1992 No. 3280

**The Genetically Modified Organisms
(Deliberate Release) Regulations 1992**

PART II

RELEASING ORGANISMS

Exemptions from regulation 6

7. An application for a consent to release genetically modified organisms need not contain the information prescribed in regulation 6(1)(a) and (b) if—

- (a) the information was contained either—
 - (i) in an application which was made by the same person in relation to a previous release of those organisms or of the same description of organisms, or
 - (ii) in an application which was made by some other person in relation to a previous release of those organisms or of the same description of organisms,
- (b) the application refers to the previous application in which the information was contained, and
- (c) where paragraph (a)(ii) applies, the application contains the agreement in writing of the person who made the previous application to a reference to that application being made.
