicon esculentum</i> Mill. and hybrids and cultivars thereof for sowing.	The consignment shall be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more re-forwarding phytosanitary certificates (Schedule 5) in accordance with Article 7 or 8 and Article 10.
50.	Seeds of lettuce ( <i>Lactuca sativa</i> L.) for sowing.	The consignment shall be accompanied by an official statement that in a representative sample of the seeds comprising it no Lettuce Mosaic virus was found when:—  (i) not less than 3,000 seedlings were grown under officially approved conditions; or  (ii) not less than 5,000 seeds were inoculated to suitable indicator plants or were tested by equivalent methods.
51.	Seeds of lucerne ( <i>Medicago sativa</i> L.) for sowing.	(1) The consignment shall be free from:—  (a) Stem Nematode ( <i>Ditylenchus dipsaci</i> (Kühn) Filipjev); and  (b) Bacterial Wilt of Lucerne ( <i>Corynebacterium michiganense</i> p.v. <i>insidiosum</i> (McCull.) Dye and Kemp);  (c) Verticillium Wilt ( <i>Verticillium albo-atrum</i> Reinke and Berth.).  (2) The consignment shall be accompanied by:—  (a) either an official statement that the seeds comprising it were fumigated prior to export for the control of Stem Nematode ( <i>Ditylenchus dipsaci</i> (Kühn) Filipjev) in accordance with the following method:—  Fumigation with methyl bromide gas for between 20 and 30 hours at a concentration such that in any part of the consignment the product of the average concentration in g/m <sup>3</sup> and the exposure

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
		<p>(a) either an official statement that the seeds comprising it were taken from plants which were grown in a region in which Tomato Bunchy Top viroid (syn. Potato Spindle Tuber viroid) is not known to occur; or</p> <p>(b) an official statement that the seeds comprising it were taken from plants which were grown at a place of production at which no symptoms of Tomato Bunchy Top viroid (syn. Potato Spindle Tuber viroid) have been observed in any plants during at least one official inspection carried out since the beginning of the last complete cycle of vegetation; and</p> <p>(c) an official statement that the seeds comprising it were extracted by an acid extraction method.</p> <p>(3) Where the consignment has been directly consigned to Great Britain from within a third country, in addition to complying with the requirements specified in paragraphs (1) and (2) of this item, it shall be accompanied by:—</p> <p>(a) an official statement that the seeds comprising it were taken from plants which were grown either:—</p> <p style="padding-left: 2em;">(i) in a region in which Bacterial Canker of Tomato (<i>Corynebacterium michiganense</i> pv. <i>michiganense</i> (E. F. Smith) Jensen) is not known to occur; or</p> <p style="padding-left: 2em;">(ii) at a place of production at which no symptoms of Bacterial Canker of Tomato (<i>Corynebacterium michiganense</i> pv. <i>michiganense</i> (E. F. Smith) Jensen) have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation; and</p> <p>(b) an official statement that the seeds comprising it were taken from plants which were grown either:—</p>

Schedule 2  
Part IVB

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
		<p>(i) in a region in which Tomato Bacterial Spot (<i>Xanthomonas campestris</i> pv. <i>vesicatoria</i> (Doidge) Dye) is not known to occur; or</p> <p>(ii) at a place of production at which no symptoms of Tomato Bacterial Spot (<i>Xanthomonas campestris</i> pv. <i>vesicatoria</i> (Doidge) Dye) have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p>

## PART IVC

SEEDS: ADDITIONAL CONDITIONS APPLYING IN THE CASE OF SEEDS  
OF THE FAMILIES CRUCIFERAE AND GRAMINEAE AND OF  
THE GENUS *Trifolium*

<i>Item</i> (1)	<i>Description of plants and plant products</i> (2)	<i>Conditions subject to which landing is permitted</i> (3)
55.	Seeds from plants of the families Cruciferae and Gramineae and of the genus <i>Trifolium</i> for sowing.	Where the consignment has been directly consigned to Great Britain from within a third country and the seeds comprising it were grown in Argentina, Australia or New Zealand it shall:—  (a) be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more re-forwarding phytosanitary certificates (Schedule 5) in accordance with Articles 8 and 10; and  (b) be free from the Stem Weevil ( <i>Hyperodes bonariensis</i> Kuschel.)

