**1998 No. 2514**

**The Merchant Shipping (Passenger Ship Construction:  
Ships of Classes I, II and II(A)) Regulations 1998**

**PART VIII**

**BOILERS AND MACHINERY**

**Ventilating systems in machinery spaces** *Requirements for ships constructed on or after 1st September 1984*

**74.** Machinery spaces of Category A shall be ventilated so that an adequate supply of air is maintained for the safety and well-being of personnel and the operations of machinery, including boilers, at full power in all weather conditions. Any other machinery space shall be adequately ventilated having regard in particular to the prevention of an accumulation of oil vapour under all normal conditions.
