1995 No. 1014

**The Measuring Equipment (Liquid
Fuel and Lubricants) Regulations 1995**

TESTING

Closing of tanks etc

16. An inspector shall securely re-fasten any tank or container opened under regulation 15(1) above immediately after the conclusion of the test and the return of any test liquid withdrawn during testing or its placing in another receptacle; and for this purpose he shall replace any seal or link broken by him in opening the said tank or container with a seal upon which he shall affix the stamp.