## PART IVD

SEEDS: ADDITIONAL CONDITIONS APPLYING IN THE CASE OF  
SEEDS OF ONION, LEEK AND CHIVE

<i>Item</i> (1)	<i>Description of plants and plant products</i> (2)	<i>Conditions subject to which landing is permitted</i> (3)
56.	Seeds of:—  onion ( <i>Allium cepa</i> L.) leek ( <i>Allium ampeloprasum</i> var. <i>porrum</i> (L.) Gay) chive ( <i>Allium schoenoprasum</i> L.)  for sowing.	The consignment shall be free from Stem Nematode ( <i>Ditylenchus dipsaci</i> (Kühn) Filipjev).

## PART VA

RAW FRUIT: GENERAL CONDITIONS SUBJECT TO WHICH LANDING  
IS PERMITTED

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
57.	All raw fruit.	<p>(1) The consignment shall be free from the plant pests specified in Schedule 1 other than San José Scale (<i>Comstockaspis perniciosus</i> (Comstock) syn. <i>Quadraspidiotus perniciosus</i> (Comstock)).</p> <p>(2) The consignment shall be substantially free from young and active stages of San José Scale (<i>Comstockaspis perniciosus</i> (Comstock) syn. <i>Quadraspidiotus perniciosus</i> (Comstock)) during the period 16 September to 30 April (both dates inclusive) and free from that plant pest during the period 1 May to 15 September (both dates inclusive).</p>

## PART VB

RAW FRUIT: ADDITIONAL CONDITIONS APPLYING IN THE CASE OF RAW FRUIT OF THE GENERA *Citrus*, *Cydonia*, *Malus*, *Prunus* AND *Pyrus*

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
58.	Raw fruit from plants of the genera:— <i>Cydonia</i> Mill. <i>Malus</i> Mill. <i>Prunus</i> L. <i>Pyrus</i> L. <i>Citrus</i> L. other than lemons ( <i>Citrus limon</i> (L.) Burm.) and citron ( <i>Citrus medica</i> L.).	The consignment shall be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more re-forwarding phytosanitary certificates (Schedule 5) in accordance with Article 7 or 8 and Article 10.
59.	Raw fruit from plants of the genera:— <i>Cydonia</i> Mill. <i>Malus</i> Mill. <i>Prunus</i> L. <i>Pyrus</i> L.	<p>(1) The consignment shall be free from Peach Twig Borer (<i>Anarsia lineatella</i> Zeller).</p> <p>(2) Where the consignment has been directly consigned to Great Britain from within a third country and the fruit comprising it was grown in North America, Egypt or Japan, in addition to complying with the requirements of paragraphs (1) and (4) of this item, the consignment shall be accompanied by an official statement that the fruit has been officially examined and found to be free from Fruit Brown Rot (<i>Monilinia fructicola</i> (Wint.) Honey).</p> <p>(3) Where the consignment has been directly consigned to Great Britain from within a third country and the fruit comprising it was grown in Central America, South America, Australia or New Zealand, in addition to complying with the requirements of paragraphs (1) and (4) of this item, the consignment shall be accompanied by:—</p> <p>(a) either an official statement that the fruit originates in an area known to be free from Fruit Brown Rot (<i>Monilinia fructicola</i> (Wint.) Honey); or</p> <p>(b) an official statement that no symptoms of Fruit Brown Rot (<i>Monilinia fructicola</i> (Wint.) Honey) have been observed on plants at the place of production or on the fruit during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p> <p>(4) Where the consignment has been directly consigned to Great Britain</p>

