36A.— (1) In the course of treating a patient to whom he is providing treatment under these terms of service, a doctor shall not order on a prescription form a drug or other substance specified in Schedule 3A to these regulations but may otherwise prescribe such a drug or other substance for that patient in the course of that treatment.

 - (ii) that drug is not a controlled drug within the meaning

(a) 1977 c.49.

of the Misuse of Drugs Act 1971(a), other than a drug which is for the time being specified in Schedule 1 to the Misuse of Drugs Regulations 1973(b), and

- (iii) the doctor undertakes to furnish the chemist, within 72 hours, with such a prescription form;
- (b) a chemist may substitute for any drug which is ordered on a prescription form by a non-proprietary name a drug which has the same specification, notwithstanding that the drug which is so substituted is a Scheduled drug;

Regulation 2(1)

ONLY IN CERTAIN CIRCUMSTANCES

Drug 1	Patient 2	Condition 3
Clobazam	Any patient	Epilepsy

EXPLANATORY NOTE

(This Note is not part of the Regulations.)

These Regulations amend the National Health Service (General Medical and Pharmaceutical Services) Regulations 1974 ("the 1974 Regulations"), regulating the terms on which doctors and chemists provide such services under the National Health Service Act 1977.

The regulations introduce to the 1974 Regulations Schedules 3A and 3B which contain drugs which are more expensive than others which have the same clinical or therapeutic effect, and substances which are not regarded as drugs forming part of pharmaceutical services. The terms of service for doctors are amended so that, in the course of treating a patient under general medical services, a doctor shall not issue that patient with a prescription for a drug or other substance listed in that Schedule 3A for supply under pharmaceutical services, and a doctor entitled under the 1974 Regulations to dispense to a patient shall not so supply such a drug. In the case of a drug listed in that Schedule 3B the doctor may so prescribe and supply only in certain circumstances. A doctor may prescribe such items privately, though he may not charge for doing so and can sell such items only if he is a doctor entitled under the 1974 Regulations to dispense to a patient and then only to that patient in respect of a course of treatment.

The regulations make similar amendments to the terms of service for chemists so as to preclude the supply under pharmaceutical services of any drug listed in that Schedule 3A and to limit the supply of any drug listed in Schedule 3B.

Provision is made for the supply under pharmaceutical services before 1st May 1985 of any drug affected by these regulations and prescribed by a doctor before 1st April 1985 for such supply.
