

## SCHEDULE 1

(Regulation 2(2))

(List of categories of appliance contained in Annex II of the Directive)

1. Those appliances whose batteries are soldered, welded or otherwise permanently attached to terminals to ensure continuity of power supply in demanding industrial usage and to preserve the memory and data functions of information technology and business equipment, where use of the batteries or accumulators is technically necessary.

2. Reference cells in scientific and professional equipment, and batteries and accumulators placed in medical devices designed to maintain vital functions and in heart pacemakers, where uninterrupted functioning is essential and the batteries and accumulators can be removed only by qualified personnel.

3. Portable appliances, where replacement of the batteries by unqualified personnel could present safety hazards to the user or could affect the operation of the appliance, and professional equipment intended for use in highly sensitive surroundings, for example in the presence of volatile substances.
