SCHEDULE 2

CONDITIONS TO BE OBSERVED BY THE COMPANY FOR THE PREVENTION OF DANGER FROM FIRES

1. Each steam locomotive shall be fitted with a spark arrester of proven and effective design at all times.
2. At all times when steam locomotives are used on the Company's railway the Company shall ensure that their land on either side of the Company's railway is clear of all vegetation such as may give rise to the risk of danger from lineside fires.
3. The Company shall place and maintain fire beaters at such locations on their land adjoining the Company's railway as may from time to time be necessary having regard to the advice of the fire authority as to measures for restricting the spread of fires.
