EXPLANATORY NOTE

(This Note is not part of the Order.)

This Order amends the Brucellosis and Tuberculosis Compensation (Scotland) Order 1978 in respect of the maximum amount of compensation payable for cattle slaughtered by the Secretary of State because they are affected with brucellosis or tuberculosis or are reactors when tested for either disease.

The compensation prescribed in respect of such animals remains at 75 per cent of their market value (as determined in accordance with Article 3(3) of the 1978 Order) subject, however, to a new limit determined by reference to the "average price". That expression is defined by reference to a new Schedule which provides for the calculation of a monthly average price based upon information concerning sales of cattle contained in returns made every month to the Secretary of State in respect of various markets listed in paragraph 1 of the Schedule. In this way the Order ensures that the compensation limit applicable in respect of a slaughtered animal reflects recent market prices.
