

SCHEDULE 4

Regulation 11

FAMILIES OF VESSELS

Vessels form part of the same family if they differ from the prototype only—

- (a) in diameter (provided always that they meet the requirements of paragraph 9 of Schedule 1 as to wall thickness);
- (b) in the length of the cylindrical component, provided that—
 - (i) where the prototype has one or more shell rings in addition to the ends, they all have at least one shell ring; or
 - (ii) where the prototype consists of two outwardly dished ends, none of them has any shell ring; or
- (c) in both (a) and (b).