Schedule 2  
Part VB

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
		<p>from within a third country the fruit comprising it, in addition to complying with the requirements specified in paragraph (1) and paragraph (2) or (3) of this item shall be free from:—</p> <p>(a) Oriental Peach Moth (<i>Carposina niponensis</i> Walsingham syn. <i>Carposina sasakii</i> Matsumura);</p> <p>(b) Asian Fruit Moth (<i>Grapholita inopinata</i> Heinrich syn. <i>Cydia inopinata</i> (Heinrich));</p> <p>(c) Lesser Apple Worm (<i>Enarmonia prunivora</i> (Walsh));</p> <p>(d) Cherry Fruit Worm (<i>Enarmonia packardi</i> Zeller);</p> <p>(e) Apple Curculio (<i>Tachypterellus quadrigibbus</i> (Say));</p> <p>(f) Western Cherry Fruit Fly (<i>Rhagoletis indifferens</i> Curran);</p> <p>(g) Queensland Fruit Fly (<i>Dacus tryoni</i> Froggatt);</p> <p>(h) Japanese Cherry Fruit Fly (<i>Rhacochlaena japonica</i> Ito); and</p> <p>(i) Asian Pear Bud Borer (<i>Nephopteryx pirivorella</i> (Matsumura)).</p>
60.	<p>Raw fruit of cherry:—</p> <p style="text-align: center;"><i>Prunus avium</i> L., <i>Prunus cerasus</i> L.,</p> <p>and hybrids and cultivars thereof.</p>	<p>The consignment shall be free from the European Cherry Fruit Fly (<i>Rhagoletis cerasi</i> (L.)).</p>
61.	<p>Raw fruit of apple (<i>Malus pumila</i> Mill. and cultivars thereof).</p>	<p>Where the consignment has been directly consigned to Great Britain from within a third country it shall be free from:—</p> <p>(a) Apple Fruit Canker (<i>Guignardia piricola</i> (Nose) Yamamoto); and</p> <p>(b) Alternaria Blotch (<i>Alternaria mali</i> Roberts).</p>
62.	<p>Raw fruit of pear (<i>Pyrus communis</i> L. and cultivars thereof).</p>	<p>Where the consignment has been directly consigned to Great Britain from within a third country it shall be free from:—</p> <p>(a) Pear Black Spot (<i>Alternaria kikuchiana</i> Tanaka); and</p> <p>(b) Pear Scab (<i>Venturia nashicola</i> Tanaka and Yamamoto).</p>

## PART VC

RAW FRUIT: ADDITIONAL CONDITIONS APPLYING IN THE CASE OF RAW FRUIT OF THE GENERA *Fragaria*, *Ribes*, *Rubus*, *Vaccinium* AND *Vitis*

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
63.	Raw fruit from plants of the genera:— <i>Fragaria</i> L. <i>Ribes</i> L. <i>Rubus</i> L. <i>Vaccinium</i> L. <i>Vitis</i> L.	Where the consignment has been directly consigned to Great Britain from within a third country it shall be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more re-forwarding phytosanitary certificates (Schedule 5) in accordance with Articles 8 and 10.
64.	Raw fruit of strawberry (species, hybrids and cultivars of <i>Fragaria</i> L.).	Where the consignment has been directly consigned to Great Britain from within a third country it shall be free from plant debris, leaves and leaf pieces.
65.	Raw fruit of grape vine (species, hybrids and cultivars of <i>Vitis</i> L.).	Where the consignment has been directly consigned to Great Britain from within a third country it shall be free from Vine Black Rot ( <i>Guignardia bidwellii</i> (Ellis) Viala and Ravaz) and free from plant debris, leaves and leaf pieces.
66.	Raw fruit from plants of the genera:— <i>Ribes</i> L. <i>Rubus</i> L.	Where the consignment has been directly consigned to Great Britain from within a third country it shall be free from:—  (a) North American Currant Fruit Flies ( <i>Epochra canadensis</i> (Loew) and <i>Rhagoletis ribicola</i> Doane); and  (b) plant debris, leaves and leaf pieces.
67.	Raw fruit from plants of the genus <i>Vaccinium</i> L.	Where the consignment has been directly consigned to Great Britain from within a third country it shall be free from:—  (a) Blueberry Maggot ( <i>Rhagoletis mendax</i> Curran); and  (b) plant debris, leaves and leaf pieces.

