

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

SCHEDULE 2

Particulars to be Contained in Advertisements to Health Professionals

7. A succinct statement of the entries in the summary of product characteristics or, if there is no summary of product characteristics, the data sheet, relating to dosage and method of use relevant to the indications shown. The method of administration should also be shown where this is not obvious.
