**EXPLANATORY NOTE**

*(This Note is not part of the Regulations.)*

The Reservoirs Act 1975 (Registers, Reports and Records) Regulations 1985 prescribed matters about which undertakers are, by section 11 of the Reservoirs Act 1975, required to keep a record. They also prescribed the information to be given about those matters and the form of the record.

These amending regulations amend the prescribed form of record to make provision for information as to the level above Ordnance Datum of the top of the dam, reservoir wall or embankment and of the top of the wave wall.