**PART VIA****RAW VEGETABLES: GENERAL CONDITIONS SUBJECT TO WHICH  
LANDING IS PERMITTED**

<i>Item (1)</i>	<i>Description of plants and plant products (2)</i>	<i>Conditions subject to which landing is permitted (3)</i>
68.	All raw vegetables.	The consignment shall be free from the plant pests specified in Schedule 1.

## PART VIB

## RAW VEGETABLES: ADDITIONAL CONDITIONS APPLYING IN PARTICULAR CASES

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
69.	Raw vegetables from plants of the genera:— <i>Beta</i> L. <i>Brassica</i> L. <i>Cichorium</i> L. <i>Daucus</i> L. <i>Lactuca</i> L. with foliage.	<p>(1) The consignment shall be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more re-forwarding phytosanitary certificates (Schedule 5) in accordance with Article 7 or 8 and Article 10.</p> <p>(2) During the period 1 April to 14 October (both dates inclusive) the consignment shall be accompanied by either:—</p> <p>(a) an official statement that the vegetables comprising it were grown under permanent structures of glass or plastic; or</p> <p>(b) an official statement that the vegetables comprising it were grown in an area within which during the last complete cycle of vegetation there has been no occurrence of Colorado Beetle (<i>Leptinotarsa decemlineata</i> (Say)) within 25 km of the place of production; or</p> <p>(c) an official statement that the vegetables comprising it were grown in an area in which all potato crops are treated with an insecticide specifically to control Colorado Beetle (<i>Leptinotarsa decemlineata</i> (Say)) and that any potato or tomato crop grown on the same land as the vegetables during the 12 months prior to the date on which the phytosanitary certificate accompanying the consignment was issued were treated under official supervision to prevent the contamination of the soil with Colorado Beetle (<i>Leptinotarsa decemlineata</i> (Say)).</p> <p>(3) The consignment shall have been cleaned under official supervision in such a way as to remove all Colorado Beetles (<i>Leptinotarsa decemlineata</i> (Say)), to remove un-needed foliage and to minimise contamination with soil and debris.</p> <p>(4) Where the vegetables comprising the consignment are not packed in new packages the containers in which they are packed shall:—</p>

Schedule 2  
Part VIB

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
70	<p>Raw vegetables not intended for planting except:—            asparagus (<i>Asparagus officinalis</i> L.)              aubergine (<i>Solanum melongena</i> L.);            beans (<i>Vicia faba</i> L. and <i>Phaseolus</i> L.) other than in pod;            capsicum, chilli, paprika, peppers and pimento (<i>Capsicum</i> L.);            globe artichoke (<i>Cynara scolymus</i> L.);            mushroom (<i>Agaricus bisporus</i> (J. Lange) Imbach) and other edible fungi;            peas (<i>Pisum sativum</i> L.) other than in pod; and            raw vegetables of the family Cucurbitaceae.</p>	<p>(a) be constructed in such manner and of such materials that they are capable of being effectively cleaned; and</p> <p>(b) have been cleaned in accordance with an officially approved method.</p> <p>(5) The consignment shall have been transported from the packing station to the consignee's premises in containers which have been closed in such a manner as to prevent the entry of plant pests.</p> <p>Where the consignment has been directly consigned to Great Britain from within a third country and the vegetables comprising it were grown in a European country (other than a Member State), the Republic of South Africa, the Americas, Australia, New Zealand, the Union of Soviet Socialist Republics, the People's Republic of China, Japan, Korea (North), South Korea, Taiwan, Hong Kong or Macao the vegetables comprising it shall:—</p> <p>(a) have been washed to remove any soil from roots; and</p> <p>(b) be free from beetle pests (Coleoptera).</p>

## PART VIIA

CUT FLOWERS AND PARTS OF PLANTS USED FOR DECORATION: GENERAL  
CONDITIONS SUBJECT TO WHICH LANDING IS PERMITTED

<i>Item</i> (1)	<i>Description of plants and plant products</i> (2)	<i>Conditions subject to which landing is permitted</i> (3)
71.	All cut flowers and parts of plants used for decoration.	<p>(1) The consignment shall be free from the plant pests specified in Schedule 1 other than Carnation Tortricids (<i>Cacoecimorpha pronubana</i> (Hübner) and <i>Epichoristodes acerbella</i> (Walker)).</p> <p>(2) The consignment shall be substantially free from Carnation Tortricids (<i>Cacoecimorpha pronubana</i> (Hübner) and <i>Epichoristodes acerbella</i> (Walker)) during the period 16 October to 30 April (both dates inclusive) and free from those plant pests during the period 1 May to 15 October (both dates inclusive).</p>

