## EXPLANATORY NOTE

*(This note is not part of the Order)*

Section 18 of the Agriculture Act 1986 ("the 1986 Act") gives the Minister of Agriculture, Fisheries and Food ("the Minister") power to designate an area in England as an environmentally sensitive area where it appears to him particularly desirable to conserve, protect or enhance environmental features in that area by the maintenance or adoption of particular agricultural methods.

This Order, which complies with Title V of Council Regulation (EEC) No. 797/85 (OJ No. L93, 30.3.85, p.1) on improving the efficiency of agricultural structures, designates an area in the western part of the South Downs as an environmentally sensitive area (article 3). The area is defined by reference to maps which are available for inspection during normal office hours at the offices of the Ministry of Agriculture, Fisheries and Food at Great Westminster House, Horseferry Road, London SW1P 2AE, and at

- (a) South Eastern Regional Office, Block A, Government Offices, Coley Park, Reading RG1 6DT;
- (b) Guildford Divisional Office, Block B, Government Buildings, Epsom Road, Guildford GU1 2LD;
- (c) Maidstone Divisional Office, Crown House, Sittingbourne Road, Maidstone ME14 5EY.

Section 18(3) of the 1986 Act enables the Minister to enter into a management agreement with any person having an interest in agricultural land in a designated area if the Minister considers that conservation of environmental features in that area may be thereby facilitated, and the Order specifies requirements as to agricultural practices, methods and operations and the installation or use of equipment which must be included in such an agreement (article 4 and Schedule 1).

The Order also contains provisions for recovery of sums paid under an agreement by the Minister in the event of a breach of the specified requirements, and for the determination by arbitration of any question as to whether a breach of those requirements has occurred (article 5). Payments to be made by the Minister under an agreement are to be at the rate of £35 per year per hectare of grassland to which the agreement relates, or, in the case of land subject to the additional provisions set out in Schedule 2, at the rate of £160 per year per hectare of such land (article 6).

The provisions of the Order are similar to those of a previous order which designated an area in the eastern part of the South Downs as an environmentally sensitive area (S.I. 1986/2249).