## PART VIIB

CUT FLOWERS AND PARTS OF PLANTS USED FOR DECORATION: ADDITIONAL CONDITIONS APPLYING IN THE CASE OF CUT FLOWERS AND PARTS OF PLANTS USED FOR DECORATION OF THE GENERA *Castanea*, *Dendranthema*, *Dianthus*, *Gladiolus*, *Prunus*, *Quercus*, *Rosa*, *Salix*, *Syringa* AND *Vitis*

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
72.	Cut flowers and parts of plants used for decoration of the genera:— <i>Castanea</i> Mill. <i>Dendranthema</i> (DC.) Desmoul. (florists' chrysanthemum) <i>Dianthus</i> L. <i>Gladiolus</i> L. <i>Prunus</i> L. <i>Quercus</i> L. <i>Rosa</i> L. <i>Salix</i> L. <i>Syringa</i> L. <i>Vitis</i> L.	The consignment shall be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more re-forwarding phytosanitary certificates (Schedule 5) in accordance with Article 7 or 8 and Article 10.
73.	Cut flowers of florists' chrysanthemum (species, hybrids and cultivars of <i>Dendranthema</i> (DC.) Desmoul.).	<p>(1) The consignment shall be free from:—</p> <p>(a) Chrysanthemum White Rust (<i>Puccinia horiana</i> P. Henn.);</p> <p>(b) Chrysanthemum Midge (<i>Rhopalomyia chrysanthemi</i> (Ahlberg) syn. <i>Diarthronomyia chrysanthemi</i> (Ahlberg)); and</p> <p>(c) Chrysanthemum Ray Blight (<i>Didymella chrysanthemi</i> (Tassi) Garibaldi and Gullino).</p> <p>(2) Where the consignment has been directly consigned to Great Britain from within a third country, in addition to complying with the requirements specified in paragraph (1) of this item, it shall be accompanied by:—</p> <p>(a) either an official statement that the crop from which the flowers were taken was grown in a country in which Chrysanthemum White Rust (<i>Puccinia horiana</i> P. Henn.) is not known to occur; or</p> <p>(b) an official statement that the crop from which the flowers were taken was officially inspected and found to be free from Chrysanthemum White Rust (<i>Puccinia horiana</i> P. Henn.).</p>
74.	Cut flowers of gladiolus ( <i>Gladiolus</i> L.)	(1) The consignment shall be free from Gladiolus Rusts ( <i>Uromyces</i> spp.).

## Schedule 2

## Part VII B

Item (1)	Description of plants and plant products (2)	Conditions subject to which landing is permitted (3)
		<p>(2) Where the consignment has been directly consigned to Great Britain from within a Member State, in addition to complying with the requirements specified in paragraph (1) of this item, it shall be accompanied by:—</p> <p>(a) either an official statement that the plants comprising it were grown in a country which is known to be free from <i>Gladiolus Rusts</i> (<i>Uromyces</i> spp.); or</p> <p>(b) an official statement that the plants comprising it were grown at a place of production at which no symptoms of <i>Gladiolus Rusts</i> (<i>Uromyces</i> spp.) have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p> <p>(3) Where the consignment has been directly consigned to Great Britain from within a third country, in addition to complying with the requirements specified in paragraph (1) of this item, it shall:—</p> <p>(a) either be accompanied by an official statement that the plants comprising it were grown in a country which is known to be free from <i>Gladiolus Rusts</i> (<i>Uromyces</i> spp.); or</p> <p>(b) be landed in Great Britain during the period 1 November to 31 May (both dates inclusive) and be accompanied by an official statement that the plants comprising it were grown at a place of production at which no symptoms of <i>Gladiolus Rusts</i> (<i>Uromyces</i> spp.) have been observed during at least one official inspection carried out since the beginning of the last complete cycle of vegetation.</p>

## PART VIIC

CUT FLOWERS AND PARTS OF PLANTS USED FOR DECORATION: ADDITIONAL  
CONDITIONS APPLYING IN THE CASE OF CUT FLOWERS OF THE GENUS *Protea*

<i>Item</i> (1)	<i>Description of plants and plant products</i> (2)	<i>Conditions subject to which landing is permitted</i> (3)
75.	Cut flowers of the genus <i>Protea</i> L.	Where the consignment has been directly consigned to Great Britain from within a third country and the plants comprising it were grown in the Republic of South Africa it shall be accompanied by a phytosanitary certificate (Schedule 4) and, as appropriate, one or more re-forwarding phytosanitary certificates (Schedule 5) in accordance with Articles 8 and 10.

## Article 9

## SCHEDULE 3

PLANTS, PLANT PRODUCTS AND SOIL TO BE ACCOMPANIED BY A PHYTOSANITARY CERTIFICATE OR A RE-FORWARDING PHYTOSANITARY CERTIFICATE WHEN EXPORTED TO A MEMBER STATE

Item (1)	Description of plants, plant products and soil (2)
1.	Plants planted or intended for planting other than seeds and aquarium plants.
2.	Seeds of lucerne ( <i>Medicago sativa</i> L.), peas ( <i>Pisum sativum</i> L.), tomato ( <i>Lycopersicon esculentum</i> Mill. and hybrids and cultivars thereof) and of the genus <i>Rubus</i> L.
3.	<p>Cut flowers and other parts of plants intended to be used for decoration derived from plants of the genera:—</p> <p><i>Castanea</i> Mill.  <i>Dendranthema</i> (DC.) Desmoul. (florists' chrysanthemum)  <i>Dianthus</i> L.  <i>Gladiolus</i> L.  <i>Prunus</i> L.  <i>Quercus</i> L.  <i>Rosa</i> L.  <i>Salix</i> L.  <i>Syringa</i> L.  <i>Vitis</i> L.</p>
4.	<p>Raw fruit from plants of the genera:—</p> <p><i>Citrus</i> L., other than lemons (<i>Citrus limon</i> (L.) Burm.) and citron (<i>Citrus medica</i> L.)  <i>Cydonia</i> Mill.  <i>Malus</i> Mill.  <i>Prunus</i> L.  <i>Pyrus</i> L.</p>

## SCHEDULE 4 . Articles 3, 7, 8, 9 and 10

## FORM OF PHYTOSANITARY CERTIFICATE

Phytosanitary Certificate  
PLANT PROTECTION SERVICE

of ..... No. ....  
This is to certify that the plants, parts of plants or plant products described below  
or representative samples of them were thoroughly examined on (date) .....  
by (name) ..... an  
authorised officer of the (service) ..... and were found  
to the best of his knowledge to be substantially free from injurious diseases and  
pests; and that the consignment is believed to conform with the current phyto-  
sanitary regulations of the importing country both as stated in the additional  
declaration hereon and otherwise.

Fumigation or disinfection treatment (if any)

Date ..... Treatment .....  
Duration of Exposure ..... Chemical and Concentration .....

Additional Declaration

.....19.....

(Signature)

(Rank)

(Stamp of the Service)

## Description of the Consignment

Name and address of exporter: .....  
Name and address of consignee: .....  
Number and description of packages: .....  
Distinguishing marks: .....  
Origin (Grown at)\*: .....  
Means of conveyance: .....  
Point of entry: .....  
Quantity and name of produce: .....  
Botanical name: .....

\*State precise location.

NOTE:

The certificate shall be completed in typescript or in block capitals.

Articles 3, 7, 8, 9 and 10

SCHEDULE 5

## FORM OF RE-FORWARDING PHYTOSANITARY CERTIFICATE

No. ....

Re-forwarding Phytosanitary Certificate  
PLANT PROTECTION SERVICE

of: ..... (country of re-export)

To: Plant Protection Service(s)

of: ..... (country (countries) of destination)

## DESCRIPTION OF CONSIGNMENT

Name and address of exporter: .....

Name and address of consignee: .....

Number and description of packages: .....

Distinguishing marks: .....

Place of origin: .....

Declared means of conveyance: .....

Declared point of entry: .....

Name of produce and quantity declared: .....

Botanical name of plants: .....

This is to certify that the plants or plant products described above were imported into..... (country of re-export) from.....

(country of origin) covered by phytosanitary certificate No.....

(\*) original  certified true copy  of which is attached to this certificate; that(\*) they are packed  repacked  in original containers  new containers ;(\*) that based on the original phytosanitary certificate  and additional(\*) inspection  they are considered to conform with the current plant health regulations of the importing country, and that during storage in.....

(country of re-export) this consignment has not been subject to the risk of infestation or infection.

(\*) Tick appropriate box.

## DISINFESTATION AND/OR DISINFECTION TREATMENT

Date: ..... Treatment: .....

Chemical (active ingredient): .....

Duration and temperature: .....

Concentration: .....

Additional information: .....

Additional declaration:

Place of issue: ..... Name of Authorised Officer: .....

Date: .....

(Signature)

(Stamp of the Service)

(Rank)

## NOTE:

The certificate shall be completed in typescript or in block capitals

EXPLANATORY NOTE  
(*This Note is not part of the Order*)

This Order, made by the Minister of Agriculture, Fisheries and Food, the Secretary of State for Scotland and the Secretary of State for Wales, revokes and supercedes the Importation of Plants, Plant Produce and Potatoes (Health) (Great Britain) Order 1971 and together with a parallel Order made by the Forestry Commissioners implements those provisions of Council Directive 77/93/EEC (OJ No. L.26, 31.1.77, p. 20) (as amended by two Council Directives adopted on 18th March 1980) which prohibit the import into Member States of the European Community of certain pests harmful to plants and which prescribe controls on the movement across Community Frontiers of plants, plant products and soil. The Order also prescribes controls additional to those prescribed by the directive in respect of the import of genetically manipulated material, in respect of direct trade in plants, plant products and soil with countries other than Member States and in respect of restrictions on the planting of potatoes in Great Britain.

The Order:—

- (a) prohibits the landing in Great Britain of certain plants and plant products and certain plant pests (Article 5 and Schedule 1), (Articles 3, 4 and 5 of the directive);
- (b) prescribes the conditions under which certain plants and plant products are permitted to be landed in Great Britain (Article 6, Schedule 2), (Articles 3, 4, 5 and 10 of the directive);
- (c) prescribes the circumstances in which plants and plant products are to be accompanied by phytosanitary certificates and re-forwarding phytosanitary certificates when landed in Great Britain, prescribes the form of such certificates and prescribes the manner in which they are to be completed (Articles 7, 8 and 10 and Schedules 4 and 5), (Articles 6, 7, 8, 9 and 12 of the directive);
- (d) requires that when exported to another Member State certain plants and plant products are to be accompanied by a phytosanitary certificate or a re-forwarding phytosanitary certificate (Article 9 and Schedule 3), (Articles 6, 7, 8 and 9 of the directive);
- (e) prohibits the planting in Great Britain of potatoes grown elsewhere than in the United Kingdom, the Isle of Man, the Channel Islands, another Member State of the EEC (except Denmark), Switzerland or Austria (Article 11);
- (f) exempts, from certain of its provisions, plants and plant products grown in Great Britain and plants and plant products landed in passengers' baggage (Article 4);
- (g) provides powers of entry, examination and sampling (Article 12) and powers to enable remedial action to be taken when plants, plant products or plant pests are landed in contravention of the Order (Articles 13 and 14);
- (h) provides that officers of Customs and Excise may detain plants and plant products for examination by an inspector (Article 16);
- (i) provides that the landing in Great Britain of a plant, plant product or plant pest the landing of which is prohibited by the Order may be authorised by licence (Article 17), (Article 14 of the directive);
- (j) requires that persons having in their possession information regarding any plant, plant product or plant pest landed in or exported from Great Britain may be required to disclose that information (Article 18);
- (k) provides for offences in connection with the Order and lays down the penalties which may be imposed in respect of contraventions of the Order (Article 20).
